

CHURCH'S

Potato Bug Finish

Ready for use dry.
For Sale by **W. J. MALLEY,**
DESERONTO, ONT.

VOL. XIII

DESERONTO, ONT., FRIDAY, JULY 5, 1895.

NO. 42

Anything we can do for You?—We address this question to every reader of this paper, whether they live in Kingston or a hundred miles away from it. We are selling Dry Goods—not only dress stuffs but dry goods of many kinds. Ours is a store of many departments, each of them under the guiding hands of experts in their line. The store is conducted on a modern scale and offers the buyer every inducement any metropolitan concern can offer. There are no goods made that are any better than the lines we carry. There are no prices quoted on first-class stock lower than ours.

Dry Goods by Mail.—We offer out-of-town folks superior advantages for buying by mail. We execute every order entrusted to us promptly, carefully and faithfully. People living many miles away can shop with us as pleasantly and profitably as the people who come to the store.

Send us your orders for anything you may need. State explicitly what you want, and if it is not in our stock we will make every endeavor to get it for you.

Stacey & Stacey
DRY GOODS IMPORTERS

106 & 108 PRINCESS STREET, KINGSTON.

We deliver all orders free of postage charges. Send money by P. O. Order or Registered Mail.

Address a Postal Card to

C. B. SCANTLEBURY,

Belleville,

The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,—
Please send me samples of Wall Paper suitable for (mention rooms) and not to exceed (mention price) per single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for a yard of a home, and which we positively guarantee better, and lower in price than any other house in Canada. The samples will be large and in sets comprising Wall Paper and Borders, and will enable you to make a selection for an entire house as you wish by your own friends and with your friends to assist in the selection.

You have absolutely no responsibility in the matter—you simply write the postal as above and we do all the rest—send you samples enclosing order blanks, a guide "How to Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of the trouble and anxiety of Wall Paper shopping. Positively Guarantee Satisfaction. Can we say more?

Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

WOULD NOT BE WITHOUT IT UNDER ANY CIRCUMSTANCES.

Douglas Bro. & Co., Napane, Ont.:
Dear Sirs.—During years 1890-91, I was troubled with a large skin growing on the right side of my neck near the ear. Had consulted several physicians and used every remedy, but the skin would not go away. I did, and before I had used half a twenty-five cent bottle was permanently cured. Since then I have used it for everything where outward application is required; and yet to learn of anything in reason that I cannot cure myself. No man has any idea of its value until he has used it. I believe anyone who has used it would not be without it under any circumstances.

Respectfully yours,
NATHANIEL W. REID,
Enterprise P. O.

STRAWBERRY FESTIVAL.

A very successful strawberry festival under the auspices of the Royal Templars of Temperance of Northport was held on Wednesday, 24th, at the residence of Manly E. Way. Although the weather was unfavorable the large and numerous guests were both packed with a large assembly, representatives being present from Deseronto, Picton, Belleville, Kingston, and other places. Among others present from Deseronto were J. M. Smith, R. Miller, D. W. Dart, Mr. and Mrs. G. Bradshaw, F. Butler, etc., and a large number of ladies. The festival was a success, and the Royal Templars of Temperance of Northport are excellent entertainers and the whole affair was creditable to all concerned.

HAVE YOU SEEN THEM?

Our large assortment of boys' blazers. We have something to please the most fastidious mother at very reasonable prices. Your inspection is invited. Gough the Clothier, Belleville.

FLOWER SERVICE.

The annual "Flower" service of the Presbyterian Sunday school was held in the church of the Redeemer last Sunday afternoon. The service was held in the church of the Redeemer in procession from the school room to the church all wearing bouquets of pretty flowers. The church itself was prettily decorated with flowers. A large number of people were present, and the service was a success. The "Flower" service is a very interesting and profitable service. It was given by Jessie Graham. "Why did God make the flowers?" an interesting lesson was given by six little girls, Helen Hampton, Anna Dalton, Lily Barr, Lena Monaghan, Eva Cook and Gertrude Gordon, led by Miss Nellie Gammon. A pretty vocal solo by "Ever Looking Upward" was sweetly sung by the choir. The service was a success. The "Flower" service is a very interesting and profitable service. It is with no ordinary feelings of regret that we chronicle the lamented death of Frank Daniel Clement, one of the most respected residents of the town. The deceased had suffered during the winter from an attack of the grippe which, although it left some traces, was in time overcome. Nine or ten weeks ago he caught cold which was followed by an attack of the grippe which, although it left some traces, was in time overcome. Nine or ten weeks ago he caught cold which was followed by an attack of the grippe which, although it left some traces, was in time overcome.

FOXBORO.

Wm. Falconer attended the C. E. Convention in Deseronto.
The dry weather is causing much anxiety and farmers are discouraged.
The village is full of visitors.
Miss McKee, one of the teachers, will spend the holidays in Montreal and Prince Edward Island.
A number of our sporting men took in the races at Napane on July 1st and 2nd.
Great interest is manifested in the Manitoba school question.

MARYSVILLE.

T. Hurley and sister, of Thurlow, were the guests of Miss Anderson on Sunday.
J. E. Ryan and T. H. Port attended the entrance examination in Deseronto last week.
Miss Mary Curry is attending the primary examination at the same place this week.
We wish her success.
A number from this vicinity took in the races at Napane on July 1st and 2nd.
Messrs. McNeil and Ryan visited Read on Sunday.

The material for the vault at St. Mary's cemetery has been placed on the grounds and we expect it to be soon completed, the money requisite for it being donated by the late C. P. Lyman, as was likewise that for the bell.
Miss Aggie Driscoll, of Deseronto, and Miss Matel Ryan, of Belleville, spent a few days at their respective homes last week.
Mrs. J. Fahy, of the Marysville House, is under medical treatment in Belleville hospital for the past two weeks.

On Sunday last, Mrs. J. Drummond had a cactus blossomed which has in all one hundred and eighty blossoms but only about a dozen are fully developed as yet. Mrs. Oliver has also a most beautiful one, the blossoms being larger and prettier, but fewer in number.
Miss E. Asselting, of Marlboro, is visiting friends here.

SHANNONVILLE.

Mr. A. McAlister, of Pt. St. Charles, Que., who has been visiting at his home returned to his employment on Monday last.
Mrs. Dr. Hudson, of Read, has been visiting her sister, Miss Maud Earle, during the past week.
Mr. Alex. Findlay, of Springfield, London, is the guest of her father, A. B. Randall.
Mr. John Mayell, who was in Belleville writing on the recent examinations, returned home on Monday.
Mr. & Mrs. Jas. Kerr spent Monday last at Napane.

Mr. & Mrs. Archer, Deseronto, were visiting their brother, Mr. Stratton, this week.
Mr. Harry Earle, Belleville, spent the 1st at home.
Mr. & Mrs. L. Lake and children are visiting her sister, Mrs. Anderson, of Deseronto.

TYENDINAGA RESERVE.

L. O. L. No. 99, will turn out in full force for services at St. James church on Sunday afternoon next.
The Mission School picnic on Saturday 29th June was a very scene a grand success. Pupils and their parents are pleased to hear that Miss Gordon will return after the vacation.
The chiefs of the Band met on Wednesday at the Council House for the transaction of important business which had been laid over from last month.

A picnic to celebrate Dominion Day was held at Eagles Nest at which there was plenty of firewater and many sore heads. It was time an example was made of some of the law breakers.

The Mohawk Orangemen will appear in a new uniform at the celebration of the 12th of July in Belleville.

The venerable Missionary celebrates his 70th birthday today, the 5th July.

CONWAY.

The farmers in this vicinity are all busy in their meadows. The hay crops are very light owing to so much dry weather and the pastures are also getting very bare.
Mr. & Mrs. Ham, of Kansas City, are the guests of George Ham, Esq., also Mrs. Vrooman, of Yarker, is visiting at the same place.

Miss S. Shorey spent Friday and Saturday with her friends at Kingston.
W. H. McDonald, Esq., made a flying visit to Stella and Emerald last Friday.

J. S. Neilson, Esq., and family passed down on the Hero last Friday on their way home after spending a few days with friends at Port Hope.

W. H. Wright will feel very proud now when he gets talking about "that boy of mine."
Mr. & Mrs. R. Phippen are spending a few days with friends at Sydenham.

Messrs. Haylock Bros., of Picton, have been freshening up the residence of Robt. Neilson, Esq., with paper, paint and varnish.
The Presbyterians held a strawberry festival in the hall at Belleville last Thursday night which was a success.

Mrs. Wm. McKeever arrived home last week after spending a few days with friends in Belleville.

DEMORESTVILLE.

Miss Maud Lambly, of Bloomfield, is visiting at Dr. Ryan's.
The service was well attended at the Methodist church on Sunday evening.
Wm. McGinnis is at the Kingston hospital to have an operation on his eyes.

Miss H. Ryan and Mr. F. Wilson were married on Thursday last at the home of the bride, after which they left for Old Orchard Beach.

The Misses Gordon are spending a short time among friends at Picton and Waupoos.
Orrin De Shane, Jr., has moved to the village.
The Sunday Schools of this place propose having their annual excursion at a date not far distant.

Mr. & Mrs. S. Palmer spent Saturday and Sunday at Robt's Mills.
James Gordon was a guest at H. R. Barren's on Sunday last.
Miss Julia Gordon, of Tweed, is stopping with her brother, Nelson Gordon for a short time.
Mrs. R. S. Solmes, of Montreal, is spending a few weeks in her native village.
Miss Allie Mills, of Toronto, is visiting her parents for a short time.
T. Leslie and sister, of Northport, attended service here on Sunday evening.

HILLIER.

The drought continues and farmers are in anything but a happy state of mind.
A great many took in the big day at Picton on Monday. Sorry to see so many drunken soldiers, a disgrace to their uniforms.
John Napleton mourns the loss of his faithful hound which was scalded by parties unknown.
Our troopers have returned home from the camp at Kingston. All had a good time.
Some early peas have been cut, but the yield is not all an average.

BLESSINGTON.

The farmers have very little trouble with hay in this part as the crop is very light.
The people who attended the Workmen's excursion last week were here were very much pleased with the trip.
I. Robinson raised his new barn on Friday and it now enclosed.
Eugene Bagley and sisters, of Melrose, visited here on Sunday.
Miss Gertrude Mills, of Belleville, is visiting at Rev. Mr. Ross' home.

Misses M. Robinson and Daisy Phillips attended the examinations at Belleville last week.
Mr. Ira Lonsing, of Huntingdon, visited friends here last week.
Miss Ida and Jessie Sherman are now home.

Quite a number of our young folks attended the picnic in Mr. Hanley's grove last Wednesday.

Mr. Andrew Denike, Jr., left for Clinton on Tuesday to take up his abode there in future. Andrew will be much missed by one and all.
Miss Bertha Goss has gone to her home in Stirling for the summer holidays.

Miss Edith Leslie has been in our section sewing for the past week.
Mr. G. Garbar, proposes organizing an Epworth League for our young people in the near future.

Mr. & Mrs. J. Robinson and Blanch attended the lawn social on Third line last Monday.

The cherry season has now arrived and with it the usual number of "night birds" but they don't disturb the neighbors as they seem to be a quiet species.
Miss Hattie Gossell visited at Mr. J. Robinson's last week.

Miss Clara Bowden has returned home after spending a few days at Mr. D. Beatty's.

CANADA HAS ALL THE NICKEL.

And This May Give Her Control of the Shipbuilding Industry.
"When nickel steel comes into general use for the construction of war vessels, it is undoubtedly," said a Canadian gentleman at the Great Northern, the other day, "Canada will, in a sense, control the shipbuilding industry, because, so far as is at present known, there is very little nickel outside of the Dominion, while we have nickel bearing pyrites practically without limit. That whole vast stretch of territory reaching from Lake Superior to Labrador is rich in it and will produce hundreds of thousands of tons of the same annually for an unlimited period whenever the demand requires it."

"How will this control the shipbuilding industry?" he asked. "It will be demonstrated by conclusive test of your proving grounds at Sandy Hook and elsewhere that steel, mixed with nickel, is stronger than ordinary steel. In the construction of men-of-war the advantage is obvious and in building merchant vessels the benefit is to be derived from the use of nickel-steel is equally plain, as it will enable them to be built much lighter than they are now, which means less coal and less engine power with an equal amount of security and equal amount of speed. It will only be a few years when a wooden vessel in the port of Chicago will be outgunned by a novel and the new vessels will before very long, for the reasons indicated, be made of nickel-steel, and this will be the only metal in the world for the purpose of your great shipbuilding yards in Cleveland, Detroit, South Chicago and other points."

Another advantage which steel having nickel in its composition possesses over ordinary steel is that it will not corrode and that barnacles cannot get a foothold on it, so that a nickel-steel ship's bottom will never require to be scraped."—Times Herald.

Magic Liquid.

Much amusement may be afforded at a party by pouring out of the same bottle a liquid which assumes three different colors. This is how it is done: Steep logwood shavings which may be bought at any drug store in water, and when a good red color has been obtained pour the liquid into a wine bottle. Take three tumblers and, without being observed, rinse one of them out with strong vinegar, put a little powdered alum into the second and leave the third without any preparation. Pour the liquid stirred with a stick key or any piece of iron which has been previously dipped in strong vinegar; pour into the first, the red liquid will assume a violet hue.

Edicated Soldiers.

It speaks well for the German army that of the 250,000 recruits who joined the colors in 1884 there were only 617 who could not read or write. According to the official reports issued at Paris no less than 25,000 were ignorant of these elements of the alphabet among the 900,000 conscripts who joined the French army during the same period. At Lisbon—admittedly the most highly educated town in Portugal—more than half of the population can neither read nor write.

New Species of Ape.

The Zoological Gardens at Berlin have just received from the British East India an ape utterly unlike anything of the kind ever seen before in Europe. It is of the orang-outang species, and of a bright, fiery red, with black neck and a remarkable hooked nose. The inhabitants of Sumatra are said to regard it with superstitious reverence, and it is alleged that these apes can swallow their larynxes to an enormous extent, uttering loud sounds which cannot be described in words.

DISTRICT ITEMS.

Belleville postal authorities are asking \$2 for taxes and postal refuse to pay such a large amount.
Belleville reports 11 births, 6 marriages and 10 deaths for June.

George Fice, stage driver, looking at the races at Robt's Mills, was thrown from his buggy and seriously injured.

Belleville's imports last month show an increase of \$7,919, and exports a decrease of \$80,608 as compared with the same month of last year.

Dr. T. W. Jeffs, of Queensboro, and Miss Cave, of Toronto, were married last week.
Mrs. Henry Sweet, formerly of Trenton, died at Duluth, aged 35.

NEWS OF THE DAY.

Prince Bismarck's health is very unsatisfactory.
A Big Point farmer, Mr. Wm. Emery, committed suicide by taking Paris green.

The jury at Saint St. Marie, died in the case of Louis Savie, on trial for murder.
A laborer in Dublin was blown to pieces by a tin canister he picked up on Boyne street.

Lord Salisbury's Cabinet now consists of nineteen members, and is the largest ever formed in Great Britain.
The international intercollegiate cricket match closed at Philadelphia with a victory for the United States.

Delegates to the International Railway Congress meeting in London will go Windsor to pay their respects to her Majesty.

Mr. F. G. Wallace, formerly of Toronto to work at Beaucauld, Quebec, while swimming out to rescue his son, who was adrift in a boat. He will be buried here.

Mr. Walker and a young lady of Dundas were driving across the Northern and Northwestern R.R. when a train killed the horse and smashed the buggy. The occupants were not hurt.

METHODIST CHURCH.

Rev. R. Taylor conducted the services last Sunday.
Rev. E. N. Baker, M. A., B. D., of Belleville, will occupy the pulpit at both services next Sunday at Kingston, and will preach in Bridge Street church, Belleville, on that day.

Great preparations are being made for the Sunday school picnic which will be held on the 17th.

ST. MARK'S CHURCH NOTES.

A meeting of the Brotherhood of St. Andrew will be held on Thursday, July 11th, in order to consider plans for the work of the summer and autumn months.

A large number of the ladies of the ice-cream social to be given by the ladies' aid on Wednesday evening, a pretty feature will be the scarf drive.

The statue of Sir John Macdonald, erected to his memory by the nation, was unveiled at Ottawa.

There was a break in the price of wheat in Chicago Monday and September closed 1-4 cents lower.

Cyclist John S. Johnson rode a mile at Island Track Monday in 1:59 1-2, the fastest ever made in a race.

The Toronto yacht Vedette won the Queen's Cup in the race off Hamilton Monday. Twenty-three yachts started.

The tower of Dominion Day in Montreal was the unveiling of a statue by De Maisonneuve, the founder of the city.

Rev. O. C. S. Wallace, pastor of Bloor Street Baptist Church, Toronto, has accepted the Chancellorship of McMaster University.

Owner Jos. Duggan, trainer Chas. Hay for the alleged inconsistent running of the horse.

Mr. Gerald Ballour, a nephew of Lord Salisbury, and brother of Mr. A. J. Ballour, has, it is stated, been appointed Chief Secretary for Ireland.

Extra guards have been placed on duty at the Toronto gaol, owing to a rumour that some attempt might be made to assist a prisoner awaiting extradition to escape.

The Queen appears to have taken a new lease of life. Her activity and her energy are surprising her entourage. Her interest in the change of Ministry is very keen.

Ald. Patrick Kennedy, of Montreal, and the representative of the Liberal Centre in the Quebec Legislature, died about midnight on Saturday night. The one of the best men of his generation and most respected of Montreal's citizens.

Cold in the head—Neal Bain gives instant relief; speedily cures. Never fails.

BETWEEN LIFE AND DEATH. THE NARROW ESCAPE OF A WELL KNOWN NEWBURGH MAN.

BY THE LOSS OF A FINGER MR. CHAS. MOORE OF THAT VILLAGE NEARS DEATH'S DOOR, BUT IS RESCUED AFTER DOCTORS HAVE FAILED.

In the pleasant little village of Newburgh, on the Bay of Quinte, a railway, seven miles from Napanee, live Mr. C. H. Moore and family. They are favorably known throughout the entire section, having been residents of Newburgh for years. Recently Mr. Moore has undergone a terrible sickness, and his restoration to health was the talk of the village and many in Napanee and vicinity heard of it, and the result was that the *Beaver* reporter was detailed to make an investigation into the matter.

Mr. Moore is a carriage maker and while working in Mr. Fink's factory last winter met with an accident that caused him the loss of the forefinger of the right hand. It was following this accident that his sickness began. He lost flesh, was pale, suffered from dizziness, and at times he could scarcely avoid falling. He consulted physicians and tried numerous medicines, but without any benefit. He was constantly growing worse and the physician seemed puzzled, and none of his friends thought he would recover. One day a neighbor urged Mrs. Moore to persuade her husband to give Dr. Williams' Pink Pills a trial, and after much persuasion he consented.

A few days he began to feel better, and it no longer needed persuasion to induce him to continue the treatment. A marvelous change came over him. Each day he seemed to gather new strength and new life, and after eight boxes had been taken, he found himself again a well man. Mr. Moore is now about five years of age, he has been healthy and has worked hard all his life until the sickness alluded to, and now he is as hale and hearty as the best of us, and does not hesitate to give the credit to the medicine that restored him to health, at a cost no greater than a couple of visits to the doctor.

Time and again it has been proved that Dr. Williams' Pink Pills, which physicians and other medicines fail. No other medicine has such a wonderful record, and no other medicine gives such undoubted proof of the genuineness of every cure published, and this accounts for the fact that go where you will hear nothing but words of praise for Dr. Williams' Pink Pills. This great reputation also accounts for the fact that unscrupulous dealers here and there try to impose a bulk pill upon their customers with the claim that it is "Genuine Pink Pills," while a host of imitators are putting up pills in packages somewhat similar in style in the hope that they will reap the benefit of the merit of the genuine Pink Pills. No matter what any dealer says no pill is genuine unless it bears the full trade mark, "Dr. Williams' Pink Pills for Pale People," and the name of the brand is on every box. Always refuse substitutes which are worthless and may be dangerous.—Napanee *Beaver*.

Just having killed an immense bull buffalo, and sent meat to market makes me think more forcibly than ever that I am in stock. They are a wonderful pill. Send 3 dozen at once, I am nearly out. P. S.—send by post, J. W. Ireland, Guernsey, N. B.

At the present time the weather is very hot, and the sun is shining brightly. The temperature of the body has risen to 100 degrees, and the first stage of the treatment was begun. Collins was kept in the tub thirty minutes, and the physician was beside him, carefully recording his temperature. The ice water treatment is quick and effective. Within a few minutes there was a change, and in a quarter of an hour the temperature of the body began to fall. In half an hour it had gone down several degrees, though still above normal, and the electricity turned on and Collins lifted out of his icy bath.

This time therefore was kept on, and the second stage of the treatment was begun. Collins was kept in the tub thirty minutes, and the physician was beside him, carefully recording his temperature. The ice water treatment is quick and effective. Within a few minutes there was a change, and in a quarter of an hour the temperature of the body began to fall. In half an hour it had gone down several degrees, though still above normal, and the electricity turned on and Collins lifted out of his icy bath.

Four hours later Collins woke up. He felt very weak, but his temperature was normal and his mind clear. From that time his recovery was that of a convalescent.—Recorder.

The Earlom of Menzies.

As the present campaign of a gentleman resident in Toronto to succeed to the title of the Gramhams of Menzies has appeared in the press, the following facts may be made known to the electors. Mr. George Marshall, the Earlom, is the son of the late Mr. James Graham, J.P., D.L., of Lettichtown, in the Stewartry of Menzies, Perthshire, by his second wife, Isabella, Marchioness of Menzies, daughter of the late Lord of Menzies.

He was born in 1841, and was educated at the University of Edinburgh. He was a member of the House of Commons from 1868 to 1874, and was a member of the House of Lords from 1874 to 1881. He was a member of the House of Commons from 1881 to 1887, and was a member of the House of Lords from 1887 to 1894. He was a member of the House of Commons from 1894 to 1901, and was a member of the House of Lords from 1901 to 1908. He was a member of the House of Commons from 1908 to 1915, and was a member of the House of Lords from 1915 to 1922. He was a member of the House of Commons from 1922 to 1929, and was a member of the House of Lords from 1929 to 1936. He was a member of the House of Commons from 1936 to 1943, and was a member of the House of Lords from 1943 to 1950. He was a member of the House of Commons from 1950 to 1957, and was a member of the House of Lords from 1957 to 1964. He was a member of the House of Commons from 1964 to 1971, and was a member of the House of Lords from 1971 to 1978. He was a member of the House of Commons from 1978 to 1985, and was a member of the House of Lords from 1985 to 1992. He was a member of the House of Commons from 1992 to 1999, and was a member of the House of Lords from 1999 to 2006. He was a member of the House of Commons from 2006 to 2013, and was a member of the House of Lords from 2013 to 2020. He was a member of the House of Commons from 2020 to 2027, and was a member of the House of Lords from 2027 to 2034. He was a member of the House of Commons from 2034 to 2041, and was a member of the House of Lords from 2041 to 2048. He was a member of the House of Commons from 2048 to 2055, and was a member of the House of Lords from 2055 to 2062. He was a member of the House of Commons from 2062 to 2069, and was a member of the House of Lords from 2069 to 2076. He was a member of the House of Commons from 2076 to 2083, and was a member of the House of Lords from 2083 to 2090. He was a member of the House of Commons from 2090 to 2097, and was a member of the House of Lords from 2097 to 2104. He was a member of the House of Commons from 2104 to 2111, and was a member of the House of Lords from 2111 to 2118. He was a member of the House of Commons from 2118 to 2125, and was a member of the House of Lords from 2125 to 2132. He was a member of the House of Commons from 2132 to 2139, and was a member of the House of Lords from 2139 to 2146. He was a member of the House of Commons from 2146 to 2153, and was a member of the House of Lords from 2153 to 2160. He was a member of the House of Commons from 2160 to 2167, and was a member of the House of Lords from 2167 to 2174. He was a member of the House of Commons from 2174 to 2181, and was a member of the House of Lords from 2181 to 2188. He was a member of the House of Commons from 2188 to 2195, and was a member of the House of Lords from 2195 to 2202. He was a member of the House of Commons from 2202 to 2209, and was a member of the House of Lords from 2209 to 2216. He was a member of the House of Commons from 2216 to 2223, and was a member of the House of Lords from 2223 to 2230. He was a member of the House of Commons from 2230 to 2237, and was a member of the House of Lords from 2237 to 2244. He was a member of the House of Commons from 2244 to 2251, and was a member of the House of Lords from 2251 to 2258. He was a member of the House of Commons from 2258 to 2265, and was a member of the House of Lords from 2265 to 2272. He was a member of the House of Commons from 2272 to 2279, and was a member of the House of Lords from 2279 to 2286. He was a member of the House of Commons from 2286 to 2293, and was a member of the House of Lords from 2293 to 2300. He was a member of the House of Commons from 2300 to 2307, and was a member of the House of Lords from 2307 to 2314. He was a member of the House of Commons from 2314 to 2321, and was a member of the House of Lords from 2321 to 2328. He was a member of the House of Commons from 2328 to 2335, and was a member of the House of Lords from 2335 to 2342. He was a member of the House of Commons from 2342 to 2349, and was a member of the House of Lords from 2349 to 2356. He was a member of the House of Commons from 2356 to 2363, and was a member of the House of Lords from 2363 to 2370. He was a member of the House of Commons from 2370 to 2377, and was a member of the House of Lords from 2377 to 2384. He was a member of the House of Commons from 2384 to 2391, and was a member of the House of Lords from 2391 to 2398. He was a member of the House of Commons from 2398 to 2405, and was a member of the House of Lords from 2405 to 2412. He was a member of the House of Commons from 2412 to 2419, and was a member of the House of Lords from 2419 to 2426. He was a member of the House of Commons from 2426 to 2433, and was a member of the House of Lords from 2433 to 2440. He was a member of the House of Commons from 2440 to 2447, and was a member of the House of Lords from 2447 to 2454. He was a member of the House of Commons from 2454 to 2461, and was a member of the House of Lords from 2461 to 2468. He was a member of the House of Commons from 2468 to 2475, and was a member of the House of Lords from 2475 to 2482. He was a member of the House of Commons from 2482 to 2489, and was a member of the House of Lords from 2489 to 2496. He was a member of the House of Commons from 2496 to 2503, and was a member of the House of Lords from 2503 to 2510. He was a member of the House of Commons from 2510 to 2517, and was a member of the House of Lords from 2517 to 2524. He was a member of the House of Commons from 2524 to 2531, and was a member of the House of Lords from 2531 to 2538. He was a member of the House of Commons from 2538 to 2545, and was a member of the House of Lords from 2545 to 2552. He was a member of the House of Commons from 2552 to 2559, and was a member of the House of Lords from 2559 to 2566. He was a member of the House of Commons from 2566 to 2573, and was a member of the House of Lords from 2573 to 2580. He was a member of the House of Commons from 2580 to 2587, and was a member of the House of Lords from 2587 to 2594. He was a member of the House of Commons from 2594 to 2601, and was a member of the House of Lords from 2601 to 2608. He was a member of the House of Commons from 2608 to 2615, and was a member of the House of Lords from 2615 to 2622. He was a member of the House of Commons from 2622 to 2629, and was a member of the House of Lords from 2629 to 2636. He was a member of the House of Commons from 2636 to 2643, and was a member of the House of Lords from 2643 to 2650. He was a member of the House of Commons from 2650 to 2657, and was a member of the House of Lords from 2657 to 2664. He was a member of the House of Commons from 2664 to 2671, and was a member of the House of Lords from 2671 to 2678. He was a member of the House of Commons from 2678 to 2685, and was a member of the House of Lords from 2685 to 2692. He was a member of the House of Commons from 2692 to 2699, and was a member of the House of Lords from 2699 to 2706. He was a member of the House of Commons from 2706 to 2713, and was a member of the House of Lords from 2713 to 2720. He was a member of the House of Commons from 2720 to 2727, and was a member of the House of Lords from 2727 to 2734. He was a member of the House of Commons from 2734 to 2741, and was a member of the House of Lords from 2741 to 2748. He was a member of the House of Commons from 2748 to 2755, and was a member of the House of Lords from 2755 to 2762. He was a member of the House of Commons from 2762 to 2769, and was a member of the House of Lords from 2769 to 2776. He was a member of the House of Commons from 2776 to 2783, and was a member of the House of Lords from 2783 to 2790. He was a member of the House of Commons from 2790 to 2797, and was a member of the House of Lords from 2797 to 2804. He was a member of the House of Commons from 2804 to 2811, and was a member of the House of Lords from 2811 to 2818. He was a member of the House of Commons from 2818 to 2825, and was a member of the House of Lords from 2825 to 2832. He was a member of the House of Commons from 2832 to 2839, and was a member of the House of Lords from 2839 to 2846. He was a member of the House of Commons from 2846 to 2853, and was a member of the House of Lords from 2853 to 2860. He was a member of the House of Commons from 2860 to 2867, and was a member of the House of Lords from 2867 to 2874. He was a member of the House of Commons from 2874 to 2881, and was a member of the House of Lords from 2881 to 2888. He was a member of the House of Commons from 2888 to 2895, and was a member of the House of Lords from 2895 to 2902. He was a member of the House of Commons from 2902 to 2909, and was a member of the House of Lords from 2909 to 2916. He was a member of the House of Commons from 2916 to 2923, and was a member of the House of Lords from 2923 to 2930. He was a member of the House of Commons from 2930 to 2937, and was a member of the House of Lords from 2937 to 2944. He was a member of the House of Commons from 2944 to 2951, and was a member of the House of Lords from 2951 to 2958. He was a member of the House of Commons from 2958 to 2965, and was a member of the House of Lords from 2965 to 2972. He was a member of the House of Commons from 2972 to 2979, and was a member of the House of Lords from 2979 to 2986. He was a member of the House of Commons from 2986 to 2993, and was a member of the House of Lords from 2993 to 3000. He was a member of the House of Commons from 3000 to 3007, and was a member of the House of Lords from 3007 to 3014. He was a member of the House of Commons from 3014 to 3021, and was a member of the House of Lords from 3021 to 3028. He was a member of the House of Commons from 3028 to 3035, and was a member of the House of Lords from 3035 to 3042. He was a member of the House of Commons from 3042 to 3049, and was a member of the House of Lords from 3049 to 3056. He was a member of the House of Commons from 3056 to 3063, and was a member of the House of Lords from 3063 to 3070. He was a member of the House of Commons from 3070 to 3077, and was a member of the House of Lords from 3077 to 3084. He was a member of the House of Commons from 3084 to 3091, and was a member of the House of Lords from 3091 to 3098. He was a member of the House of Commons from 3098 to 3105, and was a member of the House of Lords from 3105 to 3112. He was a member of the House of Commons from 3112 to 3119, and was a member of the House of Lords from 3119 to 3126. He was a member of the House of Commons from 3126 to 3133, and was a member of the House of Lords from 3133 to 3140. He was a member of the House of Commons from 3140 to 3147, and was a member of the House of Lords from 3147 to 3154. He was a member of the House of Commons from 3154 to 3161, and was a member of the House of Lords from 3161 to 3168. He was a member of the House of Commons from 3168 to 3175, and was a member of the House of Lords from 3175 to 3182. He was a member of the House of Commons from 3182 to 3189, and was a member of the House of Lords from 3189 to 3196. He was a member of the House of Commons from 3196 to 3203, and was a member of the House of Lords from 3203 to 3210. He was a member of the House of Commons from 3210 to 3217, and was a member of the House of Lords from 3217 to 3224. He was a member of the House of Commons from 3224 to 3231, and was a member of the House of Lords from 3231 to 3238. He was a member of the House of Commons from 3238 to 3245, and was a member of the House of Lords from 3245 to 3252. He was a member of the House of Commons from 3252 to 3259, and was a member of the House of Lords from 3259 to 3266. He was a member of the House of Commons from 3266 to 3273, and was a member of the House of Lords from 3273 to 3280. He was a member of the House of Commons from 3280 to 3287, and was a member of the House of Lords from 3287 to 3294. He was a member of the House of Commons from 3294 to 3301, and was a member of the House of Lords from 3301 to 3308. He was a member of the House of Commons from 3308 to 3315, and was a member of the House of Lords from 3315 to 3322. He was a member of the House of Commons from 3322 to 3329, and was a member of the House of Lords from 3329 to 3336. He was a member of the House of Commons from 3336 to 3343, and was a member of the House of Lords from 3343 to 3350. He was a member of the House of Commons from 3350 to 3357, and was a member of the House of Lords from 3357 to 3364. He was a member of the House of Commons from 3364 to 3371, and was a member of the House of Lords from 3371 to 3378. He was a member of the House of Commons from 3378 to 3385, and was a member of the House of Lords from 3385 to 3392. He was a member of the House of Commons from 3392 to 3399, and was a member of the House of Lords from 3399 to 3406. He was a member of the House of Commons from 3406 to 3413, and was a member of the House of Lords from 3413 to 3420. He was a member of the House of Commons from 3420 to 3427, and was a member of the House of Lords from 3427 to 3434. He was a member of the House of Commons from 3434 to 3441, and was a member of the House of Lords from 3441 to 3448. He was a member of the House of Commons from 3448 to 3455, and was a member of the House of Lords from 3455 to 3462. He was a member of the House of Commons from 3462 to 3469, and was a member of the House of Lords from 3469 to 3476. He was a member of the House of Commons from 3476 to 3483, and was a member of the House of Lords from 3483 to 3490. He was a member of the House of Commons from 3490 to 3497, and was a member of the House of Lords from 3497 to 3504. He was a member of the House of Commons from 3504 to 3511, and was a member of the House of Lords from 3511 to 3518. He was a member of the House of Commons from 3518 to 3525, and was a member of the House of Lords from 3525 to 3532. He was a member of the House of Commons from 3532 to 3539, and was a member of the House of Lords from 3539 to 3546. He was a member of the House of Commons from 3546 to 3553, and was a member of the House of Lords from 3553 to 3560. He was a member of the House of Commons from 3560 to 3567, and was a member of the House of Lords from 3567 to 3574. He was a member of the House of Commons from 3574 to 3581, and was a member of the House of Lords from 3581 to 3588. He was a member of the House of Commons from 3588 to 3595, and was a member of the House of Lords from 3595 to 3602. He was a member of the House of Commons from 3602 to 3609, and was a member of the House of Lords from 3609 to 3616. He was a member of the House of Commons from 3616 to 3623, and was a member of the House of Lords from 3623 to 3630. He was a member of the House of Commons from 3630 to 3637, and was a member of the House of Lords from 3637 to 3644. He was a member of the House of Commons from 3644 to 3651, and was a member of the House of Lords from 3651 to 3658. He was a member of the House of Commons from 3658 to 3665, and was a member of the House of Lords from 3665 to 3672. He was a member of the House of Commons from 3672 to 3679, and was a member of the House of Lords from 3679 to 3686. He was a member of the House of Commons from 3686 to 3693, and was a member of the House of Lords from 3693 to 3700. He was a member of the House of Commons from 3700 to 3707, and was a member of the House of Lords from 3707 to 3714. He was a member of the House of Commons from 3714 to 3721, and was a member of the House of Lords from 3721 to 3728. He was a member of the House of Commons from 3728 to 3735, and was a member of the House of Lords from 3735 to 3742. He was a member of the House of Commons from 3742 to 3749, and was a member of the House of Lords from 3749 to 3756. He was a member of the House of Commons from 3756 to 3763, and was a member of the House of Lords from 3763 to 3770. He was a member of the House of Commons from 3770 to 3777, and was a member of the House of Lords from 3777 to 3784. He was a member of the House of Commons from 3784 to 3791, and was a member of the House of Lords from 3791 to 3798. He was a member of the House of Commons from 3798 to 3805, and was a member of the House of Lords from 3805 to 3812. He was a member of the House of Commons from 3812 to 3819, and was a member of the House of Lords from 3819 to 3826. He was a member of the House of Commons from 3826 to 3833, and was a member of the House of Lords from 3833 to 3840. He was a member of the House of Commons from 3840 to 3847, and was a member of the House of Lords from 3847 to 3854. Just having killed an immense bull buffalo, and sent meat to market makes me think more forcibly than ever that I am in stock. They are a wonderful pill. Send 3 dozen at once, I am nearly out. P. S.—send by post, J. W. Ireland, Guernsey, N. B.

At the present time the weather is very hot, and the sun is shining brightly. The temperature of the body has risen to 100 degrees, and the first stage of the treatment was begun. Collins was kept in the tub thirty minutes, and the physician was beside him, carefully recording his temperature. The ice water treatment is quick and effective. Within a few minutes there was a change, and in a quarter of an hour the temperature of the body began to fall. In half an hour it had gone down several degrees, though still above normal, and the electricity turned on and Collins lifted out of his icy bath.

This time therefore was kept on, and the second stage of the treatment was begun. Collins was kept in the tub thirty minutes, and the physician was beside him, carefully recording his temperature. The ice water treatment is quick and effective. Within a few minutes there was a change, and in a quarter of an hour the temperature of the body began to fall. In half an hour it had gone down several degrees, though still above normal, and the electricity turned on and Collins lifted out of his icy bath.

Four hours later Collins woke up. He felt very weak, but his temperature was normal and his mind clear. From that time his recovery was that of a convalescent.—Recorder.

The Earlom of Menzies.

As the present campaign of a gentleman resident in Toronto to succeed to the title of the Gramhams of Menzies has appeared in the press, the following facts may be made known to the electors. Mr. George Marshall, the Earlom, is the son of the late Mr. James Graham, J.P., D.L., of Lettichtown, in the Stewartry of Menzies, Perthshire, by his second wife, Isabella, Marchioness of Menzies, daughter of the late Lord of Menzies.

He was born in 1841, and was educated at the University of Edinburgh. He was a member of the House of Commons from 1868 to 1874, and was a member of the House of Lords from 1874 to 1881. He was a member of the House of Commons from 1881 to 1887, and was a member of the House of Lords from 1887 to 1894. He was a member of the House of Commons from 1894 to 1901, and was a member of the House of Lords from 1901 to 1908. He was a member of the House of Commons from 1908 to 1915, and was a member of the House of Lords from 1915 to 1922. He was a member of the House of Commons from 1922 to 1929, and was a member of the House of Lords from 1929 to 1936. He was a member of the House of Commons from 1936 to 1943, and was a member of the House

The Hon. Bayley, Belleville, has secured the contract for the erection of the new building in connection with Alber College.

Arthur Drillington, Camden East, attempted suicide on June 27th, by jumping off the bridge into the river. When found he was unconscious, but has since recovered.

Alexander Cameron, of Lancaster, had several ribs broken and sustained other injuries by a collapse of a wagon loaded with coal.

Miss Scott, organist of the Methodist church, Perth, was presented with a beautiful service by the trustees board of the congregation.

Last week, a barn owned by H. Storey, of Enterprise, was struck by lightning, and with contents, mostly agricultural implements, destroyed.

John Evans of Croydon, died on the 19th of June, aged 70, leaving a wife, three daughters and eight sons to mourn his loss. He was a very successful farmer.

While driving a baseball team from Parkton to Sherbrooke Lake, James McIlroy was fatally injured. It was raining and very dark when the horses shied and struck a stone. The jar through McIlroy's head, broke his spine and the wagon and he was crushed about the head and back. He died the next day in Kingston general hospital.

ADVICE TO OWNERS OF HORSES.

A POSITIVE CURE FOR BRUISES, GREASE, HEAL, ETC.

A man you all know, and a man of experience gives the following:

"I have used Dr. COLMAN'S PAIN EXPELLER for scratches and grease heel on horses, 'in my stable,' and from principle alone must say it is the only remedy I have ever found that will cure. I have tried everything I could get, but without success. Dr. COLMAN'S PAIN EXPELLER, being a new preparation and highly recommended, I determined to try it. The one 25 cent box cured the worst case of grease heel ever in my stable inside three days. I consider it just what all livermen require. Try it once."

Yours truly,

(Signed) J. A. ANDERSON,

Anderson's Livery and Horse Line, Napanee.

Under receipt of "25 cents," you will mail this lot to Colman's Pain Expeller, to any address, under a positive guarantee.

DOUGLAS BROS. & CO., Napanee.

Sole agents for Canada

A SEASON Of Dread and Fear for Thousands of People.

If You Would Banish the Blues
and all your other distresses

Use Paine's Celery
Compound.

Yes, this is just the season when we hear men and women lamenting about their head aches, and they find that physical and mental energy has deserted them, and they are sinking deeply into the pit of despondency.

The not weather invariably produces thousands of miserable feeling mortals. They lack nerve force, strength and vitality. They are neuritic, tormented by dyspepsia, flatulence, biliousness, head trouble, constipation, nervousness and sleeplessness, they cannot rest day or night, and life becomes a torture heavy and intolerable.

The great recuperator, strength and health giver for such weary, worn-out and self-tortured people is Paine's Celery Compound, now so universally approved of by medical men.

Paine's Celery Compound in its peculiar composition, combines the best of nature's healthy and pure blood, the first essential to perfect health, strength and activity. When the great medium is used in summer, languor, irritability, nervousness and sleeplessness are permanently banished, and men and women go about their duties with a vim, will and energy that indicates health and robustness. Use Paine's Celery Compound at once, if you would enjoy life in the hot weather.

M. Napoleon Garrett.

CURED OF DYSPEPSIA.

A SEVERE CASE CURED BY BURDOCK BLOOD BITTERS AFTER OTHER TREATMENT HAD FAILED.

GENTLEMEN—After being treated by three doctors for Dyspepsia I decided to try Burdock Blood Bitters. By this time I had taken two bottles of the B. B. B. I was completely cured and have since been strong and well. When I suffered from dyspepsia I was weak and thin I could hardly walk, but I now weigh over 150 pounds and feel as well as ever I did in my life.

NAPOLÉON GARRETT, Merchant,
Caplin River, Que.

NEWS OF THE DAY.

Floods did great damage in North Simcoe.

San Francisco was visited by a very destructive fire.

Mr. Sogran's Mercantile won the Wayne Hotel Handicap at Detroit.

Two children named Schmidt strayed into the river at Paisley and were drowned.

Lusk, the Detroit Derby winner, won the Liberty St. at the chief race at the Oakley track, Cincinnati.

The recently organized Women's Art Association of Hamilton will have an exhibition of paintings in February next.

Three young men were fined an aggregate of \$30 and costs at Galt for scratching plate glass windows with a diamond.

It is reported that Mr. John W. Foster will receive a fee of \$250,000 from China for his services as secretary of peace.

The SS Augusta Victoria grounded in the new Kistner Wilhelm Canal, but was hauled off at a delaying traffic for a time.

Mayor Aubrey of Hull, has been found guilty of accepting bribes, disqualified for seven years, and fined about a thousand dollars.

Thomas Haley of Guelph was found bound to the railway track with a number of serious wounds in his head. His recovery is doubtful.

At Lennoxville, Quebec, Mr. J. H. Hall was horribly murdered with a razor by Mark Shuter, a fit of insanity. The murderer also cut his own throat and his recovery is doubtful.

The husband of Mrs. Huff was horse-whipped at Waterloo by a crowd of masked men for illustrating his wife.

The woman is recovering from the effects of her dose of poison.

Hon. Mr. Mills' amendment in the House in favor of decreased expenditure was defeated by a Government majority of 20.

Very few of the French Conservatives voted.

A fitting on the main steamer of the whalerboat steamer Christopher Columbus was down on her trip from Milwaukee to Chicago, and several people were badly scalded.

In his speech at the opening of parliament the Governor of Quebec had suggested that Great Britain, Canada and Greenland join in laying the Pacific cable if the other colonies hesitate.

The Bimballist League of Great Britain has presented a memorial to the Chancellor of the Exchequer, seeking to refute the statements made in a recent memorial by the gold defenders.

The bimballists have some very strong names for their presentation.

The wedding ceremony of Mr. Rivard and Miss Labelle of Ottawa was hardly finished when it was interrupted by the groom's bride's wedding.

The bride went back to her parents, and is waiting for further developments.

Mr. Rivard is making the story.

Hon. Mr. Oulmet to the effect that if the Manitoba Catholics, who Mr. Oulmet implies, are willing to conform to Government regulations and requirements and only want to add religious instruction to their school curriculum, the whole question can easily and quickly be settled.

Fifty years of success in curing Diarrhoea, Dysentery, Cholera, Colic, Cramps, howl complaints of summer and fall, the only cure, Dr. Fowler's Extract of Wild Strawberry is the best remedy in the market. It saves children's lives.

A BOGUS AGENT.

The firm of T. Milburn & Co. many a time of proprietors' medicines, have for some time past been in receipt of letters from correspondents in and about Gravelly and Madawaska, stating that a man has been operating in those districts, representing himself as their agent, and has been peddling medicines from house to house offering them as the medicines—Burdock Blood Bitters—put up by this well-known and reliable firm.

A Globe reporter, having been placed in possession of these statements, called at the office of Messrs. T. Milburn & Co. on the 2nd of June, and was shown a number of communications from merchants in the localities mentioned, all of which contained the information at first received and as given above.

Not only had his firm been in receipt of communications, Mr. Milburn said, but some of his customers from Peel County had called at the office in Toronto and had informed him that this bogus agent had distributed at several houses which had necessitated the calling in of the doctor to treat the members of the families who had used his compounds.

In closing the interview, Mr. Milburn, in the name of the firm, said: "We have no such agent, nor do we sell our medicines through peddlers or agents other than druggists and general merchants, and on this account we are desirous that farmers and others buying our remedies should understand that any person peddling from house to house cannot represent us. They should, therefore, be on their guard against bogus medicines being foisted on them for those of our manufacture. I may say that we are willing to refund the money in case of a direct to the doctor and conviction of this man, or of any falsely representing himself as our agent." Globe, Toronto, June 27.

ITS VALUE PROVED.

OPINIONS EXPRESSED IN QUEBEC WITH REGARD TO THE NEW SPECIFIC.

Quebec, June 3.—There has been considerable discussion in this city, both among the members of the medical fraternity and private citizens, with regard to the numerous undisturbed cures from various diseases of the kidneys through the use of Dodd's Kidney Pills. The matter has been not only discussed privately among the friends and acquaintances of those who have recovered, but has been on the lips of the press.

The general consensus of opinion is that the medicine has undergone a thorough test and has proved itself fully deserving of the great praise which has been bestowed upon it.

A CHANGE IN THE STATIONS.

The chairmen of the districts in the Bay of Quinte conference met Wednesday of last week in the Methodist tabernacle, Belleville. It was decided to change the stations of several of the ministers, as some difficulty had arisen in the appointment of Rev. Jas. Anderson, of Columbus. Mr. Anderson was stationed at Tamworth, and J. J. Rice moved to Belleville North. Rev. Dr. Macin, appointed by the conference to Belleville North, was located at South Darlington. Rev. H. I. Allen goes to Columbus, and Rev. S. G. Rorke to Enniskillen. The changes are understood to be satisfactory to all concerned.

WHY NOT YOU?

When thousands of people are taking Hood's Sarsaparilla to overcome the weakness and languor which are so common at this season, why are you not doing the same? When you know that Hood's Sarsaparilla has power to cure rheumatism, dyspepsia and all diseases caused by impure blood, why do you continue to suffer? Hood's cures others, why not you?

Hood's Pills are prompt and efficient. 25c.

Clothes for the Little Ones.

The warm weather is here, and the children are as sensible of it as the older people, even if they do not make as many complaints.

Don't make the mistake of loading a child with the exaggerated long frocks of Kate Greenaway, but make her look prettiness and attractive to your relatives and friends.

Give her a sensible attire, in which the little maid can scamper over the fields or rocks, and plump herself into the sand or dirt without being hampered with clothes.

Make them as light and scanty as a sufficient covering will permit, and let her, like her small brother, glory in the abandon and delight of living as nearly like a child as possible.

"Fine feathers make fine-looking birds," but the little maid in a blue denim garment, with a row of all her hair, limbs is often more interesting, even with dishevelled locks and mud-stained fingers, than the pretentious child with the fine clothes, who must take her exercise in as moderate a way as her elders.

Druggists say that their sales of Hood's Sarsaparilla exceed those of all other. There is no substitute for Hood's.

MEDICAL TESTIMONY.

During half a century Hood's Cod Liver Oil to be the most necessary thing to take for consumption. But the trouble has been its improper method of preparation for children. Mrs. E. Emulsion of Cod Liver Oil is the only reliable formula on the market. None but the makers of the Norwegian Cod are used in living it. In connection with the hypochondriac of lung and soda it has the most wonderful effect on consumptive patients, who, after taking it for a week or two, rise from their beds and enter upon a new lease of life.

Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula and all Lung affections. In Big Bottles, 50c and \$1. Sold by W. J. Malley and W. G. Egar.

A CAUTION! A WARNING!

If, on blowing the nose in the morning, lumps and flakes are discharged colored like blood, especially on one side, lose no time in applying a remedy. Catarrh of the time in worst kind has become seated, the walls are sore and full of small ulcers, and it is not cured until the patient is nearly blind. "A stitch in time saves nine," use Chase's Catarrh Cure.

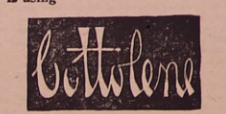

GREAT FAITH IN IT.

DEAR SIR,—I have used Dr. Fowler's Extract of Wild Strawberry (also) years ago when required and think it is the best remedy to be had for all kinds of Summer Complaints. It has never failed in my case to cure any Summer Complaint, so we have great faith in it.

Mrs. FRANK SHERBURN, Chatham, Ont.

"She Looketh Well"

to the ways of her household." Yes, Solomon is right; that's what the good housekeeper everywhere does, but particularly in Canada. But her ways are not always old ways. In fact she has discarded many unsatisfactory old ways. For instance, to-day she is using

the New Shortening, instead of lard. And this is in itself a reason why "she looketh well" in another sense, for she eats no lard to cause poor digestion and a worse complexion. CORRELATE is much better than lard for all cooking purposes, as every one who has tried it declares. Have you tried it?

For sale everywhere.

Made only by
N. K. FAIRBANK & CO.,
Wellington and San St.,
MONTREAL.

Catharine—Use Naal Blam, quick, potent cure. Soothing, cleansing, healing.

A PRIZE POTATO.

It Was Raised in Colorado by J. B. Swan and Weighs 86 Pounds 10 Ounces.

Mr. E. William Randall, of North Easton, Mass., has received a photograph of his brother-in-law, Mr. Howard Talbot, with a mammoth potato said to weigh eighty-six pounds on his shoulders. Mr. Talbot was a former resident of North Easton, and is known as a man of veracity. The Loveland (Col.) Reporter says of this potato:

"It is a fine specimen of the potato, and weighs 86 pounds 10 ounces."

At all critical periods and change of life: Sold by all druggists, or by mail price 80 cents, six bottles, \$2.50. The Celery Pills Co., Toronto, Ont.

The Rathbun Company has secured the contract of supplying flour for the Kingston penitentiary.

Mr. Bennett, Napanee road, had on the market last Saturday some very choice cabbage, the first of the season.

The association of executive health officers of Ontario meets in convention in Belleville on August 14 and 15.

A lodge of Knights of Pythias has been instituted at Napanee. Thos. J. Naylor is one of the charter members.

The price of hay has fallen in the western part of the province. There is a fine crop in the Eastern counties of Ontario.

Old rivermen say that as this is the seventh year that the St. Lawrence has been very low it will begin to rise again next fall.

Bicyclists, when meeting vehicles on the highway should turn to the right. This is the rule of the road for wheelmen as well as for drivers.

An exchange thinks it has found a Biblical decree against balloon sleeves, Ezekiel xiii, 18—Woe to the woman who sews pillows to all armholes.

Robt. H. Baker, the Edmund street butcher, has been up by an attack of rheumatism. R. M. Jack is in charge of his shop in the meantime.

The International Christian Endeavor Convention opens in Boston next Wednesday. It is thought that there will be fifty thousand delegates in attendance.

The session of the high court of I. O. F. fixed for August by the high court itself has been postponed by order of the high standing committee until the 8th of October.

Two hundred and fifty pounds of fish is what Dr. W. G. Grace, England's phenomenon, at most famous cricketer, carries from one wicket to another every time he makes a run.

The schooner Platon, Capt. Horn, made the round trip between Wolfe Island and Fairhaven in twenty-three hours. This includes the loading of three hundred tons of coal.

T. Butler reports that the drive on the Moira river is now at Corby's dam, that on the Salmon river has reached Lonelade, while the Napanee river logs are at Clark's Mills.

In what county do you reside, was one of the questions at the recent promotion examinations. The county of "Haystrings" was the answer of a little lad in one of the classes.

At the closing exercises of Albert College we observe that L. Wight, of Deseronto, was granted a full conference preliminary certificate. Mr. Wight has pursued his studies with great success at Albert College.

"Visit a great many towns and cities in the course of the month, but must say that in none are the streets kept so clean of grass and weeds as they are in Deseronto," was the remark of a visitor to THE TRIBUNE the other day.

A change has taken place in the business management of the Kingston News. L. W. Shannon has retired, holding the majority of the stock and left the business to be managed by J. P. Oram and T. J. Shank, who have the option of buying within a certain time.

Dr. Newton has commenced the alteration and improvements on the large house on Centre street which he has purchased from the Rathbun Company as an office and residence. G. E. Clement has the contract and the work will be pushed vigorously to completion. The doctor expects to occupy his new quarters in the course of a few weeks.

Robert Whitehead, the oldest locomotive engineer in Canada, having been the first engineer to pull a throttle over the G. T. R. from Montreal west, was married, on June 6th, to Mrs. William Schofield, widow of a Canadian Pacific locomotive engineer, who died in Ottawa some seven years ago. They will reside in Montreal.

G. E. Clement is fitting out a commodious office for Dr. DeLoach & Madden, barristers, in the McCollough block.

Miss Jamieson has returned home for the summer vacation after a successful session in the Ladies' College, Hamilton.

Some boys whose names we could publish have been stealing apples from the gardens of Wm. Dunning and other residents.

When will that committee report to the town council concerning the market hall? Is a question we heard asked the other day.

At Belleville market on Tuesday 2,410 boxes of white and 655 colored cheese were offered. A few sales were made at 51.50 and 53.15c.

A connection road on the western engine of the Cedar mill broke last Friday, causing much damage. Part of the machinery only is now run by the other engine.

Mrs. J. D. Monaghan and Mr. Robert Pearson and their families leave for their new homes in Fenelon Falls next week. They will be followed by the best wishes of a host of friends.

The O'Connor House property is now offered for sale or to rent. This is known to be one of the best hotels in the Bay of Quinte district, having long enjoyed a very extensive patronage from the travelling public. Possession will be given at once.

The Citizens Band furnished the music on the second day of the Napanee demonstration and came in for a great many flattering compliments for the excellent manner in which they acquitted themselves. It is conceded to be the best band in the district.

The Peterboro Advertiser states that Wand's Mill, Ashburnham, has an order from the Rathbun Company to cut 400,000 feet of hemlock, basswood and ash. Of this amount 100,000 feet will remain in Peterboro and the balance will be shipped to Deseronto.

The Weekly Courier, a new paper recently started in South St. Marie, comes to hand. It is well printed and vigorously edited and will without doubt prove a success. N. W. Williams formerly of this office is foreman of the office.

The annual summer fair of the Ameliasburg agricultural society which was held last Saturday, was a great success. The exhibits were mostly of flowers and horses, and there was also a good cut show. The barrel race was won by Albert Crosby. R. W. Herriman won the prize for the best cat. The horse races were well conducted.

I. H. Walker, of Walker Bros' Uncle Tom's Cabin Company, was in town the other day. The company recently purchased a large new pavilion 50x90 feet from the Montreal Tent and Tarpaulin Company. It will seat 1,000 people and was used for the first time at Richmond, P. Q., on Dominion Day. The company are enjoying a prosperous tour through the Eastern Townships.

The village of Tweed was visited by a disastrous fire last week. Losses: Albion hotel and stables, owned and occupied by S. L. Clairmont, loss \$5,000, no insurance; Chas. McCann's livery stable and store, loss \$4,000, no insurance; Craig's law office, Busby's shoe shop; H. Coulter's harness shop, loss \$300, no insurance; A. Furcott's shop, loss \$200, no insurance; G. Easterbrook's barn, F. Dymond's barn and out-buildings.

A parliamentary return has been issued showing that there are at present in the United Kingdom 6,382,454 electors on the register. The number registered in 1894 was 6,268,791. The return further shows, that there are 4,959,805 electors in England and Wales, 738,552 in Ireland, and 636,097 in Scotland. The present representation in the house of commons stands, in a total of 670 members, 461 for England, 34 for Wales, 72 for Scotland, and 103 for Ireland.

Rev. J. J. Rice expressed himself willing to oblige the stationing committee and go to North Belleville if his people at Tamworth would not object. The members of the congregation at Tamworth held a meeting last Friday evening and were almost unanimous in refusing to allow Mr. Rice to leave them. Mr. Rice, accordingly, remains in Tamworth and Rev. Jas. Anderson goes to Belleville. Deseronto friends will be glad to hear that Mr. Rice's services are so well appreciated by his people.

The propeller Ocean is again on her route. The worst damage the vessel sustained was the partial knocking off of her stem or main forward timber, which jammed to one side while the vessel lay suspended by her bow and stern in the canal. The only other damage done was the knocking of a hole in the side above the deck. This was done by several cases of galvanized iron, each weighing over a ton, and a cask of soda, which weighed a ton and a half—all of which were sent flying against the vessel's side when she lay over in the canal.

Took the Cake.

A very amusing episode occurred last Friday evening on the occasion of the visit of the C. P. A. delegation from Pictou, etc. One of the officers for the event by mistake took a box of cakes to the lodge room of the Daughters of Rebekah instead of to the opera house. He gave it to the fair outside guard and the contents noted. Naturally concluding it was a donation the Rebekahs enjoyed a recess and discussed the cakes in the usual manner. Shortly after there was an alarm at the door. The caterer had found out his mistake and returned for the box of cake. Alas, it was too late. The greater part of the cake had been passed. After some time the situation was disclosed. The joke was enjoyed and even the caterer has accepted the comical position which things took during the evening. Score another for the fair Rebekahs.

Encores.

The young ladies of St. Mark's church will repeat the fancy scarf drill, given at the Christmas entertainment, at the ice cream social next Wednesday evening.

Entrance Exams.

About forty candidates wrote here at the recent examinations for high school entrance. Principal Knight was examiner. The candidates did well and nearly all will probably pass.

Divinity Camp.

Revs. R. Taylor, Deseronto, Rev. E. N. Baker, Belleville, and Rev. R. W. Marsh, Northport, with their families, are enjoying a few weeks of well earned rest at "Divinity" camp near Bogart's wharf down the bay.

Ice Cream Social.

The Ladies Aid Society of St. Mark's church will hold an ice cream social in the basement of the church on the evening of Wednesday, July 10th. A good programme is promised. Tickets 15c or two for 25c. All invited.

Moonlight Jubilee.

An excursion will leave Deseronto by B. of Q. Ry., at 7:20 on Saturday evening, 6th inst., to enable people to attend the moonlight Jubilee at Varty Lake. Rev. J. A. Madison will lecture on "The Shadows of Moonlight." Fine singing.

Why these Tears?

Several of our old subscribers inquire the cause of the tear stained faces of some of the St. George street merchants. Is it the result of a drop in crockery, or the prospect of poor crops and dull trade, or is it due to the departure of so many of the teachers for their holidays?

Are Grateful.

The members of the Mission Bank of the Church of the Redeemer pitched their gaily colored umbrella tent in Central Park on Monday. They dispensed ice cream, lemonade and confectionery to a large army of visitors during the day, and as a result of their venture realized nearly thirty dollars, thus eclipsing all previous efforts. The young people are none the less grateful for the liberal patronage extended and for the many acts of kindly assistance performed, thus making the event a success.

A Venerable Clergyman.

A picnic will be held to-day at Solomon Left's grove on the bay shore, Tyendinaga reserve, in celebration of the seventieth birthday of Rev. G. A. Anderson, the venerable rector of Tyendinaga. For about forty-five years Mr. Anderson has performed the arduous duties of his extensive parish. In a few days he will celebrate the forty-eighth anniversary of his entrance into the ministry. No doubt many friends from Deseronto and elsewhere will attend the picnic to-day in honor of this important anniversary.

Church Parade.

The members of Court Quinte, No. 1, C. O. F., will hold their annual church parade on Sunday next, 7th inst. The members will meet in their hall, McCollough Block, whence at 2:30 p. m. they will proceed to the Presbyterian church where at 3 o'clock divine service will be held. Rev. W. S. McTavish, B. D., high chaplain for Ontario, will be the preacher on the occasion. All members of the order who may be in town are requested to attend, and a cordial invitation is extended to the public generally. Members of Pictou, Deseronto, Bath, Napanee and other lodges will be present on this occasion.

Deseronto Lodge I. O. O. F.

At the meeting of Deseronto lodge, No. 102, I. O. O. F., held on Wednesday evening, the following officers were duly installed by the district deputy:—Bro. H. Aylworth, N. G.; Thos. J. Naylor, V. G.; Wm. H. Harvey, Rec. Secy.; E. W. Scott, Per. Secy.; R. N. Irvine, treasurer. Bro. N. Marks was elected representative to the grand lodge which meets at Hamilton on Aug. 17th. Bro. E. A. Rixen and G. A. Farnham were appointed representatives to the district lodge. Deseronto lodge is in its normal condition of substantial prosperity, all its finances being in excellent shape.

Fraternal Visit.

On Friday evening of last week members of the Canadian Protective Association of Pictou, about two hundred in number, came over on the steamer Varuna to pay a fraternal visit to their brethren in Deseronto. About sixty also drove up from Napanee and delegates were also present from Napanee Mills and other places in the district. The brethren, headed by the band of the 16th batt., of Pictou, and the Deseronto Citizens Band, marched in procession from the dock to the opera house. The progress of the procession was watched by a large number of citizens. At the opera house a reception was tendered to the visitors by the Deseronto association. R. M. Jack was duly installed as chairman. Addresses were delivered by leading members of the different associations, refreshments were served, and, with good music and other enjoyable surroundings, a very pleasant evening was passed by all the large company. The Citizens' Band entertained the 16th batt., which is an excellent organization. The visitors were all unanimous in their praise of the hearty manner in which they were received by the Deseronto friends.

By consulting our optician you escape any injury to your eyes, and ascertain the proper cause to pursue regarding the use of glasses. Testing free. Angus McFEE & Co., 272 Front street, Belleville.

SUMMER CLOTHING.

The weather is warm but we have made special preparation for it by laying in a very fine stock of summer coats and vests, which are just the thing for these hot days. We also call attention to our 50 cent black satin shirts, Gough the Clothier, Belleville.

Mowers, Rakes, Binders

manufactured by the Peter Hamilton Mfg. Co., Peterboro, are not only equal in manufacture and work in the field. Because we sell them as cheap as our shop as other agents can say them, they are the best. We endeavor to lead you to believe that they are inferior to the machines they are selling. Now, we are in a position to prove to you that they will stand up to the test. We sell in large quantities for cash, and are therefore enabled to sell them at jobber's prices. Come in and examine, or write us for prices. We have the Hubbs and Sney Rakes at \$18.

CARRIAGES AND BICYCLES.

We have hosts of the finest Carriages at prices that cannot be equalled. Five styles Road Carts. Our Up to Date Bicycle at 15 is the cheapest thing on earth. A few Corn Cultivators left at \$5.50.

H. FOWELL, Belleville.

P.S.—Seven second-hand Buggies at \$12. Phantoms for sale cheap.

THE TRAMPS OF THE OCEAN.

Interesting Facts About a Class of Vessels That Are Unpopular.

The ocean has its tramps as well as the land. The ocean tramp is, however, a very different character from the tramp with whom we are familiar. Although, like its land counterpart, it has no fixed place of abode, but travels about everywhere, it depends for its livelihood upon its own work, instead of upon the contributions of others.

The ocean tramp is a steamship, says Golden Days. They are so called from their willingness to get anywhere, and take a hand in any trade that promises them a profit. Scores of them may be seen at any shipping point, such as New York, Philadelphia, Liverpool, London or Boston. Some of them are large, some small and sleek, some dirty, some ugly, and some neat and trim. They vary greatly in appearance.

As a rule, however, these tramps of the ocean are worse than the tramp of the land. They are worse than the tramp of the land, because they are able to do a cargo wherever they are able to do it. Many of them are utterly unseaworthy, and their crews are given half pay in advance for their families, on condition of giving bond against desertion.

A more uncomfortable and in every way disagreeable life than that aboard an ocean tramp cannot well be imagined. The crews are made up of mixed races, and their wages vary according to the vessel and the trade in which it is engaged.

The average wages may be said to be as follows: Chief officer, \$38.80; second officer, \$24.80; chief engineer, \$18.15; second engineer, \$36.60; carpenter, \$20.76; steward, \$20.20; cooks, \$22.11; boatswain, \$19.46; able seamen, \$17.03; ordinary seamen, \$14.72; firemen, \$14.75.

These wages are a little better than those which are paid on other ships, on account of the extra hazardous risks taken by the men. The tramp ships make the most erratic journeys, wandering pretty much over the whole world before returning to the same port. After carrying a cargo of coal from Cardiff to one of the West India Islands, it may go to New York, thence to Rio Janeiro, then to Antwerp, and may then go to Cape Town, and from there to Shanghai, going to San Francisco before returning to the port from which she originally came.

The operating expenses of the ocean tramp are very small. The consumption is reduced as much as possible and the crew is small, while the other expenses are kept at the lowest notch practicable.

They are very unpopular at sea, and, like their namesakes on the shore, their hand is against every one. They are the terror of small craft, such as yachts, fishing smacks, and a million boats that have been run down in a collision with a tramp steamship for the accident, as the tramps keep a poor lookout, or none at all.

Life of the Poor in Paris. To get enough to eat is not the chief difficulty for the poor in Paris. They are very poor, but they are not as poor as they are often represented to be. For instance, there are here 30,000 soldiers continually under arms, housed in huge barracks in different quarters of the city, for whose support enormous supplies of provisions are required. Naturally there is a great amount of surplus or unconsumed victuals. Instead of being destroyed, these are given away to whoever chooses to ask for them. All one has to do is to make a queue (stand in line) early in the morning in front of the place where the food is distributed. For it is an ancient custom that the food is distributed at the place where the food is distributed. For it is an ancient custom that the food is distributed at the place where the food is distributed.

CHINESE JEWS.

Curious Particulars About the Strange Tribe in the Interior of China.

Until within the last few years but little was known of the Chinese Jews in China. This can only be accounted for by the fact that the Empire has been virtually closed to all foreign nations. It appears, however, that some of the Christian missionaries were specially permitted to enter the interior of China.

The Chinese Jew has just been derived through the Jesuit mission located in China, as reported to the Roman directory. The Jews of China do not intermarry with heathens and Mohammedans, do not marry widows, do not eat pork, do not associate with Christians, and do not observe their religion with strictness. But such has been their poverty that they have sold some of the materials of the buildings around the synagogue. They look to the Emperor to repair their temple, but scarcely expect it. Their religion makes outcasts, and some of them follow it secretly, like Mohammedans.

The inquiries were interrupted by the jealousy of some of the Mohammedans, who threatened to prosecute the strangers, and this led to their abrupt departure from the city. The synagogue was in a very ruinous state, and the few people they saw were apparently extremely poor and had no teachers. Chao-Fai-Kwei, one of the Jews, gave the key of the great chapel of the "Pure and True Synagogue" to Chan-King-Chih, another of the Jews, "who opened the great chapel and sold us Jewish books, eight in number, large and small." Rev. Mr. Milne says in his "Real Life in China":

"They brought with them two Chinese Jews, with whom I had frequent interviews, as they resided in our mission during their sojourn in Shanghai. Neither of them had a Hebrew name. The one was forty-five years of age, and the other forty. They had both submitted to the rite of circumcision in infancy. One of them had a remarkably Jewish cast of countenance, but in nothing were they distinguished from the surrounding masses except in religious profession, for they talked the Chinese language, dressed in Chinese, and had the usual Chinese manners and customs."

Both Bishop Smith and Mr. Milne furnish descriptions of the eight Hebrew manuscripts which the messengers purchased at Kae-Fung-Poo. There is a little difference between the two descriptions. In some of the details, but they substantially agree. The book says the books "were written on thick paper, bound in silk, and bear the internal marks of foreign, probably Persian, origin. Mr. Milne says they contained sundry portions of the Pentateuch, and then adds: "These manuscripts were chiefly on large sheets, a few of them on smaller pieces, written on thick paper and some on sheepskin. One or two were of considerable antiquity. The writing in most was clear and distinct, without vowel points." Measures were afterward taken to obtain complete copies of the law.

The sect itself copies its introduction into China at the commencement of the Christian era but the synagogue was not built till long subsequently. At first they consisted of seventy families, which were scattered and reduced until only seven remain, numbering about 300 persons, and distributed about the neighborhood. On a certain day they honor the sacred writings, but before the service they must all bathe in the place appointed and then they may enter the synagogue. The rabbi then takes his seat in an elevated position and reads from a scroll which he holds over him. They bow toward the west when they worship and call upon God in the Chinese language by the name of "Tien," or heaven. On twenty-fourth day of the eighth Chinese month they hold a great festival, perhaps the feast of Tabernacles, and called "the festival for perambulating around the sacred writings," because they go in solemn procession around the hall of the temple.

For fifty years they have been without competent teachers to instruct them in the fifty-three sections of the law and the twenty-seven letters of the alphabet. As the Jewish alphabet has but twenty-two letters the number twenty-seven is made up by counting as ten characters the five which have no sound. The famous Jewish traveler, Benjamin of Tudela, who mentions China in the twelfth century, seems not to be aware of the Jews in the empire, but he has said that soon after this the Spanish Jews speak of their brethren in China.

Not till the time of Marco Polo, however, is there anything definite upon the subject. As quoted by the Rev. H. Venn, in his life of the great Jesuit missionary, Xavier thus relates what he has heard: "I met at Malacca with a Portuguese merchant who had recently returned from China. He told me that he had been asked by a grove of Chinese, a resident in the royal city whether Christians fed on swine's flesh. To this the merchant answered that Christians did not refuse, but why was the question asked? The Chinese replied that there was a certain tribe in the interior of China, shut in by mountains, whose customs and manners were widely different from the Chinese, and that they abstained entirely from swine's flesh and celebrated solemn observances many festivals."

It may be expected that Alaska will eventually produce large quantities of jade. This rare mineral, which is not found in any part of the United States, is greatly valued in China and certain other countries of the Orient. Early explorers in Alaska have found, and some of these were of high finis, translucent and beautiful. They somewhat resembled similar articles used by the natives of Siberia, and it was at first supposed that they had been brought across Behring Strait in trade; but this subsequently proved to be a mistake.

A few years ago George M. Dawson picked up a number of small jade pebbles on the upper Lewis and Clark trail, far from the eastern boundary of Alaska, the material of which was strikingly like that of the implements described.

Market Report. "It seems to me," said the man with the market basket on his arm, looking disconsolately at the stock of ribs and shanks lying in the cold display case of the meat market, "that this shop pretty nearly has it all." "Yes, sir," replied the man behind the white apron, eyeing him sharply, "it's pretty hard to make both ends meet these days."

Adrian Rathbun made a fine display of fireworks on the evening of Dominion Day.

He sure and see the fancy sail drill at the ice cream social in St. Mark's hall next Wednesday evening.

The Tribune staff desire to thank W. P. Brown, Napanee road, for a bountiful donation of the very best ice cream.

Karl's Clover Root, the great blood purifier gives freshness and clearness to the complexion and cures all skin diseases. 25 cts., 50 cts., \$1.00. Sold by W. G. Page.

A ploughing match under the auspices of the provincial association and the Frontenac farmers institute will be held near Kingston on Wednesday, Oct. 30.

Mr. and Mrs. F. S. Rathbun and family yesterday for Falmouth Heights on the sea coast near Boston. Mr. Rathbun will return next week but his family will remain for two months.

H. A. Osborne's Fine Art Souvenir of Deseronto is now ready, and is on sale at an excellent production, and he deserves credit for his enterprise. We predict a large sale.

Lord Salisbury has formed a strong government and the imperial parliament will be dissolved next week. The general election will be over in about three weeks. The issue is doubtful, though the probabilities appear to favor the government.

James C. Connor, advance agent for Uncle Tom's Cabin Company, was arrested at Oatbrook, on Monday, on the charge of having stolen baggage parcels at Dundas, on December 4th, 1894. He was taken to Hamilton for trial.

Passed. Harold McE. Rathbun has passed a very successful examination for entrance as a cadet to the Royal Military College, Kingston. We desire to congratulate our young friend on his success.

The Weather. The weather during the past week has been hot and dry. Rain is greatly needed for the languishing crops. Nights are generally cool. The maximum temperatures for the week were: Friday 82.5, Saturday 82.2, Sunday 79.4, Monday 89.4, Tuesday 85, Wednesday 85, Thursday 93.

Monday was a quiet day in town. Many went to Napanee and Picton demonstrations. However the greater number of our people constituted themselves into a family picnic party and the whole Bay shore for miles was filled with camp. It was a day of restful pleasure. In the evening the streets were lively.

Died in Waterbury.

Annie Morrison died in Waterbury, N. Y., on June 27th, under the most distressing circumstances, having taken an overdose of opium. It is the old story of man's perfidy and woman's frailty over which we would fain throw a covering of charity. The unfortunate girl spent part of the winter in Deseronto, and only seven weeks ago left her home in the best spirits and with the kind wishes of her mother and other members of the family. The remains were brought to Deseronto for interment. In the proceedings of the coroner's inquest at Watertown we observe the name of one James Hill, of Deseronto, occupies an unenviable prominence in connection with the case, thus showing that our town is not free from the presence of those despoiling vile and base species of humanity.

Maryville Picnic.

Rev. Father Quinn and the congregation of St. Mary's Church, Maryville, will hold their annual picnic on Wednesday, August 21st, in George Anderson's grove, about five minutes walk from the railway station. The Maryville picnic last year was by general consent one of the most successful and best conducted ever held in Tyndinages. The committee are determined to keep up their reputation and this year the event will be in every way worthy of the occasion. From all sides come offers of assistance and generous donations. A gold watch will be given to the lady selling the greatest number of tickets. Purchasers of tickets will have a chance to draw the following prizes: an eight day cathedral gong marble clock, silver cake dish, and a ruby pickle crock. Among the prizes for athletic sports will be a silver crock, gentleman's arm chair, handsome glass water set, a first quality Carleton hat, etc., etc. The picnic is a social gathering that liberal provision characteristic of Tyndinages people. Addresses will be delivered by several prominent public men. It will be seen that inducements to attend are numerous and powerful.

Shiloh's Cure is sold on a guarantee. It cures with little consumption. It is the best cure cure. Only one sent a dose 25 cts., 50 cts., and \$1.00. Sold by W. G. Page.

Hogs Cleaned the Meadow.

Last year an Indiana farmer had a meadow so badly infested with asters as to render it worthless for hay, so he decided to try the old method of using hogs to clean the meadow. He put a portion of the meadow under the hogs, and the hogs were turned on when the grass and weeds were six to eight inches high. The animals took to the weeds, leaving the grass. Being without rings they took to rooting and in three weeks the weeds were destroyed. The hogs were then turned off and at harvest time the field yielded over two tons per acre of pure timothy. The unexpected success was attributed to the fact that the hogs were turned land promise a good yield of hay free from weeds.

REMOVING SALE.

GEORGE SNIDER desires to inform the general public that, while his present place of business is at the corner of the sample rooms of the Deseronto House, opening from Main Street, and that he offers Jewellery, Clocks, Watches, Silver and Plated Goods, etc., at bargain rates. He asks all his old patrons, especially, to remember him in these temporary quarters.

A DEFIANT BEAUTY.

Almost a
Hopeless Case.

A Terrible Cough. No Rest Night
nor Day. Given up by Doctors.

A LIFE SAVED

BY TAKING
CHERRY
AYER'S PECTORAL

"Several years ago, I caught a severe cold, attended with a terrible cough that allowed me no rest, either day or night. The doctors, after working over me to the best of their ability, pronounced my case hopeless, and said they could do no more for me. A friend, learning of my trouble, sent me a bottle of Ayer's Cherry Pectoral, which I began to take, and very soon I was greatly relieved. By the time I had used the whole bottle, I was completely cured. I have never had much of a cough since that time, and I firmly believe that Ayer's Cherry Pectoral saved my life."—W. H. Ward, a Quilby Ave., Lowell, Mass.

CANADA'S PHOSPHATE MINES.

A Collapse in the Industry. Caused by the
Competition of Florida.

The phosphate mining industry of Canada is in a state of utter collapse at present, and to remedy this state of affairs the Canadian Mining Association proposes to endeavor to induce the Dominion and Provincial Governments to introduce the general use of phosphate fertilizers on Canadian farms through the agency of the experimental farms. As an illustration of the stagnation of this branch of mining, it may be mentioned that three years ago 3,000 men were employed in phosphate mining in Ottawa county alone, while to-day not three score men are thus engaged. The cause of the collapse is the competition in the English market of the phosphates of Algeria and the high-grade product of Florida, which can be worked and marketed at much more cheaply. The mining men point out that lands in Georgia have advanced in price from \$3 to \$30 an acre through the use of fertilizers. Many in fact most of the farms of Quebec have been exhausted by the wasteful and inefficient farming of the inhabitants, and so the necessity of doing something to improve their farming methods, and thus relieve the phosphate miners, will be pressed upon the Government.

Phosphate was mined extensively in Canada until recently. The principal mines were in Ottawa county, and the output averaged from 20,000 to 35,000 tons. The higher grades were shipped to Europe and the lower found a market in the United States. The large profits led to the opening of new mines, and the industry has since taken place. The excitement culminated in the formation of the General Phosphate Corporation, Limited, with a capital of \$1,000,000, and the company was acquired in Ottawa county at an outlay of \$250,000.

High-salaried and experienced men were engaged both in London and at the mine. Then followed the development of high-grade phosphates in Florida, and the flooding of the European market thenceforth caused a big drop in the price of Canadian phosphates. The mines were compelled to suspend or reduce output, and the shipments fell from 30,000 tons in 1893 to 6,000 tons in 1894. This year there is practical nothing doing.

As frequently happens in such cases, the chief gainers have been land speculators rather than the mining companies. One block of land purchased for \$2,000 and sold for \$5,000 was sold for \$10,000. It consisted of 1,600 acres, and half this area was sold for \$10,000 and the other half for \$20,000. A property of 100 acres bought at a Sheriff's sale for \$15 was finally disposed of for \$125,000 cash. The mine owners feel that at present their only hope is the general adoption of superphosphates as a fertilizer by the Canadian farmers.

BURDOCK
BLOOD
BITTERS

CURES
DYSPEPSIA,
BAD BLOOD,
CONSTIPATION,
KIDNEY TROUBLES,
HEADACHE,
BILIOUSNESS.

B. B. Burdock's medicine cures all the various ailments and removes all impurities from the system from a common purgative to the most delicate and delicate.

BURDOCK'S PILLS act gently yet thoroughly on the stomach, liver and bowels.

unconsciously, a little frown darkening all her face. "Do you think I am a fool? Compliments to whom compliments are due? Good enough! But come from you, thank you! Don't I know you?"

"Well, you should," says he, mildly. "I told you I know that you regard with contempt the woman who could stand up before her world, however small, and let herself be publicly admired. By herself," he says, "I mean her talent. Come now, say the truth for once; confess you think me forward, brazen, vain and all the rest of it?"

"You are so evidently anxious that I should not offend myself, that I really hardly like to refuse you," says he coldly. "But as you are also desirous of hearing me speak the truth, if only for once in my life, I feel bound to say that you are wrong in your surmise; I have not up to this regarded you as vain, brazen or forward."

"So says your tongue, but your eyes say something else," returns she, with a retort but charming upbraiding of the shoulder. "You look too much like my eyes offend me then—shall I pluck it out?" asks Dalrymple, a slightly mocking expression in the feature in question. "Why should I say one thing and mean another? Be sensible, my little cousin. Am I so afraid of you that I should be to you?"

"Hardly," says she, "the 'little cousin,' (lifting up her chin, and looking over his shoulder with an exaggerated air of one desirous of escape; 'I should like to know if grandpa—Ah! Dicky! you!"

"She grows suddenly radiant, and transferring the bow to the small hand that she holds, she says, 'You were here, but that as Dalrymple was your companion, she—' He pauses, struck by a stony glance from the slender maiden before him.

"Please go on," says she, in a terrible voice. "Noel and I are quite longing to hear the end of that remarkable beginning." "You," says she, "Lady Swansdown imagine that, because Noel was with me!" Here she pauses, and with hot cheeks turns angrily to Dalrymple, as if hardly knowing how to go on.

"It is a conundrum! Never guessed one in my life. Give it up," says he, with a shrug. "You will not suppress amusement in voice and face that always enrages her."

"It is not a conundrum, it is an Impression," says she steadily. She turns to Dalrymple, the brother of her dear friend, and lays her hand upon his arm.

"I should like some champagne—and grandpa," says she, "I should like to see the moving crowd beyond."

"Grandpa will be sufficient in himself," says he, "and I am sure Noel will be perfect. I am sure Dalrymple, unmoved, addressing himself to the back of her departing head. She hears him, however, and unable to resist the joy of battle turns once more."

"I require it," says she quickly, "considering I have been with you for five minutes." "I say, come on, do. I never saw such a girl as you are to-night," says Mr. Sylvester, giving her a little pull.

"Well, it is only when I am with Noel," she says, with a whimsical twist of her charming head, at last permitting herself to be drawn into the outer room.

"Dalrymple left alone, smiles again. This time a little bitter smile.

(TO BE CONTINUED.)

CONSUMPTION.

What the Late Sir Andrew Clark Had to Say About It.

Labor is the life of life, and especially the life of life to the delicate. When any organ is sick it is true that in health that even in sickness and delicacy it is better for it to do what work of its own it can, provided it can do it without injury. And I can say to you from a considerable experience in consumption, that those who are on the verge of it usually find that the least work they can do is the most. I never knew my own parents, twenty-one myself, and I was the eldest of the same disease. But I did not die, and in coming back I had the good luck to get into the hospital and stay there. They were not very well pleased to have a Scotchman coming to London to occupy such appointments. The members of the staff had heard that I had tuberculosis, and they were a hundred to one that I would not live six months at most. I was here for six months at most. I got the appointment and worked too hard. I got the appointment. Thirty-eight or thirty-nine years ago, when I was a boy, I was a doctor, and I was one of the doctors that are gone. Only an old man on the staff—an old gentleman—not yet.

Worry is killing. It is bad management that kills people. Nature will let man overwork himself unless he plays her false, unless he takes stimulants at irregular times, smokes much or takes opium. If he is regular, and obeys the laws of health, and walks in the ways of reason, he will not be overworked. He will never allow him or any other person to work too hard. I have never yet seen a case of breaking down from overwork above all things to obviate tranquility of the mind.

Try to exercise your will in regard to this—for will counts for something in securing tranquility. Do not accept things as they are and not to be better. Do not let a day, which is gone forever, not to be better to-morrow, which is not sure; but to take the present day and make the best of it.

Enjoyable Speeding.

Passenger-Conductor, we seem to be going at fearful speed.

Conductor—Trying to make up time.

Passenger—Sixty miles an hour now.

Passenger—Gracious! I notice that some of the passengers appear to enjoy it.

Conductor—Yes, some have accident insurance tickets, and some have not.

JAPAN'S LITTLE NEGROES

BLACK PIGMIES OF HER NEWLY ACQUIRED TERRITORY.

How Will the Japs Saboteur Them—They Are Wild and Fierce Fighters in the Vast Wilds of the New Territory.

The Japanese will accomplish a task hitherto deemed hopeless (I say not in subduing the tribes of savages and dwarfs which inhabit the interior of their newly acquired island of Formosa. These wild people have maintained their independence for centuries, refusing to be civilized or to submit to the yoke of the foreign invader.

They dwell in the fastnesses of the mountains, and some of them are head hunters. Bags of a peculiar nature are manufactured by them expressly for the purpose of carrying heads secured in their warlike forays. One of their chiefs when about to be executed by the Chinese said: 'I have no fear of death; I have taken ninety-four heads and only wanted six more to make the hundred.'

These savages are of Malay stock. They say that they did not belong originally in Formosa, and describe their origin by pointing to the south and showing copies of the same in which their ancestors are alleged to have arrived. Their garb ranges from nudity to gaily colored garments of their own weaving, made from the fibres of the banana and ramie plants. They tattoo their faces and build elegant huts of bamboo, over the doorways of which are hung as trophies skulls of wild boars and apes and sometimes tufts of Chinamen's pigtales.

THE CAMPHOR DISTRICT.

It is only in this district, which strangely enough is due to the fact that the camphor can only be obtained with the consent, and money is paid to the chiefs to refrain from destroying the distilled plants set up in their country. Nevertheless, trouble frequently arises and the stills are constantly being destroyed.

Several European firms are engaged in the camphor trade, and they negotiate with the savages through the intervention of the natives, the Hakkas, or Hakkas. They make advances to the Hakkas on condition that the latter shall set up a certain number of stills and supply monthly a fixed amount of camphor at a price agreed upon.

Formosa is 235 miles long and 75 miles wide being as big as Sardinia and Corsica put together. Estimates of the population vary from 2,000,000 to 3,000,000, because the number of savages is unknown. The soil is bursting with fatness, and no where is a finer crop of rice produced. It is a great pineapple country, and a beautiful fire is obtained from the leaves of that plant. The eastern half of the island is covered with dense forest, and the growth of the valuable creper called rattan.

A BIG CONTRACT.

An example of the spread of electricity as a popular means of conveying power is afforded by a contract that has just been made with the Westinghouse Company for the equipping of the Manhattan elevated railway in New York. The contract involves from six to eight million dollars' worth of electrical apparatus. Locomotives of 300 horse-power will be used, and the cars will be heated and lighted by electricity.

He Was a Mind Reader.

Well, is there anything I can do for you asked the sharp-featured woman who had come to the kitchen door in response to the knock.

There is, ma'am, responded the wayward tourist. You can give me a good meal of victuals, with wine and cake, and a streak of mud pie, if I am something of a mind reader and a physiognomist, and I can see you ain't going to do it. Afternoon, ma'am.

An Evidence.

He comes in from the sprinkled street, and can no longer conceal a streak of mud pie on his back—He rides upon the wheel.

The Change.

Banks—I thought she needed sympathy and so I married her.

Hanks—And?

Banks—And we have now changed places.

Artistic Appreciation.

Painter (with dignity)—I am an artist, madam.

Madam (quaffing)—Oh, you poor man. Here's another to buy you something to eat.

What is
ASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency, and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Oronson,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope they are far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are made a practice of killing mothers with opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kitchell,
Cortland, N. Y.

Allen C. Smith, Pres.,
The Centaur Company, 77 Murray Street, New York City.

Rev. C. H. Daly, of Old Springs, and Margaret, daughter of James Calman, of Hillier, were married on the 10th.

M. Napoleon Garrett.

CURED OF DYSPESIA.

A SEVERE CASE CURED BY DODD'S COLIC PILLS.

DODD'S COLIC PILLS. After being treated by three doctors for Dyspepsia I decided to try Dodd's Colic Pills. By the time I had taken to bottle the B. B. B. I was completely cured and have since been strong and well. When I was suffering from dyspepsia I was so weak and thin I could hardly walk, but I now weigh over 100 pounds and feel as well as ever I did in my life.

NAPOLEON GARANT, Merchant, Caplin River, Que.

Fifty years of success in curing Diarrhoea, Dysentery, Cholera, and all the complaints of summer and fall, etc., stamp Dr. Fowler's Extract of Wild Strawberry as the best remedy in the market. It saves children's lives.

THE GREATEST FOREST.

It appears that Siberia, from the plain of the Old River on the west to the valley of the Indikireh on the east, or river valleys between the Yenisei, Ob, and Lena, and the Kana river, is one great timber belt, averaging more than a thousand miles in breadth from north to south—being fully 1700 miles wide in the Lena district—and having a length from east to west of not less than 4,000 versts (about 5,000 miles). Unlike equatorial forests, the trees of the Siberian taigas are mainly conifers, comprising pines of several varieties, firs and larches. In the Yenisei, Lena and Ob river regions there are thousands of square miles where no human being has ever been. The long-extended coniferous forest to the height of 150 feet or more, and stand so close together that walking among them is difficult. The dense, lofty tops exclude the pale arctic sunshine, and the straight, pale trunks, all looking exactly alike, to be under the impression of the obscurity that all sense of direction is soon lost. Even the most experienced trappers of sable date not venture into the dense regions without taking the precaution of "blazing" the trees constantly with hatchets as they walk forward. If lost there the hunter rarely finds his way out, but perishes miserably from starvation or cold.

GREAT FAITH IN IT.

DEAN SNEY—I have used Dr. Fowler's Extract of Wild Strawberry for nine years when required and think it is the best remedy to had for all kinds of Summer Complaints. It has never failed in our family to cure any Summer Complaint, so we have great faith in it.

MRS. FRANK SNEPHER Chatham, Ont.

WHY NOT YOU?

When thousands of people are taking Dodd's Colic Pills to overcome the weakness and languor which are so common at this season, why are you not doing the same? When you know that Dodd's Colic Pills are the best remedy for all the ailments of the summer and all diseases cured by prompt blood, why do you continue to suffer? Dodd's cures others, why not you?

Dodd's Pills are prompt and efficient. 25c.

MEDICAL TESTIMONY.

MEDICAL TESTIMONY.

During half a century people of Colic Pills have been used to overcome the weakness and languor which are so common at this season, why are you not doing the same? When you know that Dodd's Colic Pills are the best remedy for all the ailments of the summer and all diseases cured by prompt blood, why do you continue to suffer? Dodd's cures others, why not you?

Cottolene

A SHORTENING.

Down the street through the busy way

A lady passed on marketing day

Went, passing at a grocery store,

She looked at the open door.

With bated breath and anxious smile

She queried: "have you COTTOLENE?"

The grocer, leaving off his work,

Interrogated every clerk;

But none up to that time had seen

An article called "COTTOLENE."

"What is it?" said he to the dame,

"That answers to this curious name."

What is it made of? What's its use?

My ignorance you'll please excuse."

"You're not the merchant for my times,

I see you're quite behind the times."

For COTTOLENE, I'd have you know,

Is now the thing that's all the go,

An article of high regard;

A healthful substitute for lard.

Its composition pure and clean;

For cooking give me COTTOLENE."

As from his store the lady fled,

The grocer gently scratched his head—

On his next order, first he said,

"One down cases COTTOLENE."

Ask Your Grocer for it.

DEALER GIVES FACTS.

Orillia, Feb. 10th, 1894.

EDMANSON, RATES & CO.

Gentlemen—About three or four weeks ago I had an attack of "the blues."

Two or three different remedies recommended by druggists as "the best and only cure," etc., but got no relief.

About the time of despair I was advised of finding my relief, with some slight misgivings I bought a box of your pills, which I at once used and I am almost

instantly cured. I am, therefore, I consider your Ointment a God-send.

ALF. J. DEAN.

MONEY ORDERS.

The use of Express Money Orders for all remittances by mail is coming into general favor. These money orders can be bought at any agency of the Dominion Express Company, at any hour of the day more convenient than at the bank, and they afford greater security than any other form of remittance. No written application required. Send your message by word of mouth and name of party to whom order is to be made payable. It is the only system of sending money through the mails furnishing purchasers with receipts whereby prompt delivery or settlement is assured for amount of lost, delayed, stolen or destroyed orders. All necessary information regarding this branch of the express business can be secured at the Express office.

To Destroy Worms and expel them from children or adults use Dr. Low's Worm Syrup.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Haysard's Pectoral Balm.

Norway Pine Syrup cures Coughs, Colds, Hoarseness, Sore Throat, Asthma, Bronchitis, etc.

Barlock Pills do not grip or sicken. They cure constipation and sick headache.

who believed that a great poet belongs not merely to his parish and his nation

and, but to the world. Not a few of these contributors expressed their pleasure in being able to testify to the affection with which Tennyson's memory is held, but which would also be another monument to the legacy of Coleridge's gift.

BACILLI IN POSTAGE STAMPS.

A New Scientific Discovery Explains the Cause of the Microbe.

According to the latest stories of medical science, the power of the microbe lately becoming greater and greater. A first item went around that the bacilli that infest the human body are so numerous that infinitesimal thousands of bacilli were hidden within the dirt encrusting a single dollar bill. Easily, it was calculated, one hundred million lies in the lines of gold on a dollar. A far more wonderful phase of microbes, though, is told in the recent discovery that the bacteria are everywhere.

This is that the innocent appearing and cleanly looking postage stamp is a vehicle that cannot be supposed as a microbe-free zone. The fact is that the hundreds postage stamps are fastened on their envelopes after being well moistened with the tongue. Saliva, as is well known, is the breeding place of bacteria. Directly so, the headquarters, as it were, of the bacilli of disease that infest any one person. Upon the sticking on of such postage stamps, the bacteria are directly carried away adhering to the gum and, in many, it is assured, find their way into the circulation of the blood.

to the man or woman who receives the letter, particularly if he or she be a stamper.

lector following the outbreak of the disease might be made upon the prevalence of contagious diseases in families who have stamp collections in their midst. In doing this, the author has been aided by one of the most authenticated instances of the transmission of disease germs has been given to date. A certain French gentleman was afflicted with a disease which was a statistical malady which spread over his beard and caused him intense distress. His physician, a hid having been made, the disease was traced to the fact that what the disease was well known to medical science, it existed only in Colombia, South America. The patient, a Jew, had crossed the ocean at any time in his life. The only possible cause that the doctor could get was the fact that the patient had received two letters from a correspondent or two residing within Colombia's boundaries.

Quite sufficient was this to cause the author to make further careful investigation. He found upon inquiry that the

of these Colombian stamps he had first torn them off the envelope and soaked

When in view. It was quite conceivable, the physician argued, that while engaged in this pastime he might readily have stroked his beard with his dripping or even moist hands, and thus transferred the bacilli imprisoned by the gum to his face.

The disease he was affected with was known as "piedra," and in the opinion of French scientists there seems to be little question that he got it in the way stated above.

LOCAL ITEMS.

New hay brought \$13 per ton at Belleville last Saturday.

There are at present confined in the county jail eight men and three women.

The steamer Varuna has commenced her Saturday trips to the Thousand Islands.

The number of creameries in the province of Ontario has doubled within three years.

A new dental college will be erected in Toronto at a cost of forty thousand dollars.

A large crowd went out to Varsity Lake last Saturday night to attend the big camp meeting.

James Connors stood his trial at Hamilton and the magistrate let him off on suspended sentence.

The county council chambers are being papered and calicoined. Such gross extravagance.

The total money given for all purposes by all the churches in the Bay of Quinte conference was \$99,500 last year.

A. E. Ingram, of the Toronto Mail and Empire, was in town on Tuesday in the interest of that great journal.

F. S. Solmes and W. W. Reid shipped from Picton station alone over 47,000 lbs. of live hogs during the past two weeks.

The New Orleans Jubilee Singers will continue their camp meetings at Mace's Point, Sydenham, commencing Sunday, July 14.

The wife of Mateo Jaurez, living near Silas, in Mexico, has given birth to five children at once. They are all boys and are thriving.

John Mack, the horse thief who escaped from Napanee jail on the 17th of June, has been arrested for grand larceny at Baldwinville, N. Y.

The Express states that the music of the Citizens' Band of Deseronto at the Napanee celebration last week was excellent and much appreciated.

Mrs. J. M. Poitras and family are again camping out this season at Buttercup Cove one of the loveliest nooks in the long reach of the Bay of Quinte.

Of over one thousand appointments made by the different stationing committees of the Methodist churches in Canada this year only two were protested.

A plumb line suspended a few feet from the side of a large building inclines a little from the perpendicular, because the weight is attracted by the edifice.

The Grand Encampment of Oddfellows will hold its session at Picton on July 23 and 24th, the cantons will march in procession and give an exhibition of fancy drills, etc.

Among the many improvements which Supt. Sherwood has effected at late along the line of the Bay of Quinte Railway is the lowering of Miller's grade near Napanee Mills.

The Havelock Eclipse comes to hand. It is a neatly printed little journal. H. B. R. Dryden, formerly of this office, is the publisher. We wish him all success in his new venture.

The Sons of England of Belleville, run their excursion to Kingston and the Thousand Islands on Wednesday, July 13th. The trains stop at stations between Belleville and Kingston.

Through carriages driving a load of Canadian Foresters from Napanee had a complete upset at the corner of Second and Thomas streets last Sunday afternoon. Their vehicle was badly wrecked.

The total income of the Presbyterian Church in Canada last year was \$2,167,693. This is the largest amount ever raised in one year, although the year was marked by general business depression.

When is London to be connected by telephone with the outer world? A great many business men in the district are asking that question. Few villages of its size are without this means of communication.

The Imperial parliament was dissolved on Monday and the election campaign is in full swing. The towns and boroughs will poll to-morrow and London on Monday. The county constituencies will poll their votes next week.

At Belleville market last Saturday the following prices prevailed: Chickens 45c to 55c, eggs 11c, butter 20c, cherries 12c, raspberries 12c, blackberries 12c, green peas 12c, quarts, potatoes 65c bag, new potatoes 12c quart, tomatoes 40c doz.

L. Hoppins, of the City Grocery, shows us a very handsome and ingenious calendar which he lately received from his brother in New York. It is in the shape of a large fire cracker and is so arranged as to be a useful desk calendar. It is manufactured by the Baldwin & Gleason Co., Ltd.,

Next Thursday evening is the regular meeting of the Town Council.

The Deseronto carworks are building four motor cars for Oshawa and some trucks for Belleville.

Cokebush's J. G. C. Riding plow and Twin plows are the best and cheapest. For sale by Miles S. Plumley, Napanee.

There has been a great falling off in the tonnage carried along the Erie canal this season. This is due to railway competition. James Stewart, one of the Rathbun Company's men, was somewhat injured by a break of a jam of logs at Lazer's mill, Belleville.

At Belleville market on Tuesday 3315 boxes of white and 845 of colored cheese were offered. Sales 645 white and 185 colored at 8c.

At the recent promotional examinations 225 passed in Deseronto, while Belleville passed 285. Belleville has nearly three times the population of Deseronto.

E. S. Westmorland has been shipping cattle to the Montreal market and will make another shipment on the 20th. He is paying cash for fat heavy cattle ready for market.

Miss Louise Cocking, late of Deseronto, had a narrow escape from asphyxiation by gas at the residence of Mr. Leslie, Kingston, during the past week. It was a very close call.

The party who by mistake took an umbrella from the Methodist church on the evening of the last meeting of the Epworth League will oblige by leaving it at this office.

Railway people state that the Grand Trunk has not been as busy in twelve years as far as freight is concerned. It has been found necessary to promote a number of brakemen to the position of conductor and a large number of new hands have been taken on.

It is to be hoped that the next county council of Hastings will be progressive enough to build a house of industry. Such an institution is a necessity in this county. The present mode of caring for the poor is long since out of vogue in intelligent communities.

The fire loss of the United States and Canada for the month of June, as estimated from daily records, amounts to \$9,223,000, and for the six months just past \$66,497,600. During June there were 162 fires of a greater destructiveness than \$10,000 each. The principal fire during June was that at San Francisco.

The records of the Pennsylvania Hospital of the Insane, dating from 1841, show that of the 10,000 patients treated 4,500 were cured and 2,705 were improved. There is a lesson of hope in these statistics. Insanity is not the incurable disease it has been so generally esteemed in the past.

Notice has been received from the Post Office department at Ottawa, that a system of parcel post has been established between the Dominion of Canada and the colony of New South Wales. The rate for such parcels will be twenty cents for the first pound, and sixteen cents for every additional pound.

Robert Wiseman and William Lynch paid a visit the other evening to "Divinity" camp near Bogart's wharf. They were most hospitably entertained, the supplies in the larder being apparently inexhaustible. Buttermilk is kept on tap presumably in a large cask. Judging from the quantities quaffed during that evening.

Owego was visited by a disastrous fire last Saturday morning. Wallace's department house, Kingston's pharmacy, Burden & Marden's dry goods store, Miner's grocery and J. I. Gibson and Madigan's shoe store were burned. Help was summoned from Syracuse and Fulton. Losses \$105,000; insurance \$45,000. Mrs. Isaac Bond perished in the flames.

There has been great political excitement this week owing to a ministerial crisis at Ottawa, the cabinet being divided, one section wishing to have remedial legislation introduced this session and the majority wishing it deferred until January. The three French members of the government tendered their resignation but an arrangement was effected yesterday and peace again reigns.

The honor of the Victoria cross has, for the first time in the history of that order, been conferred upon a colored man—a coal-black negro who saved the life of his superior officer on the field of battle by throwing himself in front of his commander and receiving in his own body the bullets that would otherwise have struck his chief. The dark-skinned negro is a corporal in one of the West Indian regiments of the British army.

Fire at Napanee Mills. A fire occurred at the Napanee cement works, Napanee Mills, last Saturday evening resulting in the destruction of the building containing the Diabazsch kiln. The fire broke out after supper. Supt. Allan and the men of the village great exertions and the men of the village great exertions prevented the spread of the fire to other buildings. Some inconvenience will follow, but the building will be speedily rebuilt, chiefly of terra cotta, so as to render it fire proof.

Kingston Presbytery. A meeting of the Presbytery of Kingston was held at Madoc on Tuesday. Rev. Mr. Findlay, superintendent of missions, was present. The home mission report showed that all the twenty nine mission stations within the limits of the presbytery are supplied and that excellent work is being done. Rev. Dr. McEachern accepted a call to Winchester. Rev. J. L. Grogan tendered his resignation of the John Street congregation. Belleville. A meeting of Presbytery will be held at Belleville on the 23rd inst., to consider the same.

Games To-Day. Deseronto and Napanee cricket clubs will play to-day on the grounds of the Deseronto club. Deseronto and Bath baseball clubs will try conclusions in the driving park.

1000 Island Excursion. The annual church excursion to the 1000 Island, conducted by Revs. Crossley and Stratton, will take place on Saturdays, Aug. 10th and 17th. The two best days of the Park season.

Annual Picnic. The annual picnic of the West End Mission Sunday school will be held on Thursday, July 25th. A steamer has been chartered and a picnic ground selected at a point down the bay.

Fraternals Visit. The members of Belleville lodge of A. O. U. W. will pay a fraternal visit to Quinte lodge No. 215, on the evening of Friday, 19th inst. Dr. Walker, D. D. G. M., will be one of the delegation.

The Glorious Twelfth. With favorable weather there will be a great turn out at Belleville to-day, the Orange celebration at that city being on a most extended scale. Local lodges will participate in the event.

Close Season. An order-in-council has been passed prescribing the close season for certain kinds of fish, as follows: Salmon trout, 1st to 30th Nov.; white fish, 1st to 30th Nov.; speckled trout, 15th September to 1st of May.

Entrance Exams. Twenty-four out of twenty-eight pupils of Principal Cole's department who wrote at the recent high school entrance examinations have passed, subject to the approval of the department. This beats all previous records.

Business Changes. During the building of the Oliver block the business occupants will be found in other quarters. L. Hoppins will be found in part of Mr. Stoddard's shop; G. E. Snider is located in the sample rooms of the Deseronto house. Miss Smith shares part of Miss Vauxhall's shop.

Casualties. R. H. Bogart, had his hand lacerated by a knife which he held in one hand while putting on a belt in the sash factory, necessitating repairs by Dr. Vandervoort. Robt. Culbertson sustained an ugly and dangerous wound a pike pole having been run into his knee. Dr. Newton is attending him. D. McBride lost a part of a dexter finger while another was lacerated by a saw in the sash factory on Thursday last week. Dr. Vandervoort dressed the wound.

Banquet. Dr. Walker, of Belleville, D. D. G. M., was banqueted last Saturday evening by the members of Shannonville lodge, A. O. U. W., which was held at one time master workman. The dinner was given at Deseronto's hotel and was a great success, visitors from other lodges being also present. Speeches eloquent and witty were delivered and Dr. Walker's praise were set forth in becoming terms. Dr. Walker in a neat speech thanked the brethren for the compliment paid him and extolled the order as one deserving of success.

Principal Cole's Resignation. G. A. Cole, Principal of the Public School, has resigned his position. It is his intention to retire from active school work for a year in order to pursue a course of studies at some seat of learning in order to more fully qualify himself for the teaching profession.

Mr. Cole came to Deseronto from Madoc over seven years ago. He has proved himself a very capable and successful teacher and the present high standing of the Deseronto public school is in large measure due to his untiring labor. When he came to Deseronto there were only six teachers in the public school, now there are eleven. As is evidenced by the recent promotion examinations the past term has been one of great progress.

The entrance examinations will show that Mr. Cole's department has done exceedingly well. The public generally will regret Mr. Cole's removal. The school board accepted his resignation with reluctance. It is his intention to leave Deseronto in the course of two weeks.

Foresters at Church. The members of Court Quinte, No. 1, C. O. F., assembled at their hall last Sunday afternoon and, with members from Napanee and other places, marched in procession to the Church of the Redeemer to attend divine service.

Notwithstanding the terribly excessive heat there was a large turn-out of the brethren who presented a very creditable appearance indeed. Rev. W. S. McTavish, B. D., High Chaplain for Ontario, conducted the service. He took as his text, Gen. xxx chapter and 20th verse. "When shall I provide for mine own house also?"

From this subject he deduced several practical lessons in a manner most interesting and instructive. He emphasized the duty of every man securing a home and home of his own; failing that it was his bounden duty to make provision for those dependent upon him by providing life insurance which could now so easily and cheaply be done by connection with the Canadian Order of Foresters or similar fraternal associations. The choir, with Mrs. Denmark as organist, furnished excellent music on the occasion. On their return to their hall, the Foresters passed resolutions thanking Bro. McTavish, High Court Chaplain, for his eminently practical, brotherly and patriotic sermon; to the choir of the Church of the Redeemer for the excellent music furnished during the service; and to the Session for so kindly placing the church at their disposal and for the kind, courteous treatment extended to them on the occasion.

NO EQUAL. The Vandyke Cart now for sale by Miles S. Plumley, Napanee. Call and see it.

PERSONALS.

Miss Mary Mitchell left last Friday for her home in Bradford, Perth Co. Robert Pierson, of Fenelon Falls, was in town Saturday and Sunday attending to the removal of his family to their new home.

BIRTHS.

JONES—At Richmond, on July 7th, the wife of Manly Jones, of a daughter.
TREMBLAY—At Tremblay, on July 7th, the wife of Archibald Tremblay, of a daughter.

DEATHS.

CLARK—At West Plain, on July 7th, 1895, Charles Gordon Clark, aged 31 years.

A few weeks ago Oscar Wilde had all the luxuries money could buy he is confined to the narrow limits of a prison, allowed but one book, the Bible, for his only recreation, and the only occupation permitted was a break in the monotony of the dreary hours and a relief to the most frightful anguish, in the contemplation of the fact that sometimes fellow young men of evil habits.

CHURCH OF THE REDEEMER.

Rev. W. S. McLaughlin, B. D., conducted the services last Sunday. Despite oppressive heat good congregations were present. Mr. McLaughlin preached with very much success.

Rev. J. F. McFarland will occupy the pulpit next Sunday both morning and evening.
The members of Court Quin, C. O. F., attended divine service in the church last Sunday afternoon.

C. H. Day led an interesting meeting of the P. S. C. Endeavor last Sunday evening.
Mr. A. K. Clark conducted the prayer meeting on Wednesday evening.

CATTLE AND BINDING TWINE.

The death of many cattle in Northern Ontario has been recorded as attributable to the eating of binding cord mixed with the straw. In the stomach of one animal was found a ball of binding cord which was very large, and had probably been accumulating for a year or two. The question arises, what are the farmers to do?—revert to the old way of harvesting and dispose with binding twine, or is it only a particular kind of twine that is liable to produce the effects complained of? There are certain kinds of twine that are easily digestible and harmless, such as that made from flax. It is against twine made from manilla and sisal that farmers will have to guard themselves. To prove this, any farmer taking a quantity of flax fibre and of manilla or sisal, and placing each in water will find that the flax fibre will not rot or decompose, but not so the manilla and sisal.

GENERAL SERVANT WANTED.

WANTED, BY AUGUST 1st, A good General Servant; one able to do cooking preferred. Apply to C. E. RAVIN, Deseronto Junction, July 9th, 1895.

REGISTERED NURSE.

MRS. T. McDONALD, REGISTERED Nurse, will be ready, at short notice, to attend any case of infectious disease or other sickness. Terms moderate. Address—Care of COLE BROS., Main Street, Deseronto.

JOHN FERGUSON.

Estate of Patrick Slaven & Co. Deseronto, June 28th, 1895.

Hard Times.

Owing to the failure of crops in this section of country, our sales have been so restricted that we find ourselves with a large stock of Tour Buggies, Demarets, Road Carts, Lumber Wagons, Harnesses, Whips, Rugs, Binders, Mowers, Rakes, and other articles. We are therefore, obliged to reduce the only way to clear out this stock is to reduce the prices to such an extent that the public will be forced to buy. For instance, a buggy that is usually sold for \$45 to \$50, we propose to offer for \$25; \$45 Mowers for \$30; Horse Rakes, worth \$24, for \$18; Binders, worth \$19, for \$12; Mowers, worth \$16, for \$12; Harness, worth \$12, for \$8, and everything else proportionately reduced in price. See our list of goods in our window. The lightest running wagon in the world. We have a lot of Road Scrapers on hand, which we will sell at cost. Do not wait for us to call on you; we can't afford to send out agents at these prices. Bear in mind that every article we offer is of the very best quality and fully guaranteed, and not equalled by any other house in quality, material and workmanship. It simply means that we are overstocked, having bought largely in anticipation of large sales, and as we are forced to reduce account of hard times, we find ourselves with this large stock on hand. This is your opportunity. Will you take advantage of it?
H. FOWELL, Belleville.

P. S.—Three Top Buggies, two Phaetons and one grain grinder, second hand, for sale very cheap.

Our Store will be closed every Friday afternoon during July and August.

NOTICE TO CREDITORS.

IN THE MATTER OF THE ESTATE OF ALBERT EDWARD GRACEY, of the Town of Deseronto, in the County of Hastings, Grocer, notice is hereby given that the above named Albert Edward Gracey, has assigned to me, Robert M. Jack, for the general benefit of the creditors, under the provisions of the Revised Statutes of Ontario, 1887, Cap. 124, and amending Acts. A meeting of the Creditors of the Assignor for the appointment of a Receiver and of the Liquidator, with reference to the disposal of the assets, will be held at the Law Office of Henry R. Bedford, Esquire, Main Street, in the Town of Deseronto, in the County of Hastings, on Wednesday, the 10th day of July, at 2 o'clock in the afternoon.

I am, Sir, very respectfully,
Your obedient servant,
ROBERT M. JACK.

Dated at Deseronto the 3rd day of July, 1895.

A CHOCORUA EPISODE.

By John Albree.

AUTHOR OF "THOSE DEVELS," "POEMS," ETC.

(Copyright 1895.)

New Hampshire has of late gained an enviable notoriety for its numerous abandoned farms. Like many supposed misfortunes it is turning out a blessing; these of them are already apparent. It has offered surprising bargains to city dwellers in search of summer homes in the most picturesque region of New England; then it has benefited the families who remained on their farms in giving them more opportunities to dispose of their surplus produce and to escape competition, and lastly, forests are growing up over these abandoned lands to make good the devastations of the lumber companies.

There is nothing that gives one such a feeling of peace mingled with romantic interest, as to come upon the ruins of one of these abandoned homes. Sometimes the buildings remain, but in ruins; more often they have been removed or torn down, and there is the uncrowded cellar, trees growing in it; the remains of the chimney stack, the well, now covered or filled up with stones. But beyond all other signs of dissolution and abandonment, affecting alike to sentiment and memory, are the forsaken flowers now cultivated in the yards and still living on, in spite of neglect and encroaching grass or wild shrubbery. They bloom perennially, and some kinds even increase.

These abandoned farms are usually widely separated; but along the old "North Division road" in Chocorua, directly under the beautiful peak of Mt. Chocorua, there are fourteen farms, not one of which is now occupied. A few buildings are left and the ancient schoolhouse, in which thirty children used to cipher out of Daboll's arithmetic and Webster's spelling. Each of these old farms has a rustic history. From them sprang a small, local poet, one college valedictorian, and several pulpit men with short stories. The warlike spirit of the place allowed to become great in New Hampshire. When that is imminent he moves to Boston or Ohio.

Thom present historian has busied himself for several past summers in recovering some of the incidents connected with these fourteen abandoned farms. Thus far he has succeeded in recovering several worthy of relation; one of these he heard with many details here omitted, from a very aged man, himself having acted a certain part in it.

In the little red schoolhouse just spoken of, Lucy Wain, the daughter of a farmer in an adjoining town, taught school for several seasons. She was on eighteen when she began to teach, a comely, country maiden, rather better educated than was common, but excessively shy and modest.

The blash never left her cheeks during the hours of school; and when her day of fatiguing and often harassing labor was over it was succeeded by an extreme paleness. Her pupils were of all ages, from those learning their letters to young men and women of her own age, and two or three men in country districts for boys and girls to continue in school until almost or quite men and women, especially in the winter term, when there was little else to do.

Lucy loved her small A. B. C. pupils, and her older ones were fond of her, and one of them, Sylvanus Waldron, was too fond. His studies were over, and he had been to college, and they often annoyed her to desperation, as she was conscious of the increase of dust in her face whenever he asked any question or made a remark. She was aware that the whole school observed it. Besides she had a lover, with whom she was well pleased, although the details of his history were not to be told. He was called Ensign Goff. He was six feet two in his stockings, a stalwart, frank, noble-hearted young man, who carried two fists that would knock a man down. He belonged where he got his title of Ensign, by which he was always called, and of which he was rather proud. It was his habit to spend every Sunday evening with Lucy, and he seldom saw her at any other time. Usually she had recovered her strength and her color by the rest of a Saturday afternoon and the Sabbath. But toward the end of the term this became difficult and infrequent. Her relations with Sylvanus Waldron were more and more distant to her, he persisted in his attentions in and out of school, walked home with her whenever the chance offered and often joined her on her way to or from school. She was afraid to have an open quarrel with him or to demand his dismissal from school, for the gossip of the neighborhood. She could bring no direct charge against him save a personal one, and she was too shy to bring his lessons and took a cowardly advantage of his belief that she would not dare to reprove or punish him. Lucy confessed to her friends that she had only a little while longer to endure her situation and that she would never again teach that school.

The Ensign noticed the change in Lucy toward the end of the term.

"What has become of your color?" he inquired one evening. "Are you ill?" "Does anything trouble you?"

"I can't bear," he said in a soft tone, "to see you so pale."

"The bluish tinge is a little pink to her face, but she did not answer."

"I think," said the Ensign, after some of those silences in which congenial souls seem to be lost in thought, "I think you have taught public schools long enough—long enough, and—well, how would it be like a small private one, with just a single pupil, a dull boy, but willing to learn and, faith, he thinks he is already in love with his teacher? Did you know him?"

Lucy hung her head and turned her face, now red as a rose, away from the Ensign.

"I don't know," at length she murmured. "I have one such already."

What! exclaimed the Ensign, and thought of himself up as if about to strike suddenly.

A GAIETY GIRL'S LIFE

MAUD HOBSON HAS HAD LIVELY EXPERIENCES.

Kalakauna was Fond of the Couple, Gave

"Capt." Jack Haley a Good Position

and Invited Him to Join the Royal

Poker Game.

When Maud Hobson, the Gaiety Girl, began her suit for divorce in San Francisco against Capt. Andrew Burrell Haley of the British Royal Navy, she dreamed of the romance buried in the dry legal papers. That little Gaiety Girl had more intimate acquaintance with royalty than any woman on the stage. She was the rage in London in the early eighties and a prime favorite with the Marlborough House set. New in Honolulu, when Kalakauna was king, she was a shining star in equatorial society and the most prominent figure in Honolulu life, barring her husband.

Before her marriage, Maud Hobson was a beauty in London. She is a niece of John Hollingshead, who has been in the city for so many years, and when still in her teens made her debut and an instantaneous success. The playhouse was her home, and all the Johnnies and fops and dandies and swells in town were smitten hard. Capt. Andrew Burrell Haley, about thirty-eight with a figure like one of Ouida's heroes, blonde, with a gentle droop which the beaux sabours of his day affected in their mustaches, a man of the world and admirably reckless, was struck the hardest. He was the owner of a fine estate, came of an honored family and had all sorts of expectations. Suddenly came Maud Hobson and a change to Haley. He absolutely became melancholy and haunted the Gaiety like a nightmare. The playhouse was his refuge, and he made it his habit to throw his money to the winds in all sorts of extravagances. He did not last long at that, and when he came a cropper for \$24,000 in the Derby of 1881 he had to face the music. He represented to himself his fortune as represented to his family by his relatives. He had a fine house, a fine estate, and he gave them a chance to straighten up his affairs.

It was hard to leave London, but money made it so. He had to go to the tropics. So one fine morning the soldier and his young bride embarked for Hawaii. The pride of the Johnnies, the women were opened up to the attacks of Belle Bliton, Violet Cameron and others too numerous to mention on the British nobility, became Mrs. Haley. The dashing Andrew Burrell Haley became Capt. "Jack."

Capt. "Jack's" bad luck did not dampen his feelings for her, and in no time he was in the city of Honolulu and the mould of form—racing form—on the Hawaiian Islands. His wife was young and of a sunny disposition, and they were both in the city of Honolulu. He arrived in Honolulu shortly after the accession of Kalakauna to the throne of his fathers, and that monarch opened his arms wide to the new and his Gaiety girl and gave them a pair that could not be matched.

Almost immediately Kalakauna discovered that it would be a pity to allow so much military talent to go to seed. He at once cast around for a niche for Capt. Haley. There was none in sight. "I'll make one," said Kalakauna, and he did. He created an honorary position, installed Capt. "Jack" at the head and put his name on the royal pay roll. There were plenty of requisites on the side and he gathered them in.

The friendship of Kalakauna and Haley prospered, and Mrs. Haley maintained the position as one of the most delightful women and best dinner-givers in the kingdom. The captain was made a brigadier-general, or something of the sort, and consumed larger quantities of whiskey than before. A beautiful boy had been born to the couple, and their household was made more content and peace. There was never a cross word. They remained in Honolulu five years, when Capt. Haley began to yearn for home and old associates. Mrs. Haley was no outward protest, and after many sorrowful leave-takings Capt. "Jack" took his darling wife, his life and son from the tropics.

Some months later the islanders were astonished to hear that Mrs. Haley had constituted a suit for divorce in New York against her husband, alleging cruelty. She won it and went to England. There she settled with her son in a cozy villa. She resented her two years' sojourn in the city, being mostly Hawaiian residents in London. Among these was a Mr. Armstrong, brother of the Hawaiian consul. He fell deeply in love with her, proposed, was accepted and they were married. They came to America on a wedding tour.

Then Capt. Haley of the Fifth Hussars, chum of the Prince of Wales and Kalakauna's master of the revels, did one thing for which Hawaiian can hardly forgive him. He instituted a suit for divorce from his wife, setting up as fact that she was living with Armstrong. She consented to the divorce, and the divorce was granted in England, and in granting the decree Justice Hannan upheld that position. Haley was forgiven him. He died last year, who died last year at Monaco.

When Mrs. Haley-Armstrong returned to England they were divorced from her. She was Armstrong. For some reason, finding that his marriage was not binding, resolved not to try it over again. He was free as a bird in the air. She turned to the stage, naturally, and the Gaiety. Her return was hailed with delight, and she has continued a favorite ever since. She has health, beauty, admirers, fame and jewels.—San Francisco Chronicle.

Wind Your Watch Regularly. Jewelers say that it does not make any difference when you wind a watch, be it morning, noon or night, but that it is better to wind it at the same hour, and that at the same time of day each watch ought to be wound. The key is the mainspring in first class condition.

A Pre-Historic Venice in England. A sort of prehistoric Venice is found to have existed in the Glastonbury Marshes. Due to a local rise in the sea level, the marshes are making an investigation of the locality. Earthworks found shows the inhabitants to have lived long prior to the Roman invasion.

Last evening D. V. Dart with a lighted match attempted to light a gas leak at Gladwin's corner. An explosion followed, earth and boardwalk and Mr. Dart being hurled to one side. He fortunately escaped without injury.

No people are so generous to educational institutions as those of the United States. President Roosevelt recently gave \$10,000, to the Columbia College, New York, for a library building. This college has received nearly \$60,000 in gifts since he succeeded to the presidency.

Complimentary. Inspector Johnston is reported to have stated that the examination papers of the 3rd book division of Miss Pagan's department of the Deseronto Public School were the best third book papers ever had on record. This is a compliment to Miss Pagan and her scholars as well as to the school. A glance at the figures in another column will confirm his statement.

Successful. At the recent closing examinations of Trinity College School, Port Hope, L. Marvin Rathbun secured the prize for general proficiency in the first form. He also received "honorable mention" for excellence in Mathematics, English and Classics, besides passing in other subjects. Ernest Rathbun secured "honorable mention" in Christian doctrine, English and Classics in the first form, besides passing in the other subjects. Both boys deserve credit for this excellent showing.

Police Court. Mr. O'Leary, hotelkeeper at Melrose, appeared before Commissioner McCullough on Thursday charged with selling liquor to Peter Hardy, an Indian. The sale was proved, but the Commissioner had doubts as to whether O'Leary knew that Hardy was an Indian he let the defendant off on his payee costs and entering into a recognizance to appear for judgment when called upon. Mr. Bedford appeared for the Indian department and Mr. George Deroche for the defendant.

The Weather. The weather continued very dry and hot until Monday evening. Sunday was the hottest day of the season, the thermometer indicating 91° in the shade. As there was much moisture in the atmosphere the heat on Sunday and also on Monday was of a most oppressive character. On Monday evening there were several very heavy showers, which cooled the air and must have done incalculable benefit to growing crops. The temperature since has been delightfully cool and pleasant. On Wednesday morning the mercury fell to 44°, a drop of over fifty degrees from Sunday. The maximum temperatures for the week were—Friday, 79°; Saturday, 83°; Sunday, 95°; Monday, 84°; Tuesday, 73°; Wednesday, 75°; Thursday, 78°.

CUSTOMS RETURNS. At port of Deseronto for fiscal year ended June 30th, 1895.

Exports	\$ 441,859
Imports free	9,762
Imports duty	2,322
Customs collections	8,199.78
Inland revenue collections	5,035.00

METHODIST CHURCH.

Rev. E. N. Baker, M.A., B.D., of Belleville, occupied the pulpit last Sunday morning and evening. His eloquent and impressive sermons were enjoyed by large congregations.

Rev. D. O. Crossley, of Napanee, will preach both morning and evening next Sunday. His subject will be "Will you fill Mr. Crossley's pulpit in Napanee."

G. F. Huff led the Epworth League meeting on Monday evening.

The Sunday School picnic next week promises, as usual, to be a great success.

ST. MARK'S CHURCH NOTES.

Next week we hope to give a report of the July meeting of the brotherhood of St. Andrew, held last night.

Some interesting other matters relating to the Sunday school picnic, are being discussed this week, and a decision will be reached by Sunday. No effort will be spared to make the day a happy one for the children and all others who may attend.

A children's service has been proposed and will be held on the second Sunday, at the usual hour of Sunday school.

The Prayer for Rain, used in the service on Sunday evening last, was of comparatively modern origin, having been inserted in the Prayer-book by the Reformers in 1549. It may not be out of place to say that such prayer is justified by the examples of the petition, "give us this day our daily bread," authorizing prayer for needful food, and hence for all that is necessary to secure it. A deficit of \$100,000 in the Missionary funds of our sister church (Protestant Episcopal) in the United States, has been wiped out by the generous contributions of our voluntary offerings, large and small.

Coughs, Colds, Sore Throats, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagar's Pectoral Balsam.

Some French people have declared their intention to erect a splendid mosque in Paris for Muslims to worship in.

"We are in Paris, and there will be a costly affair," says a Paris paper. "What of that; are we not becoming a great Eastern power, and is it not, therefore, most desirable that we should behave on our part to show the Eastern nations how much we respect and admire them."

Good Roads Promote Development. Good roads often tend to develop a country. It is not a million times more valuable in promoting life, and not simply existence, but the human civilization life, and not only possible, but practical.—Good Roads.

Walter C. Sanger, who has been severely ill, will be ready to race by June 8. He now weighs 198 pounds.

Walter C. Sanger, the California racer, recently rode a mile in one minute fifty-six seconds, which is the record for the Pacific coast.

ALPHABETUS CRABBE, ESQ.

By Francis Howard Williams.
 Author of "Almanac, or the Documents in
 a Strange Case."

(Copyright 1895.)

He was rather tall and rather angular. One might speak of him as well-dressed, though his anatomy was not a masterpiece of construction which makes a man's appearance. He entered the restaurant as I was in the act of slipping on my hat. He was a man of the ordinary but I paused with uplifted wine-glass to look at him. Apparently uninterested in the street, he attracted his attention, for his face was turned in that direction and he was walking slowly backward, the motion of his hand gave him a table close to my own. He scanned the bill-of-fare mechanically.

"A demi-tasse and a couple of cigarettes, please, you may bring me."

The waiter seemed surprised at the manner of this request, but he attended his business and with a silent bow went to fill the order.

I do not know what peculiarity in the stranger attracted me, but I strangely was aware that he did attract me. He seemed to belong to another era; his movement and manner were different from rather opposed to those of to-day. I should have said he was a specimen of the nearly extinct class of "old school," the old school, had it not been for the fact that, even while I was speculating about the matter, he arose, turned his back on me and deliberately seated himself with the back between his legs, after the manner of a bumpkin in a country bar-room. Such an attitude was quite incompatible with the "old school" theory, so I modified my conclusions, though my interest remained unabated.

As the silent waiter returned with the cigarettes and coffee, the stranger looked up from the bill-of-fare, and, with the air of a man who is about to proceed in solving a vexatious problem, said:

"Fromage de l'île, lettuce mayonnaise."

The attendant looked puzzled, but, perhaps a growing consciousness of the possibility of a fee, bowed urbanely and went off again.

I now noticed that the stranger's necktie was a plain black one—had slipped around so that the bow was at the back of his neck. I felt that it would be a friendly act to tell him of this very important arrangement of dress, but somehow I hesitated. He was so interesting a study that I feared to break the spell by any closer acquaintance. Besides, if only I opened the door to conversation, he might turn out to be a bore and I dread a bore more than a toothache. Therefore I devoted myself to my steak and Sauterne and awaited developments complacently.

The entrance of the waiter with the salad and cheese was the signal for further happenings which entertained me delightfully.

"And now," remarked the stranger, "you may get a chop English, chips Saratoga, peas green. A bottle pint brandon et tout."

The waiter whose official training was barely sufficient to conceal his surprise at the position of the gentleman's chair, recovered himself with evident effort, and delivered his silent bow under the most unfavorable conditions.

As to myself, my astonishment was divided between the peculiarities of the stranger's syntax and the unusual order in which he ate his party.

That he should put his adjectives after his nouns might be the result of long study of the classic tongues, but that a man should eat a chop after his lettuce appeared to me subversive of recognized gastronomic tradition. Why, he was exactly reversing the order of things. What sort of a man could he be?

I, who am compelled to be somewhat careful in this matter, felt a sense of personal affront in the vagaries of a fellow-diner whose individuality seemed above the sacred rights of precedent.

I had finished my luncheon but was dreading a little over my coffee in order to see the stranger's next move.

Just what old incident might occur, and I am much too fond of the unusual to miss any available chances in that direction.

The stranger by this time was discussing his chop with apparent satisfaction. He was evidently a good liver, he took the bouquet of his champagne with the gusto of a connoisseur, and touched his peas with the aid of his fork with that peculiar delicacy which betrays to disciples of Brillat-Savarin.

I managed to put in the time comfortably and was enabled to remain at my table without attracting attention. I was determined to see the meal finished and when at length the waiter returned for further instructions, I was not at all surprised at the nature of the stranger's command:

"Consomme, and after, little neck clams. And you shall bring the yesterday afternoon's paper."

Yes, not only did this errand individual bring with coffee and end with clams, but he also brought newspapers a day old in order to be consistent in his reversal. I was now thoroughly convinced that so unusual a person must be interesting, and as the displaced neck-tie had been a source of annoyance to me ever since I had observed it, I decided that this was the opportunity to break the ice and make his acquaintance. I waited only until he was pepping the little necks, and then stepped forward to talk to him.

"Pardon me, sir," I said, "your necktie has slipped around with the bow at the back."

"Ah, yes. Of your courtesy, sir, mindful I am. But it is intentional quite. I do so wear always."

"Oh, excuse me," I stammered, feeling as much like a fool as possible.

"Pray mention it not, my dear sir. I would not at all at my mistake. Natural it was, very. I thank you."

His voice was round and full. His sentences would have had a peculiar old English ring, if it had not been for the fact that he had it not been for his abominable inverted sentences.

"I am turned to go," he raised his finger deliberately.

"Perhaps, sir," he said, "I may not be so much interested in it. In brief my conclusion is, I am turned to go."

This, of course, was precisely what I desired, so I bowed.

He motioned with grace towards a chair. You will pardon my posture," he remarked. "I have been sitting in this chair. The world to-day seems to me insolent, but it is of my theory a part. I am not better consistent to be than to be inconsistent."

He resumed the strange: "I think it is Emerson who has said: 'The man may teach by doing, and not otherwise. If he can, even out of his mouth, he can teach, but not by words.' That great wisdom is."

"Yes," I said, "Emerson's wisdom, more than that of any modern writer, deserves to be called great."

I hoped by this encouragement to wider conversation to draw out the stranger, and I was partially successful.

"You have of course observed," he went on, "how the theory of evolution is being applied to that domain which we the spiritual have called—We are coming to know that all things are growth and are the development—a passing one form flowing by gradations unperceptible another into. Most men are seeing this, but there is a concurrent fact which is attention arresting in a degree great. While development is the law, there are always forces counteracting the law, tending its operation to delay. This gives us arrested development. Now, my dear sir," and here the stranger raised his finger to insure my especial attention to his words, "the fact of arrested development is the great truth upon which I the theory of my life have based."

I was debating in my own mind whether my companion was a lunatic or a philosopher, when the waiter brought a dinner-bowl.

"Take that away," said the stranger imperiously. "It was neglected of you not to bring it before the coffee." And as the rebuffed attendant retired, the stranger remarked to me: "If the devil, the old school, had it not been for the fact that, even while I was speculating about the matter, he arose, turned his back on me and deliberately seated himself with the back between his legs, after the manner of a bumpkin in a country bar-room. Such an attitude was quite incompatible with the 'old school' theory, so I modified my conclusions, though my interest remained unabated."

"Perhaps you are right," I said, "but you were speaking of the theory of your life. You say it is based upon the truth of arrested development."

"Yes. It is now long years since I the study of development took up. A great while before Darwin the world started with his arrangement of the origin of the facts of evolution, as applied to the descent of man, I had reached conclusions most important in regard to these facts as they have been. Time and Space. I saw that all things exist in Space and Time. I assumed Space to be a Negation, while Time was a direct progression—a development—in Space. You catch me?"

I was not sure that I did, but I thought it not improbable that I might be compelled to before long, so I kept a cool head, and bowed interestedly.

"Very well. Now then, just as we the measurement of Time, undertake—as we think of it (passage in minutes and seconds on a material dial—so the real passage of Time, the actual progression of the Entity Time in the negation called Space, is a series of events, incidents, happenings. You know that there is no transmission of light could be except the medium of a luminiferous ether through. So there could be no progress of Time except through the medium of events, incidents, happenings. You follow me, I hope?"

"Somebody ought to, so long as you are at large," I thought; but I merely said:

"Entirely so."

The stranger continued with increasing animation.

"I am glad, sir; glad. Now you will have no difficulty in perceiving that as these events are necessary to the progression of Time—that indeed they constitute time—one has only to retard them in order the passage of time to be retarded. In this enormous truth, brood upon my mind I for a long while completely stunned was. Life was made of events, happenings, and these made up Time. I saw that the progress of the passage of Time at will. I had merely to regulate the manner of my living. I need not grow old. I need not arrest time. I need not die. I need not live. I need not be. You, sir, who evidently so thoughtful a man are, must recognize the impregnable nature of my logic."

So the stranger, in the manner of the old school, and I could not but notice the round and somewhat stilted character of his sentences.

"And you are endeavoring to put these axioms into practice?" I asked.

"More than that, my dear sir, much more than that. When I had reached the truth, I was not content to rest. I was but a step to the further and more tremendous truth that man may reverse Time. Think of it, my dear sir. Ponder it in all its dazzling beauty. I was lying upon my bed, in thought buried, when upon my soul this fresh idea itself burst. My life was made of events, incidents—their warp and woof of Time. I lived events, incidents, actions, words—the thousand happenings, movements, little and big, which make up Time. I was not content to rest. I was but a step to the further and more tremendous truth that man may reverse Time. Think of it, my dear sir. Ponder it in all its dazzling beauty. I was lying upon my bed, in thought buried, when upon my soul this fresh idea itself burst. My life was made of events, incidents—their warp and woof of Time. VOL. XIII

DESERONTO, ONT., FRIDAY, JULY 19, 1895.

NO. 44

Anything we can do for You?—We address this question to every reader of this paper, whether they live in Kingston or a hundred miles away from it. We are selling Dry Goods—not only dress stuffs—but dry goods of many kinds. Ours is a store of many departments, each of them under the guiding hands of experts in their line. The store is conducted on a modern scale and offers the buyer every inducement any metropolitan concern can offer. There are no goods made that are any better than the lines we carry. There are no prices quoted on first-class stock lower than ours.

Dry Goods by Mail.—We offer out-of-town folks superior advantages for buying by mail. We execute every order entrusted to us promptly, carefully and faithfully. People living many miles away can shop with us as pleasantly and profitably as the people who come to the store.

Send us your orders for anything you may need. State explicitly what you want, and if it is not in our stock we will make every endeavor to get it for you.

Stearns & Stearns
DRY GOODS IMPORTERS

106 & 108 PRINCESS STREET, KINGSTON.

We deliver all orders free of postage charges. Send money by P. O. Order or Registered Mail.

Address a Postal Card to
C. B. SCANTLEBURY,
Belleville,
The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,—
Please send me samples of Wall Paper suitable for
(mention rooms) and not to exceed (mention price) per
single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, and which we positively guarantee better, and lower in price than any other house in Canada. The samples will be large and in sets comprising Wall Paper and Border, and will enable you to make a selection for an entire house as you sit by your own fire and with your friends to assist in the selection. You have absolutely no responsibility in the matter—you simply write the postal as above and we do all the rest—send you samples enclosing order blanks, a guide to show paper or Economy in House Decoration, showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of all trouble and anxiety of Wall Paper shopping. We positively guarantee satisfaction. Can we say more?

Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

HILLIER.

The sum of sixteen dollars was realized at the lawn social held at James Jones' residence. George J. Caldwell, who has been appointed collector of customs at Concession, J. M. Cadman having resigned.

A boy, who said to stay, has arrived at the home of George Pine.

There will be an abundant crop of plums this year.

The recent rains will prove of great benefit. Farmers are busy threshing early peas; the yield is about six to one.

WESTBROOK.

Fred Gates, we are glad to say, is able to move about but only on crutches as yet.

A large number from here attended the celebration in Belleville on July 12th. Thomas Stevens, ill for about three months returned home from the General hospital on Friday and is continued beyond all hope of recovery.

Andrew Howie returned from Uncle Sam's domains on Tuesday last. Miss Loretta Meagher, of Marysville, is spending the holidays with her grand parents, Mr. & Mrs. M. Sheehan. James Howie left yesterday for Nalhalia, Dakota.

MARYSVILLE.

The congregation of St. Mary's Church held their annual picnic on Wednesday, Aug. 21st, in Anderson's grove near the station. The picnic was given by the Misses Breunen and Drummey and a gold watch will be given to the young lady selling the greatest number of tickets. Other prizes will be given for the athletic sports.

Miss Katie Anderson spent a few days in Deseronto last week.

Joe Meagher, of Deseronto, passed through the village on Sunday last.

Misses Hurley and Deasy visited Belleville last week.

Rev. Father Quinn visited Cleveland this week.

Mr. Walter Deasy attended the excursion to Rochester on July 12th.

Miss Etta Brown, of Deseronto, was the guest of Miss Nellie Drummey this week.

SHANNONVILLE.

Rev. John R. Peake and wife, of South Dunmore, have been the guests of Mr. Peake's sister, Mrs. L. E. Mills, during the past week.

Misses Bertie and Lottie Houston are visiting friends in the village.

Miss Blanche Parrall is visiting friends in Pictou, P. E. Co.

The flower service on Sunday last in connection with the M. S. S. passed off very nicely.

The church was handsomely decorated with flowers for the service. The programme was principally contributed by the children.

A duet was rendered very nicely by Clara Grills and Jennie McShan. Miss Flo Hickley contributed a solo. The superintendents of the different schools on the circuit were present and gave addresses on Sunday School work.

Rev. J. Peake and the Rev. W. J. Sanders, also delivered addresses. The infant class did excellently well and much credit to their teacher, Mrs. Morden for her careful training. The band table used for illustrating the lessons being a great improvement.

Mrs. Lake who has been superintending for two years tendered her resignation as she expects to leave out village, to the regret of many.

Rev. John R. Peake, occupied the pulpit on Sunday eve last.

TYNDINAGA RESERVE.

The rains of last week and Tuesday have improved growing crops and removed the doleful expression from the faces of the farmers.

Chief Green, of the Big Store, is taking a well earned holiday this week.

Christ Church cemetery is at last enclosed by a handsome and substantial fence. Donations towards paying the balance due about \$85, may be left with either of the church wardens or W. G. Egar, Indian agent, Deseronto.

Mrs. C. Rogers, of Brighton, was a guest at the Paragon on Tuesday the 16th inst.

Whilst a number of young people were returning from Belleville on Saturday, the 6th inst., in a spring wagon, the horses took fright and one of the occupants, Mary Maracle was thrown out and broke a leg and in spite of the knee, the horses escaped unhurt.

The picnic held in Chief S. Loft's grove on the 6th inst. to celebrate the Missionary's 70th birthday, was a grand success.

Friends from all parts of the Reserve and many from Deseronto rallied round the venerable gentleman to wish him many happy returns of the day.

BLESSINGTON.

July 16.—Our recent wet weather is brightening up prospects for the farmers around this part.

Misses Maud and Mabel McFarlane and Ethel Beatty, of Melrose, were visiting friends here this week.

Nelson Beatty, of Toronto, is visiting at Mrs. L. Ross'.

Mrs. S. G. Emerson and Miss M. Emerson, of Tweed, spent Sunday with friends here.

Our residents celebrated the 12th at Belleville and in spite of rain were much pleased with the outing.

Daniel Robertson lost a valuable horse last week by the animal getting its leg broken.

Ada Leavens, of Deseronto, is visiting relatives in this vicinity.

J. Robin and Walter Snider and families spent Sunday with friends near Melrose.

Our village is very lively with berry pickers at present.

Miss Blanche Robinson is visiting friends at Foxboro.

Mr. & Mrs. George Sherman visited friends at Bay Day on Sunday.

One of our young men, spent Sunday evening very pleasantly at Plainfield.

John Sparrow had the misfortune to get one of his legs broken a short time ago.

Mr. & Mrs. Jas. Smith attended the funeral of the late Mrs. J. Farney at Roslin on Monday.

To Destroy Worms and expel them from children or adults use Dr. Low's Worm Syrup.

BARBOLPH.

The season of dry weather has been dispersed after the refreshing rains and again has not been so far advanced as doing finely and is expected will give good returns.

Part of the shore in the reach has about its regular amount of camping visitors; Wm. Smith, near the wreck of the Quinte, at Bay.

It is a party, at the Bogartie on the Bay. Mrs. K. Taylor, of Deseronto, E. Baker, of Belleville, and Rev. Shaw, of Northport, along with their families and friends, at Thos. Turner's, at Point and family, of Deseronto.

Surely we are well represented and hope they may enjoy their rest and recreation as their room for all in these pleasant spots.

Our minister the Rev. Thos. Snodden has joined hands with us in this his new charge he comes with heart and hand; we hope one and all may appreciate worthily.

On Tuesday we were awakened from the usual lull of every day happenings by the arrival in our midst, a stranger to the house of Mr. S. M. Woodcock who has come to stay.

What is it? A girl you say, well done. What have you to say now against this Canada of ours? The local policy has not stopped the growth of our native home at least appearances are in its favor.

SOLMESVILLE.

The recent rains have greatly improved late crops.

Edward Simpson has arrived from Chicago having been summoned home on account of the illness of his sister Maggie.

Master Arthur Foster, of Toronto, is spending the holidays with Jacob Foster.

Mrs. Samuel Spence paid a visit to Napanea last week.

John Wesen was visiting his daughter, Mrs. Thompson, on Sunday.

A couple of our young men are taking great interest in the Sunday evening services at Deseronto.

Harry Clemenson, of Wellington, is visiting at Manley Wm. the streets.

Miss Demuth, Brighton, and Miss Walte, of Pictou, were visiting their aunt, Mrs. R. A. Brooks, last week.

Mr. and Mrs. Caniff, of Stuco, were visiting Mr. and Mrs. C. F. Black on Sunday.

Dr. Cook and his son, of New York state, were visiting at D. B. Solmes' recently.

The Sabbath school in this place is always well attended. The superintendent of S. Spencer.

Mrs. Henry Black and children have been visiting friends in Camden.

Mrs. John Kennedy and children were visiting her parents in Stirling last week.

Mrs. Frank Donny and daughter were visiting her father at home.

George Adams is digging a new well on his farm for stock purposes.

Miss Mattie Smith, of Rome, N. Y., has been visiting her father at home.

The brothers Price, of Camden East, were the guests of their grandmother, Mrs. Peter Denison for a few days.

A prominent dry goods man of your town wheeled over here on Sunday afternoon and feeling tired with his exertion sought rest in congenial company.

PUBLIC EXAMINATION AT S. S. NO. 18. TYNDINAGA.

On Friday afternoon, June 12th, a public examination of S. S. No. 18, Tyndinaga, was held at the school in this place.

Looked forward to by the young and old of this section, as the event of the season. On all occasions of this kind the school room was crowded; this occasion it was overcrowded as a great number had to remain outdoors, who were late in getting there.

The walls were beautifully decorated with mottoes, pictures, evergreens, while the desks were artistically decorated with beautiful designs of the pupils own work.

The classes were examined in the various subjects and the youngest child and oldest one, the richest and poorest, all alike, did his or her part towards doing credit to their teacher and making the examination a success.

While the whole entertainment was well worthy of note, particularly noticeable were some solos and recitations by little ones.

"The Dead Doll," by Tessie Bennett, prologue by Jennie Callaghan and solo by Patrick Farrell, Lizzie Murphy, one of the pupils, acted as organist, while all were joined in singing hymns when all dispersed highly pleased at the success of the school.

A VICTOR.

OBITUARY.

Miss Mary M. Parker died at the residence of her brother-in-law, James Fairbairn, St. George street, on Friday, 12th inst.

Deceased, who was twenty-four years of age, was the daughter of Joseph Parker, of St. Catherine's, and was born at Lansing, Michigan. About two years ago while sewing some black material she accidentally pricked her thumb, under the nail, with her needle. Blood poisoning followed and she was an invalid ever after. Distinguished medical specialists in Pittsburgh, Pa., St. Catherine's and other cities in vain endeavored to effect a cure but their efforts could not avail. Her suffering were at times very intense but she bore them all with patience and resignation. Some weeks ago she was taken to the hospital at St. George's, where operation which it was hoped would prove beneficial. These hopes were not realized. She grew weaker and at her own expressed wish was brought to Deseronto on Saturday, 6th inst. On Friday afternoon she peacefully breathed her last. Mr. & Mrs. John Taylor, East Liverpool, Ohio, came to Deseronto some weeks ago to attend her during her serious illness, Mrs. Taylor being a sister of the deceased. The funeral will be held on Sunday at 1:30 p. m. and will be very numerous attended. Religious services were conducted at the house by Rev. J. H. Brown, of Deseronto. The remains were conveyed to the Deseronto cemetery for interment. The following young ladies acted as bearers: Mrs. M. Brown, Topping, Botting, Huff, Nellie Gowan and Barrington. The funeral arrangements were under the direction of J. M. Smith, of Deseronto's undertaking rooms.

Fred Hawley, Thurlow, has completed a new building for the purpose of housing a car and severely injured.

A young man named Seider from Brookville while stealing a ride on a G. T. R. train was injured between two boilers on a car and severely injured.

THE GLORIOUS TWELFTH.

The Glorious Twelfth was celebrated this year with even more than ordinary enthusiasm and display. There were demonstrations of the various sports at Toronto, Winnipeg, London, Ottawa, Belleville, etc., and the procession was of a most imposing character, those attending from all parts of the present from adjoining districts of country.

The weather was generally favorable in the morning but after dinner rain set in at many places, thus tending to mar to some extent the pleasure of the day. Belleville was the place chosen for the principal demonstration in the Bay district, and the celebration there was one of the most successful held in Canada during the day. Thither came a large number of people from the surrounding towns and country districts and the city was thronged all day with enthusiastic bands of pleasure seekers, while the roll of marching music never ceased from early morning until late at night. The two lodges in Deseronto assembled at their hall early in the morning and having formed their ranks marched in procession through the principal streets, the Citizens' Band accompanying spiritual music. Their progress was watched with interest all along the route, the brethren showing a very neat appearance with their bright regalia and the dignified officers proceeded to the dock where they boarded the Ella Rose which had come in from Napanea with a large squad of excursionists bound also for Belleville. The steamer did not accommodate all who presented themselves for the trip and the Deseronto had to be impressed with the necessity of a second steamer. The Hero, Reindeer also carried large bodies of brethren and others from other towns-lodge bay. The Orange lodge of the Reserve went up in carriages, and the Shamrock lodge made an excellent turn out. The procession was formed at one o'clock, and at two o'clock it started on its way through the principal streets of the city. There were six brass bands and nine life and drum bands in the great procession. All along the route the people were packed with people wishing to get a good view of the lodges as they passed by. The lodges marched into the Agricultural grounds where the speeches were made. The addresses were listened to by a number of the brethren and visitors. Wm. Johnson, P. G. M. O. E., acted as chairman and gave a speech of welcome. Rev. J. C. Coburn, of Toronto, Grand Chaplain of the True Blue, gave the speech of the day, his utterances being forcibly delivered and frequently cheered by the multitude.

Also delivered a short address. The lodge returned home about eight o'clock and were met at the dock by a great multitude. The hotel was crowded and themselves as perfectly satisfied with the day's proceedings.

STEAMER CIBOLA BURNED.

The steamer Cibola of the Niagara Navigation Company was burned at Lewiston, N. Y., on Monday morning. She had been chartered by the Canadian Pacific Railway. An hour before the catastrophe the fire was lighted under one of the boilers to get up steam.

Shortly after five o'clock, forty in number were asleep. The watchman smelled smoke and called to the fireman, but before he finished speaking he saw flames bursting from the boiler. He then rushed below decks to give the alarm and in a few seconds the fire had gained such headway that it could not be subdued. The officers and crew were trapped in their night clothes. Capt. Solmes and some others had a narrow escape. The moorings of the steamers were burned up and the vessel drifted out into the stream. When about 150 feet from the shore, James Woodward threw himself from a window and swam ashore. At the same time Wm. Hammond, the third engineer, appeared at a port hole on the lower deck and attempted to pull himself through. In this he failed and his pleas for assistance were heard, but no help could be given him. After a while he was seen to drop back and finally disappeared. He was supposed to have lost his life. Before the vessel broke her moorings, all adjoining buildings reached the American shore. The fire spread rapidly. The fire is supposed to have started between the two sets of boilers and is supposed to have been due to spontaneous combustion. The result of the river three miles until she ran aground on the Canadian shore. The swells of the ship were broken up and again and she was caught by a tug at Paradise Grove, a mile or so down from Niagara-on-the-Lake. The steel hull is intact though several of the plates are warped; the boilers and shaft are all right; every piece of wood is consumed and the intricate parts of the machinery are rendered useless. The vessel is thus a total loss. The Cibola originally cost \$160,000, and at the time of her burning was worth about \$100,000. The insurance amounts to about \$75,000.

The Cibola, it will be remembered, was built at Deseronto in 1887, work having been taken up on May 24th. The frames and plates were imported from Scotland and were put together in the Deseronto shipyard by W. C. White and Co. of Montreal, working under contract for the owners by James R. Mansell, C. E., of England. The launch took place on Nov. 1st of the same year and the vessel was christened by Mrs. J. R. Mansell, C. E., of Montreal, and a great multitude of other visitors. The winter was spent in fitting her up for service. The boiler, the engines were built by Rankine, Blackmore & Co. of Glasgow, Scotland. All the machinery was fitted up by Archibald Rankin, a young but capable engineer who was assisted by the other members of the crew. The vessel was launched by Wm. Webster, the first engineer of the vessel. The carpenter work was directed by Chas. McBurnie, of Deseronto, and the Capt. Wm. Evans, of the shipyard. Her first trial trip was made on June 7th, a run being made to Thompson's Point, Capt. McCorquodale, her commanding officer, was in command. On Sunday, June 10th she cleared for Toronto, arriving at that port on the same day.

The standing of these Companies is such that all may be satisfied that in case of loss the settlement will be prompt and equitable. Farmers will find it to their interest to insure with us.

Record kept of all Policies and Notices sent before expiration of same.

THE RATHBUN COMPANY,
Deseronto, Ont.

ARE YOU DEAF?

Or do you suffer from noises in the head. Then send 2 cent stamp and I will send a valuable treatise containing full particulars for home cure which costs comparatively nothing. A splendid work on deafness and the ear. Address, PROF. G. CHASE, Montreal.

When Baby was sick, we gave her Castoria. When she became a Child, she cried for Castoria. When she became a Woman, she clung to Castoria. When she had Children, she gave them Castoria.

The Tribune.

FRIDAY, JULY 19, 1895.

DISTRICT ITEMS.

The burnt district in Tweed will be rebuilt. Smith's Fall is agitating for a public park. Arapahoe town council is erecting a band stand. Tweed is becoming an important cheese centre.

A children's aid society will be formed in Colborne. H. P. Abrams, hotel keeper, Verona, has resigned.

St. Paul's church, Caledonia, will be enlarged. Sook thieve has been operating at Actonville.

John M. Durkin, Stoo, was badly kicked by a horse.

The hay crop about Cape Vincent is miserably poor.

Alfred, of Barfield, died last Saturday, aged 84.

G. P. Cole is building one of the finest barns on Big Island.

The C. P. R. will build a handsome stone station at Actonville.

James Miller, Port Hope, died very suddenly last Friday.

Peter Davis, one of the oldest residents of Cornwall, is dead.

There are twenty members of the A. O. U. Lodge, Stirling.

A kindergarten department may be opened in the Napanee schools.

A. A. Gilmore, Renfrew, was fined \$5 for not sending his son to school.

G. W. Morden has been appointed science master in Pictou high school.

Grasshoppers are very numerous and destructive about Merriville.

Paul Kirpich, a Pole, was drowned in the River Ronchechere at Renfrew.

Thos. S. Young, an old resident of Bloomfield, died last week, aged 70.

Edward Kingwell, formerly of Kingston, was killed in the Isle of Wight.

James Kelly, of Hungerford, has leased Patrick Feeney's farm in M. de.

There are six thousand dollars of last year's taxes uncollected in Cobourg.

The summer session of the Kingston school of science opened last week.

A. J. Thompson, near Campbellford, cut three acres of fall wheat on June 26.

The Ontario convention left over forty thousand dollars at Alexandria.

Mrs. Day's residence at Harrowsmith was partially destroyed by fire last week.

U. E. Labelle and Mary LeBlanc, both of Trenton, were married on June 26.

The water in Kingston harbor is 27 inches lower than it was at this time last year.

Nelson W. Cleary and Emma M. Lister were married at Renfrew on the 10th.

A large number of pea harvesters have been sold to Prince Edward this year.

The Hamilton general will formally open its new dwelling in Athens for a paragon.

Duncan A. McLaren and Jennie Harris were married at Wolfe Island on July 1.

At Pictou Hermon Sailer fell off the merry go round and had his leg broken.

The general convention will formally open the big crematory at Renfrew on the 25th.

W. Wilson, of Actonville, and Miss Dufour, of Flint, were united in marriage recently.

The county of Northumberland and Durham imposes a rate of one mill on the dollar.

Rev. Burt, of Belleville, and Sylvia Mahoe, of Odessa, were recently married at Ottawa.

At Athens several white caps were fined heavily for taking the law into their own hands.

Mrs. Outwater, aged 80, of the 9th con. of Rawdon, died of cancer and died from the shock.

Barney King and Mary Kelley, both of Napanee, were married in Watkinson on the 5th.

Rev. J. O'Hara, of Elginburg, on his last life by taking a dose of ammonia by mistake.

Mrs. Stearns, Kingston, has this season paid \$20,000 to a resident of Pembroke for her skins.

A Chinaman who had no vote—was fined \$10 at Arapahoe for sending a letter in newspaper.

Renfrew Oddfellows are talking of purchasing the outfit and reorganizing the Lincoln band.

A CEREAL AND RICH MONSTER.

Always Conquered and Banished by Paine's Celery Compound.

The sad, weary and wailing cry of men and women around us is: "I am sick," "I suffer so much from day to day," "What can I do to regain health and strength?" The intense heat of summer aggravates the sad condition of those who suffer from dyspepsia and indigestion, and there is no physical or mental rest for the afflicted ones. Have you tried Paine's Celery Compound? That marvellous health and strength giver? It is nature's true and infallible cure for your distressing ailments. It never fails to banish disease; it gives natural and healthful strength when most required, so that the opposing and enervating weather cannot overcome your bodily powers.

Reader, if you are numbered in the large army of dyspepsia, and held captive by a cruel and destructive disease, use Paine's Celery Compound at once. If you desire full and robust health, pure blood, strong nerves, good digestion and healthy appetite, in a few days thousands have been saved by Paine's Celery Compound. It will test the same blessed cure for you. Strong testimonials come in every day from cured people. Sufferer, try it. "It makes people well."

THE FRUIT CROP.

"There need be no fear of a fruit famine," says C. C. James, deputy minister of agriculture. "Grapes, which were supposed to be the most numerous and reliable crop, will even in the districts where the frost hit the hardest, be a half a crop. And half a crop in some localities and a good crop in others will mean plenty for the needs of the people. Last year, owing to the abundance, vast quantities of grapes were not picked; this year, on account of scarcity, all will be gathered, and this will about even things up. Prices may be a little higher than in 1894, but there will be plenty for all. And what is said of grapes holds in regard to fruit generally."

REDUCED TO A SHADOW.

SAVED BY STRAWBERRY EXTRACT. GENTLEMEN.—Feeling it my duty to give you an unsolicited testimony for the direct benefit I have received in my family from the use of Dr. Fowler's Extract of Wild Strawberry, let me say that while we resided at Fenwick, Ont., my little daughter had an attack of dysentery on Monday evening, the 10th. Her bowels were reduced to a mere shadow and became quite helpless. Fortunately my family physician advised the use of Dr. Fowler's Extract of Wild Strawberry, which he had never known of anything better for this dreadful disease, and therefore we gave it an impartial trial. I am happy to say that less than a quarter of a bottle cured the flow of blood and clot to cease, and the child promptly recovered. We always have had Extract of Strawberry in the house since to be ready for any such emergency common to children in summer from the effects of fruits, etc. I would just as soon think of losing my right eye as being deprived of Dr. Fowler's Extract of Wild Strawberry. This is a testimony of thanks for the untold benefit myself and family have received from the great remedy.

MRS. E. H. GARROLD,
St. David's Ont., formerly of Hamilton, Ont.

SPEEDY RAILWAY TRAINS.

At the recent meeting of the Institution of Engineers at Cleveland, Jeremiah Head of Middleboro, England, read a paper on the comparative merits of the American and Canadian railroads, and in referring to the New York Central Mr. Head said:

"An American railway, the New York Central, holds the palm at present for the quickest and most frequent service of any long-distance railroad in the world. Between New York and Albany, 410 miles, there are twenty-two trains per day each way. The north-bound Empire State Express, one of them, runs the entire distance in 50 minutes, making 410 miles per hour between Albany and London, which is just 400 miles. The New York Central is also the only railway which has four tracks over the whole of its main line, an arrangement which enables the goods and passenger traffic to be kept entirely separate."

GIVES A NEW ZEST TO LIFE.

There is a moment of weakness. The hands fall listlessly. Energy is gone. A tired feeling prevails. The body feels as if it were giving way. You might be really ill, feel a bottle of Wilson's famous Invalid's Friend, and see the magic it will work. A tired and weak man, a nervous and feeble friend, rich, frisky, with a full body; a wine at once to glad the heart and cheer the spirit, making blood and tissue, unsurpassed as a tonic for the debilitated system, giving strength and hope. A deep red glow, a bracing spirit; the property of making men out, peevish and weak. A big racing, tonic, sold by all dealers at \$7.50 per case of 12 quart bottles, half case \$4.00 or 75c per bottle. Address: Bourdieu & Co., 30 Hospital Street, Montreal.

GRANTED A DIVORCE.

A decree of absolute divorce has been granted to Mrs. Ashley, wife of Harford Ashley. The case came up before Justice Barnard at Poughkeepsie N. Y., the other day and a local paper's report says: "Proof was taken and court granted a decree of absolute divorce to Sabra M. Ashley, sister of ex-Assemblyman John A. W. W. Ashley, of New York. Ashley, a resident of Poughkeepsie, N. Y., and Mrs. Ashley appeared for the plaintiff and Walter Farrington for the defendant, who made no defence to the charges."

RULES FOR BICYCLING.

A surgeon gives in an English magazine these excellent rules. If a bicyclist riding never risks without an hour of a meal, which means either before or after. When the machine up any hill the momentum of the wheels causes you real effort. See that the clothing round the stomach, neck and chest are loose. Have the handle bars securely raised to prevent scooping. Be as sparing as possible of taking fluids during a long ride. Raising the stomach thoroughly with the air gas, with cold water will quench the thirst as well as, if not better, than taking fluids into the stomach. Take large quantities of food, the wind, roads, etc., are favorable never ride more than ten miles an hour except for very short distances. Never smoke while riding.

PRIVATELY DISCUSSED.

MONTREAL PHYSICIANS BEGINNING EARLY TO PRESCRIBE A NEW REMEDY.

MONTREAL, July 15.—There is still a good deal of talk here among all classes over the recent despatches which appeared in so many Canadian papers, relative to the cure of Mr. G. H. Kent, of Ottawa, from Bright's disease. Although the merits of the case have not been openly discussed at any of the meetings of the medical society, there has been a good deal of private conference and the impression which the report of the recovery has made is evidenced in the fact that the good man physicians are beginning to prescribe a new remedy.

IT'S ALL NONSENSE.

For people to say there is no cure for consumption. Sufferers from that dread disease and kindred ailments are being saved every day by Miller's Emulsion of Cod Liver Oil. Do not do without getting it. It is fair. It will cure others it will cure you. The secret of its success lies in the fact that it creates new blood in the system, thus enabling the air to pass from lungs, to enable the destructive forces at work to waste the tissues of the body. Miller's Emulsion is the great cure for cough, cold, and asthma, and cure Coughs, Colds, Bronchitis, Scrophulous and all Lung ailments. In Big Bottles, 50c, and \$1, at W. G. Egar and W. J. McAlay's.

A BUGE PIE.

The largest pie ever known was that deer bed in the Newcastle Chronicle for the 10th January, 1770. It was shipped to Sir Henry Grey, Bart., London, in a fair. It was a huge pie, made up of the following: 12 turkeys, two rabbits, four wild ducks, two woodcocks, six snipe, four partridges, two ducks, two geese, two curlews, seven blackbirds, and six pigeons. It weighed twelve stone, and was nine feet in circumference at the bottom. It was furnished with a case on each side for convenience in passing it round to the guests.

The receipt of this pie is given here as a hint to those of our readers who may be thinking of getting up a picnic within the next two or three weeks. A half-dozen pieces of this size ought to be enough for at least one picnic. —From Harper's Round Table.

Hagyard's Pectoral Balm cures Coughs, Colds, Asthma, Bronchitis, Tightness of the Chest, and all Throat and Lung Troubles. Summer coughs are more dangerous than winter coughs.

FOR WORDS OF ALL KINDS.

Sir,—We have used Dr. Lewis' Warm Syrup for Worms with excellent results. I can recommend it to all others who are troubled with worms.

EMMA HIXON, Glen Oak.

A HIGH VALUATION.

"If there was only one bottle of Hagyard's Yellow Oil in Manitoba I would give one hundred dollars for it." Philip H. Brad, of Montclair, Manitoba, after having used it for a severe wound and for frozen fingers, with, as he says, "astounding good results."

If you would have an abundance of dark, glossy hair, if you would have a clean scalp, free from dandruff and irritating humors, or if your hair is falling and grey, and you would have its natural color restored, use Ayer's Hair Vigor. It is unquestionably the best dressing.

WHY NOT YOU?

When thousands of people are taking Hood's Scurvy Pills to overcome the weakness and languor which are so common at this season, why are you not doing the same? When you know that Hood's Scurvy Pills are power to cure rheumatism, dyspepsia and all diseases caused by impure blood, why do you continue to suffer? Hood's cures others, why not you?

Hood's Pills are prompt and efficient. 25c.

To improve the appetite, restore healthy action to the bowels, regulate the liver, regulate all the bodily functions. Ayer's Pills are the best. As a mild but effective aperient, no pill is in greater demand or more highly recommended by the medical profession.

HANDS AND ANKLES RAW.

For years I have been a great sufferer from itchy skin trouble and rheumatism. My hands and ankles were literally raw. The first application of Dr. Chase's Ointment allayed the burning, itching sensation. One box and a half entirely cured me. It is also instant relief for chilblains. Henry P. Farmer, St. Catharines, Ont.

KIDNEY FACTS.

In Jan. 1892, my son was taken with Kidney disease. Though attended by three physicians, and change of climate he grew worse and worse. He died on the 15th of Feb. 1892, at the age of 25 years. In 10 days from starting to use Dr. Chase's Kidney Liver Pills we were able to save him. In a short time he gained 20 lbs. and was fully restored to health by the use of the medicine. Mrs. S. Hastings, 23 St. Paul St., Montreal.

To Destroy Worms and expel them from children or adults use Dr. Low's Worm Syrup.

Norway Pine Syrup cures Coughs, Colds, Hoarseness, Sore Throat, Asthma, Bronchitis, etc.

CATARHIT RELIEVED IN 10 TO 60 MINUTES.

One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Blower, diffuses the Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Croup, and Deafness. 60 cents. At W. G. Egar's.

COTTOLINE

What is it?

It is the new shortening taking the place of lard or cooking butter, or both. Costs less, goes farther, and is easily digested by anyone.

AT ALL GROCERS.

Made only by N. K. FAIRBANK & CO., Wellington and Ann Sts., MONTREAL.

The Ironclad railway is approaching Banroft. The trade of North Hastings will be diverted to Lindsay and Toronto.

The Hubbard house and half of the business portion of Clayton were destroyed by fire last week. Loss \$80,000.

Mary Burns, aged 16, writing at the Kempsville examinations, took ill and died in three days from spinal meningitis.

Thos. Graham, Tweed, has sold his livery business to Jas. A. Armour, Campbellford, and Andrew Orr, Hastings.

A gay widower of Melville and a blushing lady of seventy summers of the same village, will be married at an early day.

Mrs. Jessie Ames, Ernestown station, while standing on a chair hanging outside, fell backward, sustaining severe injuries in her back.

Robert Goodwin, of Athol, so badly burned a few weeks ago when his barn was destroyed by fire, is gradually recovering from his injuries.

Hale & Booth, Ottawa, have disposed of their entire season cut of logs, 165,000, to a Minnesota Company who will tow them to Bay City, Mich., where they will be sold.

Father Connolly, of Campbellford, has been appointed to the parish of Hastings: Father McClosky, of Brighton, goes to Campbellford, and Father Collins, of Peterborough, to Brighton.

At Chapel Hill, near Lowville, N. Y., John Hoch shot and instantly killed Minnie Ingersoll who refused his advances and also fatally shot N. P. Strife, a farm hand. He then shot himself and may recover.

Catarh—Use Nasal Balm. Quick, positive cure. Soothing, cleansing, healing.

History of the Wedding Ring. A long time ago the wedding ring was worn on the forefinger, and was thickly studded with precious stones. People who have seen the old pictures of the Madonna in Rome will remember this in one or two of them there is a glistering ring on the forefinger of her right hand, but with Christendom the wearing of the wedding ring on the third finger rather than the first. The old story that there being a vein that runs from that finger to the heart is nonsense. Its use originated in this way. The priest first put it on the thumb, saying: "In the name of the Father" on the forefinger, adding: "In the name of the Son," on the second finger, and peaking: "In the name of the Holy Ghost," on the third finger, ending with "Amen," and there it staid.

London's Public Parks. Twelve thousand pounds down and a pound a year, that is the price at which London has acquired Lincoln's Inn Fields as a public playground. Sir John Hutton on opening the fields stated that London now possesses the seven largest parks, with about 30,000, but recent explorations have discovered a hitherto unknown bay on its southern side which so increases the known area as to make it a question whether it is not larger than Superior. Fuller explorations and more careful surveys must be made, however, before a decision is reached.

Canadian Law a Terror to Evil-Doers. Even when Canadian justice is sovered in its findings it is swift and sure. This prompt enforcement of the law is a terror to evil-doers who are apt to measure chances of escaping punishment before they challenge the penalty by committing the crime to which it is added.—Detroit Free Press.

Coughs, Colds, Sore Throat, Asthma, Bronchitis, and all Lung Troubles are quickly cured by Hagyard's Pectoral Balm.

Bridge Street, BELLEVILLE.

OILCAKE.

At present prices of mill feed, Oilcake is the best value in the market. A practical dairyman of our county, operating a creamery of his own, assures us that one ton of Oilcake is worth more as a milk producer than three tons of Bran. He knows whereof he speaks, as we have sold him several tons this season.

Bran, Shorts, and Cracked Grain always on hand. Special quotations in Our lots.

J. C. HANLEY & CO., Grocers, Feed and Seed Merchants, BELLEVILLE, ONTARIO

The Tribune.

FRIDAY, JULY 19, 1895.

LOCAL NOTICES.

A Shortland & Typewriting School has been opened in town. For information call at rooms in Mrs. Davern's residence, Corner Fourth and Thomas Sts., near Methodist Church.

Mr. E. T. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalese saved my life. I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, Liver or Kidney trouble it excels. Price 75 cts. Sold by W. G. Egar.

When you require glasses and desire properly fitted ones have our Optician test your eyes free of charge before buying glasses at all. It will pay you.

ANONCE McFEE & CO., 272 Front St. Belleville.

LOCAL ITEMS.

No woman ought to find it difficult to laugh in her sleeve these days.

Supt. Irvine advertises for a number of girls to work in the match factory.

N. B. Colcock has sold the Brockville Times to Arthur T. Wingress and W. J. Healy, of Toronto.

The English team defeated the Canadian team in the rifle competition for the Kopsore cup by a score of 638 to 618.

At Belleville on Tuesday there were boarded 2,650 boxes of wheat and 540 boxes of colored cheese at 7-3-4 to 7-7-8.

There are vast numbers of vacant houses in Toronto and times are dull there and will likely continue so for the rest of the year.

On a recent trip up the Bay of Quinte a fire was discovered near the wharves on the steamer Spartan. It was, however, extinguished without serious damage.

Isaac Powles, of the Reserve, showed green corn on the market on Tuesday, the first of the season. Mr. Powles is one of the most progressive farmers of this district.

Principal Knight left this week for Toronto where he will spend a month examining papers of candidates who wrote at the recent examinations for teachers' certificates and matriculation.

Mr. Bruehl of the High school returned home last Saturday from Toronto where he had been for some time examining drawing and book-keeping examination papers for the department of education.

Mr. J. S. Hampton and family and Miss Maggie Stoddart are camping out near Huff's dock down the bay. "Telegraph" camp is the designation of their resort. Mr. Hampton has shot fourteen squirrels up to date.

The R. & O. boats are experiencing difficulty running the rapids, the water being so low in the St. Lawrence. The Eskimans takes the passengers from Brockville down as she draws only four feet of water.

The Hero last Saturday reduced her fare from 35c to 25c from Kingston to the Thousand Islands and as a result she carried large crowds. The fares of all the vessels on the Bay of Quinte have always been too high and should come down.

The Merrit carried a Royal Tompkins excursion from Picton to Trenton yesterday. A great many from Deseronto went to the dock to accompany the party, but only twenty-five could be taken, the boat having her complement of passengers.

The yacht Orpha arrived in port from Napanee on Monday with the following crew: Messrs. Maybee, Miller, Taylor, Lockridge, Cheatham, Grange, Boyce, captained by Freeman Huffman. They left the same day for the Thousand Islands.

[A large crop of weeds and thistles on the new street west of the cricket ground should be cut down forthwith. Several citizens have called to express their approval of that letter in last week's TRIBUNE in reference to noxious weeds. The streets committee should take this in hand.

Nothing so moving as ye olden time as the engineering feat which Chicago contractors are about to undertake. They propose to move the Immanuel Baptist church 50 feet. It is a stone structure, one of the largest churches in the city, and has a spire 150 feet high. After the building has been moved it will be raised six feet.

The burnt district at Tamworth is gradually being built up. C. G. Corral is putting up a fine brick store and neat brick residence. Mr. Prizelle's house is about completed. The Sheffield council is putting up a town hall 22,000 feet. It will be of brick and rest on a stone foundation. There will be a lock-up and other conveniences. Chas. Shields is also building a brick store.

By the upsetting of a lamp from a table the residence of R. J. Phillips, Centre street, had a narrow escape from destruction by fire on Wednesday evening, between nine and ten o'clock. The lamp fell off a table and in a twinkling the flames spread. Mr. Phillips gave an alarm and neighbors rushed in and with pails of water extinguished the flames. Two rooms downstairs were badly damaged.

The I. O. O. F. grand lodge of Ontario will meet in Hamilton on Aug. 14, 15, and 16. It is expected that there will be between 400 and 500 representatives present. Incidental to the grand lodge meeting there will be a competition between teams representing the Odd Fellows of Hamilton and those of Toronto for a handsome silver cup, the work selected for competition being the offering of the initiatory degree.

Grasshoppers are destroying the crops around Montreal.

Picton junior cricketers were defeated at Kingston by a run and two wickets.

The Citizens Band came in for a great number of compliments on the occasion of the Orange demonstration in Belleville. It easily took first place.

Karl's Clover Root, the great Blood purifier gives freshness and clearness to the complexion and cures constipation. 25 cts., \$1.00. Sold by W. G. Egar.

Fred Hubbs, of the Examiner office, Peterboro, is spending some holidays in town. Fred commenced work as a printer in THE TRIBUNE office and has proved a competent workman.

Judge Fralick will hold a court in Deseronto at 130 p. m. on Monday, 29th inst. to hear appeals from the court of revision and to correct certain errors in his assessment roll.

Thomas McHenry was in town on Saturday. He is at present in Verona drilling for oil. He is an expert in the business and is confident that oil in paying quantities will yet be struck at that point.

The crisis at Ottawa is over, Messrs. Ouimet and Caron returning to their posts on receiving renewed assurances that the government would pass remedial legislation in January should the Manitoba government fail by that time to redress the grievances of the minority. Mr. Angers refused to return and his place will be filled by another French member.

The elections in England are running steadily against the Liberals and it is now thought that Lord Salisbury will have a majority of over 100. The Liberal defeat is attributed to their advocacy of local option which aroused the opposition of the powerful liquor interest. This defeat will end Lord Rosebery's career as a statesman. It was wretched policy for the Liberals to accept a peer as their leader.

The Addison fair will be held at Tamworth this on Sept. 17th and 18th. The event promises to be a great success. J. R. Fraser is president. A local society has bought a piece of land and laid out a trotting course. A large tent will be used for the show this season, but a suitable building will be erected for use in future years. The Tamworth people are deserving of credit for their enterprise in securing the show.

Shiloh's Cure is sold on a guarantee. It cures incipient consumption. It is the best cough cure. Only one cent a dose 25 cts., 50 cts., and \$1.00. Sold by W. G. Egar.

A. O. U. W.

The members of Belleville lodge of A. O. U. W. will pay a fraternal visit to their brethren of Court Quinte, No. 215, this evening. A large attendance of Court Quinte is requested. The visitors will be entertained, after the meeting, at the Oriental hotel.

West End Mission.

Next Sunday, Mr. G. E. Dyde, in charge of the mission at Deseronto, will conduct the services at the West End Mission. Mr. Clark going to Deseronto for the day. There is a briak sale of tickets for the Sunday school picnic to be held on Thursday 25th, at a point down the bay.

Scotland Yet.

Bro. A. D. Macintyre of Camp Scotland Yet, S. O. S., attended the meeting of the joint committee composed of representatives from the various camps in the Bay of Quinte district for the purpose of making arrangements for a grand gathering of the clans early in August. We understand that the gathering will take place at Massasauga Park on Friday, Aug 9th, and that prizes will be given for competition in about eighteen events.

Citizens' Band.

The Citizens' Band intend holding a lawn social on the grounds of Dr. Yeomans some time during the first or second week of August. We predict a liberal patronage. On account of the ill health of Thomas Moyer, S. Cronk has been appointed business manager of the band and J. S. Smith has been appointed financial secretary. The Thursday night concert are invariably well attended and the selections are much appreciated.

Rapid Wheeling.

On July 18th H. A. Dean, of the Bank of Montreal, wheeled from Hamilton to Deseronto, a distance of 187 miles in 21 hrs. and 37 minutes. He had to lay too for 1 hr. and 40 minutes between Hamilton and Toronto to wait for daylight the roads being very bad in that section. He also stopped 1 hr. and 50 minutes at Oshawa, and his actual wheeling time was 17 hrs. and 7 minutes. A brisk breeze prevailed nearly all the distance. He recently whizzed from Belleville to Shanawadville in 20 minutes and 18 seconds the time beating the time made on the occasion of the relay race.

A. B. Holley, of New York City, was the guest of S. R. Rathbun for several days during the past week. Mr. Holley is always a welcome visitor to Deseronto. On Monday afternoon Mr. Rathbun invited a few friends to accompany Mr. Holley and himself on a sail up the bay on the yacht Sista. The sail was greatly enjoyed. Mr. Holley's narration of fishing exploits on former visits being full of interest and bringing up recollections of ye olden times. The party landed at Massasauga Park and took tea at the hotel so pleasantly situated at that resort. Belleville was visited and a call made on H. B. Rathbun and family. Mr. Holley was very much pleased with Belleville with its shady streets and neat residences. The trip home in the teeth of a briak southeast breeze was most invigorating. Mr. Holley left on Wednesday for St. Martha's Vineyard where he will spend the summer vacation.

The heavy showers of Friday and Tuesday have proved of incalculable benefit to the growing crops.

The stmr. North King ran aground in the fog near Brighton. She was got off yesterday and the damage was slight.

Capt. John Saunders of the schooner Ella Merton was drowned near Prescott on Tuesday morning, having fallen out of a boat.

Miss Mary McNaughton, one of the staff in the general offices of the Independent Foresters, Toronto, who was present at the celebration here on the 17th of June, died the other day. She belonged to Chatham, Ont.

A nest containing eight eggs has been placed on our desk. It was found on the farm of Peter Hill, Tyendinaga reserve, and supposed to be from one bird in a species of lark. It has been placed in THE TRIBUNE museum.

Wm. Burgess, of Poughkeepsie, N. Y., is spending a few days in town. With a number of friends he has just completed a trip in the yacht Miel from Oswego up the Bay of Quinte and down the St. Lawrence, etc. The party sailed from Kingston to Clayton in two hours and five minutes. They captured great quantities of bass near Stony Island across the lake, two of them catching 55 in a few hours. Mr. Burgess will probably study law at Cornell university.

Masonic.

Bro. Robt. Geddis is in Toronto this week representing Craig Lodge, No. 401, at the meeting of the Grand Masonic Lodge of Canada.

Quick Work.

In only ten hours the Tripp Bros. with two mowers cut a field containing twenty-two acres of hay belonging to William McCullough, second concession of Tyendinaga.

Casualties.

A three year old son of Rev. E. N. Baker, Belleville, while at Divinity Camp, swallowed a fish bone which stuck in the tonsils of the throat. Dr. Yeomans was summoned and removed it. Michael Nealon had his foot badly crushed by a horse stepping on it. Dr. Vandervoort attended him. One day last week Mrs. Edward Sharp's baby fell from a baby carriage, cutting its head severely. Dr. Vandervoort dressed the wounds.

Salvation Army.

Capt. Churchill and Lieut. Bathgate will farewell on Sunday, 28th inst. and probably leave on the Thursday following. They have been capable and most self-denying officers. An ice cream social, the proceeds of which are for their benefit, will be held on Monday evening, 29th inst. Admission 10 cents. Every person should buy a ticket and thus show appreciation of their good work in the town.

Off For England.

Miss Oronhyatchka left on Wednesday for Toronto where she joined Dr. Oronhyatchka and party who left that city yesterday for Philadelphia on their way to the Supreme court of Foresters in London, England. They sail on the splendid steamer Kensington, to-morrow. In England Miss Oronhyatchka will be the guest of her brother Dr. Acland Oronhyatchka at his country villa some distance from London. She will visit the continent and will probably return in September.

The Napanee Road.

THE TRIBUNE'S attention has frequently been called to the condition of the road between Deseronto and Napanee. To the traveller it always appears more like a country lane than an important highway between two large towns. The township and county councils have allowed a steady encroachment upon the road, fences being continually constructed in a manner which cannot but cause the highway to be filled up in winter. The authorities should have long since passed a bylaw making wrong fences compulsory along the whole road. Now when the good roads movement is in full swing is a good time to make a new departure by a gradual widening and repair of this important thoroughfare.

Entrance Examinations.

At the recent entrance examinations to high schools 29 who wrote at Deseronto were successful. Of these 24 were from the Deseronto school, 25 of whose scholars wrote. No figures are given this year, but we learn that Wilfred Tucker, of Deseronto, aged twelve, had the largest number of marks. The following are the names of the successful candidates:—Casie Archer, Oliver Allison, Nellie Baker, Lulu Booth, Maggie Cronk, Norma Dunwoodie, Jennie Gunn, Hattie Harrison, Maud Parnham, David Smith, Florence Taylor, Rowland Dunwoodie, James Port, Jack Hynes, George Rogers, Herbert Hetch, Harry Eaton, Aubrey Lowe, Harry Morden, Frank Maloney, Thomas Port, Edgar Provin, John Ryan, Martin Stanton, Ernest Stanton, Willis Scott, George Tucker, Wilfred Tucker, Willie Wright.

EXCURSION TO ST. ANNE'S.

Arrangements are now completed for the grand excursion to St. Anne de Beaupre on Tuesday, 30th inst. This excursion is under the direction of Rev. Father Stanton, of Smith's Falls. His Grace Archbishop Cleary will accompany the pilgrims to the famous shrine. This cheap excursion will afford all parties an admirable opportunity to see the sights of Quebec, Montreal, etc. It will be run over the C. P. R. The company is noted for running its trains on time, with few stops, and no annoying delays. All night trains are kept out of the way and no train is permitted to follow a passenger train from stations until it has passed the next station ahead. This ensures absolute safety. Fare from Deseronto \$5-75.

PERSONALS.

Prof. Massey, of Albert College, has been very ill from typhoid fever at his home in Sidney.

Mrs. J. J. Kerr and family are spending a few weeks at Wauspore, South Bay.

Mr. E. Staples, M. A., of Kingston, was in town on Wednesday.

Mrs. D. Elliott and Master Fred Elliott are visiting friends in Trenton.

Miss Alizia Daley, of Syracuse, is spending a few days with Mrs. Robert Adams.

Mr. G. Springstead, of Rochester, N. Y., gave us a call yesterday. He is visiting friends in Prince Edward.

Mrs. Marguerite Adams is spending a few weeks with her uncle at Marlbank.

Chief Gunyon arrested J. F. Nickett, a young man who disappeared from Belleville with a horse and rig. He was fined by the Belleville magistrate.

Baseball.

Deseronto defeated Bath at baseball last Friday by 18 to 14, the game being called at the end of the 5th inning. The Bath visitors were a very gentlemanly lot of men. The Deseronto team were: M. Flood, pitcher, John Gaulin c., J. Jamieson, left b., J. Pringle 2nd b., H. Thompson 3rd b., E. Gaulin s. s., W. Coughlin c. f., J. Bernier r. f., G. Rabitaille l. f. Our boys acquitted themselves well.

The Marysville Picnic.

The preparations for Father Quinn's picnic, which will be held at Marysville on August 21st, are well advanced. Everything indicates a big success. The valuable prizes offered have stirred up great enthusiasm and excitement. Miss Lizzie Brennan and Miss Nellie Drumme were in town this week canvassing for the watch prize, and met with great success.

Windsor Hotel Kingston, A. J. Fralick proprietor, centrally located on Princess Street. When leaving boats or cars take electric cars to the door. Good sample rooms and stables, large airy dining and bed rooms. First class in every respect. Charges moderate.

BIRTHS.

BRANT—At Tyndiniana Revere, on June 29th, the wife of Jacob B. Brant, of a daughter.

TOMPKINS—At Deseronto, on the 9th inst., the wife of Wesley Tompkins, of a son.
WOODCOCK—At Barfelo, on the 10th inst., the wife of Sidney Woodcock, of a daughter.

KIMMERLEY—At Deseronto on the 17th inst., the wife of Cassin Kimmerley, of a son.

DEATHS.

REINER—At London, on July 14th, 1895, H. B. Reiner, M. D., aged 53 years.

PAKES—At Deseronto, on the 12th inst., Mary M. Parker, aged 24 years and 11 months.

BEINER—At Deseronto, on the 16th inst., Priest Beiner, aged 79 years.

DEATH OF DR. REINER.

Dr. Horace P. Reiner died at his residence, London, Sunday 14th inst., from cancer of the stomach. The news of his death was heard with great regret in all parts of the district as he was justly held in high esteem by all classes. He was the son of the late John Reiner, who at one time ran the ferry between Belleville and Rossmore. His wife died several years ago and he is survived by one daughter who has the sympathy of all in this trying affliction. The funeral took place on Tuesday and was attended by a large number of sympathizing friends.

The services were held at the Methodist church by Rev. H. C. Garbutt, assisted by Rev. D. McArthur. The remains were subsequently removed to the Belleville cemetery for interment.

ST. MARK'S CHURCH NOTES.

The venerable Missionary of the Reserve, Rev. G. A. Anderson, assisted in the service on Sunday evening.

The annual Sunday school picnic will be held on Wednesday, July 31st. The excursion will go to Dr. Young's wharf, between Island and Adolphustown. All are welcome.

Next Thursday will be the Festival of St. James, the brother of St. John, and the first Apostle who suffered Martyrdom.

The Brotherhood of St. Andrew has been reorganized, and has commenced a campaign of active work, with R. W. Lloyd as Director, and H. Briscoe as Secretary.

The furnace which has for some time defied the appearance of the schoolhouse, and has been the cause of much trouble, has been removed to a less conspicuous position in the rear. The benefit of the change was realized at the entertainment last week.

FINEST LONG CLEAR BACON.
FINEST SLOW WHITE LARD.
Sweetest Mild Cured Hams. Unequalled Breakfast Bacon Rolls.
ROBT. A. MCGINNIS.
Pork Packer, Belleville.

Deseronto, June 29th, 1895.

Hard Times.

Owing to the failure of crops in this section of country, our sales have been so restricted that we find ourselves with a large stock of Top Buggies, Demos, Road Carts, Lumber Wagons, Harness, Whips, Bells, Binders, Mowers, Rakes, Wilkinson Plows, etc. We have decided the only way to clear out this stock is to reduce the prices to such an extent that the public will be forced to buy. For instance, a buggy that is usually sold for \$85 to \$90, we propose to offer for \$65 to \$70. A mow, for \$35, we will sell for \$25. A plow, for \$15, we will sell for \$10. A rake, for \$12, for \$8. And everything else proportionately reduced in price. We have a lot of Road Scrapers, and have our all steel Lumber Wagon, guaranteed to carry ten tons. Its the strongest and lightest running wagon in the world. We have a lot of Road Scrapers, and have our all steel Lumber Wagon, guaranteed to carry ten tons. Its the strongest and lightest running wagon in the world. We have a lot of Road Scrapers, and have our all steel Lumber Wagon, guaranteed to carry ten tons. Its the strongest and lightest running wagon in the world.

THE AMERICA'S CUP.

WHY BRITISH YACHTSMEN ARE SO ANXIOUS TO WIN IT.

They Have Already Made Seven Unsuccessful Attempts to Recover It—A Yankee Writer's Reasons Why the Prize Should Remain in the United States.

The sporting event par excellence of the year, the one of most importance to Americans, is the contest for the America's cup, which will take place on the 10th of September of the New York Yacht Club between the 7th and 14th of next September. The visible prize of this contest is a cup offered by the Queen of England in 1851 for competition among the yachts of all nations. It was valued then at 100 sovereigns. Plate of this character is frequently overvalued. I have no doubt, observes a writer in the Philadelphia Press, that many American silverware would be glad to duplicate this "cup" for \$250.

Since the cup was won by the yacht America, in the regatta from Cowes, around the Isle of Wight, August 2, 1851, the English have made seven unsuccessful attempts to recover it, and the expense attendant upon these futile efforts has been over \$100,000. The eighth attempt will be made at the cost to Lord Dunsraven and the other members of his English syndicate of not less than \$150,000. In the attempt to win the cup some 16 races have been sailed, in all kinds of weather, and of these only one was won by the English representative. That one was taken by the Londoner, in her race against the Columbia, October 19, 1871. The Columbia was disabled. The day before she had beaten her competitor nearly 11 minutes. In the succeeding races of the series the Sappho took the Columbia's place and beat the Livonia with ease.

It is needless to state that the English would not have spent a tithe of the money it had cost them to try to regain the cup merely because of its intrinsic or sentimental value. They are too practical for that. They know that the cup is the visible emblem of naval superiority, and that while it remains in our possession the claim that England is the greatest shipbuilding nation in the world is refuted by the fact that we won the cup from a fleet of the best products of England's most capable naval designers and constructors, and for

the following is a list of the successful competitors in the able sportsmen's race under 7 years of age—George Warner 1st, Percy Bogart 2nd.

Boys' race under 7—George's Stafford 1st, Ruby Taylor 2nd.

Boys' race between 7 and 9—Roy Anderson 1st, Clinton Black 2nd and Luther Wager 3rd.

Girls' race between 7 and 9—Jessie Clancy 1st, Minto Stratton 2nd.

Boys' race between 9 and 11—Leo Snider 1st, Roy Chown 2nd.

Girls' race between 9 and 11—May Van dervoort 1st, Stella Wager 2nd.

Boys' race between 11 and 13—Fred Parnham 1st, Thos. Howard 2nd.

Girls' race between 11 and 13—Annie Hull 1st, Clara Varty 2nd.

Boys' race between 13 and 15—Laura Gunyon 1st, Laura Stuart 2nd.

Boys' race between 15 and 17—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 17 and 19—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 19 and 21—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 21 and 23—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 23 and 25—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 25 and 27—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 27 and 29—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 29 and 31—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 31 and 33—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 33 and 35—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 35 and 37—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 37 and 39—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 39 and 41—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 41 and 43—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 43 and 45—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 45 and 47—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 47 and 49—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 49 and 51—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 51 and 53—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 53 and 55—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 55 and 57—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 57 and 59—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 59 and 61—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 61 and 63—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 63 and 65—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 65 and 67—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 67 and 69—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 69 and 71—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 71 and 73—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 73 and 75—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 75 and 77—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 77 and 79—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 79 and 81—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 81 and 83—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 83 and 85—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 85 and 87—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 87 and 89—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 89 and 91—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 91 and 93—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 93 and 95—John Holmes 1st, Chas. Baker 2nd.

Boys' race between 95 and 97—John Holmes 1st, Chas. Baker 2nd.

METHODIST S. S. PICNIC.

The annual picnic of the Sunday School of the Methodist church took place on Wednesday, 17th inst. The picnic was well attended and a large number of the young men and women of the church were present. The picnic was held at the residence of Rev. J. J. Rice and other residents of the village. The picnic was a great success and the church was well represented.

DISTRICT ITEMS.

The Free Methodist have opened fire at Oshawa. There will be trotting races at Picton on August 6.

A sturgeon weighing 125 lbs. was caught near Kingston. William Shugrue, Howe Island, died on the 15th aged 59. Hugh Cameron was killed by lightning at Picton on the 17th.

The Twenty-Ninth celebration at Belleville was a great success. Mrs. James Blair, aged 80, and Chas. McNeil, aged 69, died at Brockville on the 14th. J. F. Wills, barrister, and Edith M. Yarwood, both of Belleville, were married on Tuesday.

Large shipments of pigs are being made from Harrowfield, and other stations along the Bay of Quinte railway. Leavitt Heagle, a young man of the 7th con. of Rawdon, went down a well lately, and was killed. His death was caused by the gas before he got out.

A frame house occupied by John Bowen, on the Kingston road, near Belleville, was destroyed by fire last Saturday evening. Mrs. Bowen and children barely escaped with their lives. Insured for \$500.

CIRCULAR TO OFFICERS AND DIRECTORS OF AGRICULTURAL SOCIETIES. C. C. James, deputy minister of agriculture for the Province of Ontario, has issued the following circular to officers and

THE CLOTHES MOTH.

THERE ARE THREE SPECIES OF THIS HOUSEHOLD PEST.

Directions for Protecting Clothing, Upholstered Furniture and Other Large Articles from the Depredations of These Destructive Insects.

One would suppose that an insect so long a household pest as the clothes moth would be well known to all. But it does not seem to be so, at least in the adult or perfect state. It is not unusual to see careful housewives chasing every

BOMBYX CLOTHES MOTH.

moth that chanced to fly about the evening lamp, regarding it as a pest. But it is not uncommon to find the delicate little moths about woollen that have been long infested, and very little thought is given to any one that the very much larger moths which flit about the lights cannot be the same. Moreover, every housekeeper knows that clothes moth are dark to light, and a little thought would arouse suspicion that insects with this preference would not be likely to be attracted by lights. As a matter of fact, they are not, but if they chance to be flying about they choose the darkest parts of the room.

There are three species of clothes moths. The most common is the species the larvae of which has the habit of making for its protection a case "tube" from the woolen on which it feeds. This moth is well shown in an illustration in a bulletin from the Vermont experiment station on household pests, in which are illustrated the full grown moth, larvae in its case and larvae without its case, all being much enlarged. The general color of the moth is light brown or the front wings and silver gray on the hind wings.

The second species is less common, and the larvae also make a case, but a cocoon. The moth is of about the same size as the preceding, and the expanded wings are half an inch across. The general color of the moth is light yellow, and there are no dark spots. The larvae is a small, white worm with a brown head. It is the most common species in the south.

The third species is so rare that it is of little consequence economically. The larvae makes no case, but burrows in whatever it feeds upon, thus making channels.

The remedies advised by Entomologist Perkins of the Vermont station for clothes moths are as follows: If detected, they can be inclosed in perfectly tight paper bags before the moths begin to fly and lay their eggs; they will be perfectly protected. Out of doors the moths do not appear at the north before the latter part of May and during the month of June the campaign must be vigorously prosecuted. Articles found infested or if suspected may be sprayed with benzine, and this will destroy even the eggs. If infested in drawers, closets, etc., are thoroughly treated with benzine at the proper time, there will be little trouble during the remainder of the season.

After spraying with benzine and airing articles may be safely wrapped in paper, or, if possible, put in bags. A few cents' worth of paper bags is worth far more than costly cedar chests or closets. Furniture, carriages or other large articles

Another species of clothes moth.

In constant use are not very likely to be attacked. If stored, they can be covered with paper if this can be done so completely as to leave no opening for the ingress of moths. If this cannot be done, then a spraying with benzine or bisulphide of carbon early in June and again in a month or six weeks should prevent damage. When more convenient, cotton cloth may be substituted for paper in covering carriages or other objects.

Kitchen Moths.

Green vegetables and salads of all kinds are, according to a well-known physician, the best complexion beautifiers. A daintily made salad is a welcome addition to luncheon or dinner table, as all experienced hostesses will admit. Tomatoes, sliced and served with a dressing of salt, pepper, sugar and vinegar, make a delicious salad. An excellent lettuce salad is made thus: Rub the yolks of two hard-boiled eggs to a powder, add one teaspoonful of sugar and pepper, one-half teaspoonful of each of salt and mustard, and two teaspoonfuls of salad oil. Let it stand five minutes, and then beat in two tablespoonfuls of vinegar. Cut up two or three heads of white lettuce with a knife and fork and pour the dressing over it.

Russian salad is made by mixing cold vegetables, as carrots, peas, string beans, potatoes, corn, beans, etc., cut in small pieces and serve with a dressing of salt, pepper, vinegar and oil and serve and eat them as any other salad.

To make a delicious salmon dressing: Mix one tablespoonful of each of salt and pepper and one teaspoonful of grated onion; then add three tablespoonfuls of vinegar and one tablespoonful of oil.

Vermin in the Canary's Cage.

When the wooden cage of the canary is washed with water and soap; then it should be coated with varnish and the crevices treated with a solution of bichloride of mercury. At the first appearance of a fine white deposit, varnish the spot immediately, and the larvae of the "sp" pests will be destroyed.

HOW TO COOK POTATOES.

Undoubtedly there is an art in boiling potatoes.

However good a potato may be, it is easy to spoil it in cooking. From being one of the most useful and nutritious of vegetables, it may be made both disagreeable and even disgusting, all through being badly cooked. To cook potatoes properly, you must not have a blunt knife, but rather a small, sharp-pointed instrument—a knife that has been worn down from its original size and shape, can deal with deep-set eyes and awkward protruberances. New potatoes should be boiled in their jackets, but if they are old, they should be peeled and then cut up.

Undoubtedly there is an art in boiling potatoes well. To cook them properly, let your potatoes be cut to almost equal size; let them lie in cold water for half an hour or more after paring; put them in boiling water, just enough to cover them, adding a little salt, and let them boil, not too fast, until they are nearly ready to break. A small iron skewer, better than a fork to try them with, as there is not the danger of breaking the potato. Pour off the water quickly, set the sauceman with the potatoes on the stove for a minute with the lid off, give them a shake, and place them in a vegetable dish (which has been warmed), and cover them. They should be eaten at once or they will soon pass the condition of prima.

There are many possibilities in a dish of cold, boiled potatoes; they can be fried, used in the making of bread and cake, put into a pie, puding with a little cream, hash, soup, and many other ways. A favorite dish for breakfast in Devonshire, among the poorer classes, is prepared as follows: The potatoes are to be chopped up fine, and stirred about with a broken potato knife until well heated, then let them stand on or beside the fire to brown at the bottom; then place a plate or dish the size and shape of the frying pan, and lay on the potatoes as they are, and the result will be highly satisfactory; and when potatoes are grown by the cottages, it makes a "cheap" as well as substantial breakfast, especially if the poor boy, as they say, "raised on the same."

Potatoes to be mashed should be well boiled and dried, then utterly broken into flour with a wire potato masher, when a little salt, and milk or cream and butter should be added, according to taste and opinion. The milk should never be overdone, and as to butter, that can be added at table if deficient, and so also the cooking of potatoes, it is a very simple and satisfyingly hopeful job.

Our illustration represents a turn-of-straw toque, trimmed with changeable taffeta ribbon,—heliotrope and rose-color,—sprays of lilacs, and coquelisks.

Wings and whole birds are worn by those who do not belong to the society with the long name. White ones are the favorites, but a green one in the place where the bird ought to be, sewing this artificial monotony upon the front of a round hat. Two pairs of wings are sometimes used in this way perhaps to preserve the balance.

Gauze is used in one way or another upon nearly every hat that is worn. If not in the form of rosettes it is in an accordion pleated and is made into funnel-like fans that stand up in place of ribbon loops. The same accordion pleating is used for the brims of the crown. They are joined by means of transverse wires that radiate spoke-like from the smaller circle. The crown may be made of wire and covered with black velvet, but in place of the silk one of two-inch width. It is a very convenient device by which to refurbish an old hat.

Helpful Hints.

Tight lacing is very likely to induce redness of the nose and hands.

Sold air can no more purify impure blood than dirty water can cleanse soiled clothes.

The juice of a good lemon in a cup of soft water is a beneficial lotion for the tanned face.

A teaspoonful of salt or a piece of charcoal in the water will preserve cut flowers for a long time.

Before using new iron utensils grease them inside, fill with cold water and heat the water gradually to the boiling point.

The best use to make of a pipe is to fill the bowl with rich earth and plant in it a bit of wandering Jew. Suspend it from a bracket by means of a cord.

A coarse square of heavy drilling should be hummed and kept with the vegetable brushes for holding boots and other vegetables that must be skinned white hot.

Gloves must be pulled in shape as soon as they are taken off, and not put away until they are dry. They should always be removed from the hand by turning them wrong side out from the wrist up.

In buying a carpet avoid the cheap Brussels and cotton Ingrains—they are the dearest carpets that can be bought, for they will not wear nor look well after the first few months. A good, all-wool Ingrain will last for years, keep its color and look bright and clean so long as a shoe-brush is used.

Electrical Curling Tongue.

The crimping pin and the curling tongs have been the subject of the inventor's thought, and in the first-class curling tongs the curling is done by electricity. They go with the room and are wire attached. The other new crimping is an alcohol lamp inside of the tongs. The fire is poured in and lighted, and a spring catch secures it. The flame heats the iron just enough to do the work and never hot enough to burn the hair.

How to Bake Eggs.

Set in the oven until quite hot a common white dish that is large enough to hold the eggs. The dish is to be covered, allowing ample space for each. Melt in the dish a small piece of butter, break the eggs carefully in a saucer, sprinkle with a little salt and pepper, slip them one by one into the dish, add a tablespoonful of cream for every 2 eggs as they are slipped into the dish and bake for four or five minutes in a very quick oven.

GORGEOUS HATS.

NO COMBINATION OF FLOWERS TOO BRILLIANT TO ASTONISH.

Some of the Latest Developments in the Artificial Flower Garden—Wings and Whole Birds Are Worn—Gauze Is Used on Nearly Every Hat That is Worn.

The things most gorgeous now are hats. A hat of only one thing is an object of contempt among its part-colored fellows, and should a girl come out with peonies and anemones in her hat, she would probably not cause much of a sensation. For that matter, if the immense red flowers worn in summer hats are not peonies, it would take a connoisseur in floral nomenclature to name them. For a lack of a better name they are called roses, but no rose that grows on bush or tree ever grows to any such dimensions as those that now flourish among the millinery flora.

Here are some of the latest developments in the artificial garden: Lilacs of a deep, velvety purple; ivy leaves of tropical magnitude; yellow lilies of the valley; roses that are as large as cabbage. These are the abnormalities, but there are many legitimate posies which come in the proper size and color, and imitate nature to perfection.

A black mill hat is covered with snow-balls and dark red roses. A white round hat has exquisite white daisies, only by some freak of the flower maker they are made the size and shape of red ones.

A round hat that is not exactly sailor is the correct thing for ordinary wear just now. The crown is rather shallow, and the brim is not wide, but the larger the flowers are the better. A round, white chip, with four peony roses, is considered fairly well trimmed, but if it is gauded with a hollyhock rosette of white silk gauze, with some white wings projecting from it on each side, then it is beyond criticism. Mull rosettes cannot be made too large. They look like the double hollyhocks that grow in old-fashioned flower gardens, but they are much larger.

Our illustration represents a turn-of-straw toque, trimmed with changeable taffeta ribbon,—heliotrope and rose-color,—sprays of lilacs, and coquelisks.

Wings and whole birds are worn by those who do not belong to the society with the long name. Two pairs of wings are sometimes used in this way perhaps to preserve the balance.

Gauze is used in one way or another upon nearly every hat that is worn. If not in the form of rosettes it is in an accordion pleated and is made into funnel-like fans that stand up in place of ribbon loops. The same accordion pleating is used for the brims of the crown. They are joined by means of transverse wires that radiate spoke-like from the smaller circle. The crown may be made of wire and covered with black velvet, but in place of the silk one of two-inch width. It is a very convenient device by which to refurbish an old hat.

Feeding Cric to Poultry.

Get a box about one foot square and eight or ten inches deep, remove the top, and place it inside at an angle from one corner of the bottom of the box, leaving about three quarters of an inch space from the bottom and one side, and the other side of the board about two inches from the other side to allow space to fill; or it may be filled tight, and the side of the box removed and hinged so as to open and fill. Place a strip of wood across the bottom, about two inches from the three-quarter inch space at the bottom of the box, to keep the grit in place. Bore two small holes in the bottom of the box near where the board is hinged, and hang on nails so as to raise the box a few inches from the ground, to prevent the chickens from scratching dirt in. Put in the grit, oyster shells, charcoal, and the fowls will have it fresh and clean, as it will drop down as they eat it. There will be no waste as when fed on the ground or in open boxes. The same arrangement may be used for feed when it is desirable to keep feed before the poultry all the time. The device is shown in the cut.—Rural New Yorker

PECULIAR in combination, proportion and preparation of ingredients, Hood's Sarsaparilla possesses great curative value. You should TRY IT.

Fashion News in Hints.

Milliners' folds of silk or velvet are short again for dress trimmings.

This season's dress skirt is much shorter than was last season's.

Silk petticoats have assumed an elegance quite in keeping with the other luxuries and are made of rich brocades, gauze silks and fancy tulle of all sorts and kinds.

The linen dresses are very chic, and their bright silk linings and lace trimmings.

Collars and collarettes are a special feature of the new waists.

The waists of white tulle evening gowns for young girls are made like the old-fashioned ball waists, with full puffed elbow sleeves.

French mink, mull, swiss, organdie and dimity are the materials for white dresses supposed to come to the laundry. Brooches are again popular in Paris.

Two new materials called capeline and celastine, which is a variety of crepe with a more wiry texture, are recommended.

The Cleopatra Belt.

The "Cleopatra" belt is an imported novelty. It has come just at the right moment as the season of shirtwaist and wash blouses is upon us. This belt is made with a mechanical head fastening, and can be adjusted to any size of waist. It is made of snake skin, crocodile or Brazilian lizard. A handsome one is in a vivid tone of green lizard, mounted in silver. The tail may be allowed to hang from the belt, or be tucked through the mouth, and so disappear. We doubt if the idea will only be with the varieties of Egypt's royal train, for the thought of being constricted with even the presentation of a serpent is enough to give one the "creeps."

TAMWORTH SWINE.

A Short Description of the Modern English Bacon Breed.

The breed is apparently unknown in this country. It is in every respect so totally unlike the kind of hog which it is the ambition of the swine breeder to produce that many will be surprised to learn that the accompanying cut is an excellent illustration of the type most popular among the English, being considered a very fine specimen of the breed.

The explanation of their popularity lies in their thin, long bodies, which supply the place of the fat of the standard breed, the inevitable dill at every English breakfast table. Indeed, in the production of this article they are without a rival, which they greatly resemble in many ways.

In color the Tamworths are generally

PRIZE TAMWORTH SWINE.

a sandy red, though some are a dark gray with black spots. They are hardy and prolific and have been improved so that they are now an early-maturing breed. The long, deep sides, light shoulder and jaw make them an ideal bacon hog. The flesh is lean, pink and well-flavored.—N. Y. World.

Protect Sheep Against Urch in the Head.

Many American shepherds advise smearing the salt trough with tar, but this is seldom thought enough. A practice to be recommended is the use of a mixture too large, to smear the nose of the sheep periodically, at least once a week, during the season of greatest activity of the fly, with a mixture of equal parts of tar and grease, or of tar and fish oil, or of tar and whale oil. Some have used whale oil alone with good results. A brush will be found convenient to apply these mixtures. A reliable authority speaks in flattering terms of the use of an ointment made as follows: Beeswax, one pound; linseed oil, one pint; carbolic acid, four ounces. Melt the wax and oil together, adding two ounces of resin to give body.

They, as it is cooking, stir in the carbolic acid. The same authority mentions the use, by some breeders of choice stock, of a canvas case cover smeared with this mixture, with one of sawdust and alcohol, which may be adjusted in such a fashion as not to interfere with the sight or with grazing, and yet protect the lamb against the fly that lays the eggs from which the grub hatches. Some farmers plow a few furrows in the pasture so the sheep may put their noses in the fresh earth and thus keep the fly away.—American Agriculturist.

Feeding Cric to Poultry.

Get a box about one foot square and eight or ten inches deep, remove the top, and place it inside at an angle from one corner of the bottom of the box, leaving about three quarters of an inch space from the bottom and one side, and the other side of the board about two inches from the other side to allow space to fill; or it may be filled tight, and the side of the box removed and hinged so as to open and fill. Place a strip of wood across the bottom, about two inches from the three-quarter inch space at the bottom of the box, to keep the grit in place. Bore two small holes in the bottom of the box near where the board is hinged, and hang on nails so as to raise the box a few inches from the ground, to prevent the chickens from scratching dirt in. Put in the grit, oyster shells, charcoal, and the fowls will have it fresh and clean, as it will drop down as they eat it. There will be no waste as when fed on the ground or in open boxes. The same arrangement may be used for feed when it is desirable to keep feed before the poultry all the time. The device is shown in the cut.—Rural New Yorker

Plenty, Yet Starving.

The thin, emaciated persons we see every day are actually starving for nourishment. You may eat until you are stuffed, but unless your food is assimilated it does you no good. The kind of food that makes tissue and enriches the blood is found in Cod-liver Oil, and the easiest, most palatable form of Cod-liver Oil is

Scott's Emulsion

But Scott's Emulsion is more than this. It contains Hypophosphites of Lime and Soda, a nerve tonic and constructive agent. The nutrients in Scott's Emulsion, therefore, are just what is needed to build up the system and overcome wasting tendencies. Children gain flesh and strength on Scott's Emulsion when no other form of food nourishes them. They almost all like it.

Don't be persuaded to accept a substitute!

"The Triumph of Love"

IS HAPPY FAITHFUL MARRIAGE.

EVERY MAN WHO WOULD KNOW THE GRAND TRUTHS OF THE PLAIN FACTS; THE NEW DISCOVERIES OF MEDICAL SCIENCE AS APPLIED TO MARRIED LIFE; WHO WOULD ANNOY FOR EAST FEVERS AND AVOID FUTURE PITFALLS, SHOULD SECURE THE WONDERFUL LITTLE BOOK CALLED "COM- PLETE MARRIAGE" TO ATTAIN IT.

Here is at last information from a high medical source that most work wonders with this generation of men.

The book fully describes a method by which to attain full vigor and manly power, a method by which to end all constitutional drags on the system.

To cure nervousness, lack of self-control, dependency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excess, overwork, worry, etc.

To give full strength, development and tone to every portion of the organs of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is purely medical and scientific, written by a physician, suitable to men only who desire it.

A departing man, who applied to us soon after wrote:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug every body and tell them my life had had yesterday and my new self was born to day. Why didn't you tell me when I first wrote that I would find it this way."

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ENIGMA MEDICAL COMPANY, Buffalo, N. Y., and ask for the little book called "COMPLETE MARRIAGE." Refer to this paper and the company will send you the book, in sealed envelope, without any mark, and entirely free, until it is well introduced.

NEWS OF THE DAY.

Thieves ransacked Burlington postoffice. The Merchants' Bank has imported \$100,000 in gold from New York.

The War Department of the United States has decided to abandon Fort Pembina.

J. J. Lemke of Walkerton was arrested on a charge of setting fire to his boot and shoe store.

The Georgian Bay foundry and machine shop at Collingwood were destroyed by fire on Sunday.

Mr. Albert Berryman, a Grand Trunk railway operator at the Stuart street station Hamilton, is missing.

Capt. John Saunders of Kingston was drowned while crossing a rowboat from Ogdensburg to Prescott.

Rev. Dr. Wild has taken leave of the First Congregational Church, London, which is without a minister.

There was great excitement in Montreal when it became generally known that the Banque du Peuple had suspended payment.

There has been serious bread rioting in the city of Zimonia, Spain. Several guards were injured, and one spectator was killed.

The New South Wales Parliament is considering a bill to restrict not only the entrance of Chinese, as at present, but Japanese and Kanakas as well.

A Kankakee man tried to drown a cat by wading out into the river and putting it under the water. The cat came back, but the man took cramps and was drowned.

News has been received in Auckland from Samoa, to the effect that the natives are again in an unsettled state, preparing a big revolt to decide on peace or war.

A force of seven thousand Japanese troops has left Tsushima to attack the blackflag at Tai-Wan-Fo, Island of Formosa. Anvils are expected to take place on Sunday.

Four nuns who have taken possession of the Methodist church in East San Jose, Cal., and it is estimated that there are at least 300 pounds of honey between the outer and inner walls.

Mr. McCarthy succeeded in introducing his amendment on the Manitoba schools question in the House last Wednesday. He was opposed by Sir Siribert Tupper, and the debate closed with a lively clashing of words between the two speakers.

It is said that the Oceanic Steamship Company, of Sydney, N. S. W., will seek colonial aid for the construction of new and fast steamers to run on its line to San Francisco. There is talk of guaranteeing a mail service of twenty-eight days from Auckland to London.

CHURCH OF THE REDEEMER.

Rev. J. F. McFarland preached very acceptably at both services next Sunday.

Rev. G. McArthur will occupy the pulpit both morning and evening next Sunday.

Miss Gray led a very interesting meeting of the Y. F. S. C. Endeavor last Sunday evening.

A meeting of the congregation has been summoned to be held at 7.30 o'clock next Monday evening for the purpose of moderating in the minister. It is hoped there will be a full attendance of members and adherents.

THE PITEZEL MYSTERY.

Toronto, July 16.—Last week was published a lengthy article detailing the arrival here of Frank Geyer, a detective connected with the Philadelphia police force, in search of a clue as to the whereabouts of two children named Edna and Nellie Pitezel, aged 12, and Nellie Pitezel, aged 11, the daughters of Benjamin Pitezel of Philadelphia. Detective Geyer, who had just arrived from Detroit was anxious that the two children, who had been brutally murdered and their bodies concealed in this city by a man named H. H. Holmes, who awaiting trial in Philadelphia on the self-confessed crime of defrauding the Fidelity Mutual Insurance Company of the Quaker City out of \$10,000, by substituting the body of a medical college "subject" for that of Benjamin F. Pitezel, the father of the two children, who were believed to have been dead to death in Toronto. The papers published the pictures of the two children and full details of the multifarious crimes alleged to have been committed by Holmes, who for ten years past had been well known by swindling insurance companies.

As the result of the publication of these facts in the press, the bodies of the two children were found in a room in the cellar of a house at 16 St. Vincent street, rented by Holmes in October last. The discovery of the bodies confirms the belief entertained by the Philadelphia authorities, that Holmes not only murdered the two children, but also cremated in a house in Detroit the body of their brother, Edward Pitezel, aged 9, and also killed Benjamin F. Pitezel, the father of the three children, and Annie and Minnie Williams, two women with whom he lived in Chicago. Mr. T. W. Ryves, who resides at No. 18 St. Vincent street, and is the father of the two young girls and of Holmes in the World, and, as a result on Saturday morning communicated with the detective department.

He stated that he had seen the two children, answering the description of Holmes and of the Pitezel children, residing for a week last October at No. 18 St. Vincent street, the house immediately adjoining his premises.

Acting upon the information communicated by Mr. Ryves, Detectives Geyer and Cuddy yesterday morning paid a visit to the house, which is at present occupied by Mr. J. Amburst, and is owned by Mrs. Nudel, wife of Mr. Frank M. Nudel, senior clerk of the education department. The house is a quaint little two-story cottage, of an old and simple style of architecture.

Under the kitchen is an excavation which serves as a cellar, about ten feet square and not more than five feet in depth. A set of steps, almost perpendicular, lead to it from an old-fashioned trap-door in the middle of the kitchen floor.

The detectives did not expect to find anything. They had already dug up two or three barrels in floor and other streets in search of the bodies, and thought that they would likewise be a wild goose chase. They decided, however, to proceed with the investigation. They placed a spot where the sandy floor looked as if it had been disturbed, and set to work with a shovel in the southwest end of the cellar.

In a moment more than something was laid bare. A dead white human hand and wrist—white, and without blood, more like the model of a hand exquisitely moulded in pure wax than a real hand—suddenly showed itself three feet below the surface among the sand.

The inspector instructed them to secure an undertaker and R. D. Humphrey of Yonge street was called. In the presence of the detectives he continued the work of unearthing the bodies of the two children. The search of Geyer was over. The cellar had given up its dead. The attitude was that of repose rather than that of death. The features—each of which the face as were visible—were calm and the soil had probably assisted to a certain extent in arresting the course of decay, although both bodies were in a putrid state.

How the children were killed will probably be developed as the result of the post-mortem which has been ordered by Coroner A. J. Johnson.

The hole in which the bodies were discovered was about four feet square and three and a half feet deep, allowing a little over one-half a foot for the space they occupied. The soil, which was white, lay in a crumpled position with its head to the northwest and its little legs pointing almost north, while the elder child had evidently been carelessly thrown in on top of the other, and its head pointing to the southeast and the legs pointed.

The hole in which the bodies were discovered was about four feet square and three and a half feet deep, allowing a little over one-half a foot for the space they occupied. from the Albion Hotel. On Tuesday and Wednesday he also spent there, and while his attention was turned to completing the details of his scheme the two young girls played round, and filled with childish laughter the house so soon to become the scene of tragic and ghastly burial. The bodies of the children were found for a day or two on the way to convey to the neighbors the impression that some one was moving in. None dreamed of the hidden plans, and to the children they were a wider and happier meaning. They had not seen their mother, their sister or Deesa, or the baby since Alice looked through the newspaper which covered the face of her murdered father in the Philadelphia graveyard and identified his body by his teeth, and they played and laughed and lived in the confidence that mamma was coming, and was going to bring Deesa and baby with her. Mr. Howell, as Holmes called himself, had told them so, and said the bed was the first of the furniture which was to make this cottage so much like their own home where they had last seen papa alive.

On the afternoon of the 24th, Holmes borrowed the spade from Mr. Ryves. That same evening, when he returned to the room at the Albion Hotel, his wife remarked to him that his clothing was very dirty. Holmes explained that he had met some friends who were connected with the British America Assurance Company and had spent the evening with them. This story has been investigated by Detective Geyer and Cuddy and proven to be a fabrication. The true explanation, had the man chosen to have told it, was that the borrowed spade he had been digging the graves of the young innocents.

On the following morning, called as was his custom, at the Albion Hotel for the children, taking them away soon after breakfast. What took place between the time of entering the house on that morning with the two children and the time of hand-bark the spade to Mr. Ryves is known only to Holmes, and can only be surmised. Unless Holmes when confronted with the evidence of murder which Detective Geyer has accumulated against him in his trip the past few weeks realizes the hopelessness of his position and tells the true story of the crime, the exact method he pursued in accomplishing the death of the children will never be definitely known.

While in Detroit Holmes borrowed a large trunk from Mrs. Pitezel, under the pretext that her husband's alleged presence in the city had become known to the detectives, and that it was necessary to ship him to Toronto in a trunk. This trunk Mrs. Pitezel did not see again until she had left this city and gone to the house in Burlington, Vt., which Holmes had furnished for her. It fell into the hands of the detectives of the city of Philadelphia, who discovered that one of the hands had been raised and a hole bored beneath it. Upon this discovery Detective Geyer based his theory that a house had been rented in this city, the children induced to get into the trunk, when they were asphyxiated. The fact that there is no gas in the Nudel cottage renders this theory untenable. Unless they were put into the trunk and chloroformed to death, the only rational theory appears to be that they were smothered with the mattress and pillow after the manner of the celebrated Burke and Hare murder.

To render identification almost impossible should the bodies be discovered, the fiend stripped the bodies of every vestige of clothing before he rolled them into the hole which was to be their temporary resting place. The clothing was then burned, but the bed and mattress were left intact. When Mrs. Amburst was cleaning up the house before moving in, in April, she found remnants of the clothing of the children in the fireplace, under the sink in the kitchen and in the wood box. Mrs. Amburst paid little attention to the half-burnt shreds and threw them into the lane. One thing she does remember, and it bears out the statement of Mr. Ryves, that the children were dressed in dark clothes, and that is, that the material was dark.

DESERONTO, ONT., FRIDAY, JULY 26, 1895.

JAMES A. ROY,
—BREWER—
Belleville, - Ontario.
Porter and Pale Ale in Wood or
Bottles. Bottled Ale for Family use
specialty

Anything we can do for You?—We address this question to every reader of this paper, whether they live in Kingston or a hundred miles away from it. We are selling Dry Goods—not only dress stuffs—but dry goods of many kinds. Ours is a store of many departments, each of them under the guiding hands of experts in their line. The store is conducted on a modern scale and offers the buyer every inducement. The store is conducted on a modern scale and offers the buyer every inducement. The store is conducted on a modern scale and offers the buyer every inducement.

Dry Goods by Mail.—We offer out-of-town folks superior advantages for buying by mail. We execute every order entrusted to us promptly, carefully and faithfully. People living many miles away can shop with us as pleasantly and profitably as the people who come to the store.

Send us your orders for anything you may need. State explicitly what you want, and if it is not in our stock we will make every endeavor to get it for you.

Stacey & Stacey
DRY GOODS IMPORTERS
106 & 108 PRINCESS STREET, KINGSTON.

We deliver all orders free of postage charges. Send money by P. O. Order or Registered Mail.

Address a Postal Card to
C. B. SCANTLEBURY,
Belleville,
The WALL PAPER KING of Canada.

Then write upon the other side:

Dear Sir,—
Please send me samples of Wall Paper suitable for (mention rooms) and not to exceed (mention price) per single roll. I saw your advertisement in (mention paper).
Yours truly,

YOU will receive by return mail samples of Wall Paper suitable for any kind of a home, in Canada. The samples will be large and in sets comprising Wall Paper and Borders, and will enable you to make a selection for an entire house as you sit by your own fireside and with your friends to assist in the selection. You have absolutely no responsibility in the matter—you simply write the postal as above and we do all the rest—send you samples enclosing order blanks, a guide "How Paper or Economy in House Decoration," showing how to estimate the quantities required for the different rooms, and directions for ordering, etc., in fact we entirely relieve you of the trouble and anxiety of Wall Paper shopping. We positively Guarantee Satisfaction. Can you say more?

Our Mail Order Department reaches throughout the Dominion. We pay the express charges on all orders of a reasonable size. Full instructions with samples.

MELROSE.

Mr. and Mrs. McGowan, of Wallbridge, spent Sunday as the guests of Mr. and Mrs. E. Bunnett.

Miss Maggie McLaren is visiting relatives in Niagara.

Miss Martha Jordan, of Rochester, N. Y., is spending a few weeks with her parents of this place.

Miss Annie B. Ray is visiting friends in Belleville.

Miss Jennie McFarlane has been engaged as teacher in the Deseronto Public school.

Mr. John English is still very low with no hope for recovery.

Mr. Sheehy's barn and contents were totally destroyed by fire last Thursday afternoon. Cause unknown. Loss fully covered by insurance.

The annual fishing party and picnic was held last Friday afternoon in a beautiful grove on the banks of the Salmon river, where about fifty of our young people spent a pleasant time in boating fishing and other amusements.

SHANNONVILLE.

Miss I. Turner, of Belleville, is the guest of Miss Edith and Ethel Davidson, of the Albion Hotel.

Mr. and Mrs. Loomis, of Michigan, are the guests of their cousin, Mrs. J. W. Wilson.

Mrs. Barry, of Michigan, is visiting her sister, Mrs. T. Farnsworth.

Mr. James Earl of Flint, is visiting his mother Mrs. Geo. Earle.

Mrs. Groves, of Chicago, is the guest of her father Mr. Beckwith.

Miss Sadie Morton, Belleville, was visiting friends in the village last week.

Mrs. E. M. Lake is visiting her sister Mrs. W. J. Magrath, Belleville.

On Wednesday evening last someone entered Mr. Mills' stable and stole his horse. After considerable expense and trouble it was recovered, having been caught in a field several miles from Belleville. Needless to say Mr. Mills is very much pleased to have his horse again.

R. F. Pagan, is the guest of Dr. McLaren, of Lancaster.

HILLIER.

The whole country side is full of visitors from towns and cities.

Claude Norton, of Chicago, is home visiting his parents. He wheeled from Toronto to this place.

The indications all are that the plum and apple crop will be very good, fully up to the average.

The recent showers have caused the health of the farmer to rejoice.

The picnic set firms are over-exact this year, delinquencies being much more numerous, in some cases as much as eight pounds per bushel.

A great many were in to Picton on Wednesday to see the Oddfellows.

The ground which had been showing a poor yield of peas has been sown over in many places and planted with buckwheat which promises a well.

The farmers have been selling their hogs for which there is a good demand.

Rev. A. K. Macdonald, of Brighton has been visiting at James Alexander's.

Some of our people left for longer Hamilton on Tuesday to visit relatives at St. Luke's state of New York.

Most of the Reserve folk are making preparations to go to Belleville on Saturday to see what Bailey and Barnham have to show. There will be a flower service at Church on Sunday the 4th August, at which the Sunday school children will take a prominent part.

The picnic for the Sunday schools of the Reserve will be held in the church grove on Wednesday August 7th. Games, sports, tug-of-war between the schools. It is hoped there will be a general interest taken in this annual gathering. Everybody welcome.

Those interested in Christ church cemetery who have attempted to decorate the graves of their deceased friends, have had their feelings outraged by the removal not only of the flowers but the choicest plants. Suspicion has been cast upon some of the men who are seen prowling about at unseemly hours.

Miss Kate Maracle has returned from the Grand River Reserve. She is popular as a teacher.

The people of the Methodist church here are repairing and painting. The artistic work is under the supervision of Geo. Madden, a gentleman whose taste in regard to such matters is indisputable. It is a lamentable fact however, that the finer shades of coloring ability do not harmonize with the steadfast color of our loyal citizens. However the artist calmly continues to dip his brush into the Emerald color and lay it down with no other thought than to cover the surface of spire and there is no one to say him nay.

By the way business is booming at the Paper Mills. It looks as though Messrs. Christie & Calbreath are not here for the paper mill. Beginning the first of August the mill will run night and day and both machines are expected to be running with their old time vigor by October next.

The Washburn Company men are in camp here calling and loading ties for the G. T. R. The small boy and the succulent choke-cherry are now inseparable and the doctors of adjacent villages are winking the other eye.

A old saw mill, a landmark for many years, collapsed into the river last week when Granger has opened up a new lumber shop at his residence on the Newburgh road. John says that tailoring the festive steer from the adjoining districts detracts considerably from the poetry of the butcher business.

A Clement has returned from Gananogue and will resume his old position as fisher in the Paper Mill.

We are sorry to state that Miss Lottie Hill is not recovering very rapidly from her severe illness.

Frank Granger is in Waterloo, N. Y., on business this week.

George Connors has resigned his position at the present work.

O. H. Scouten has purchased a flyer and expects to enter the 2-10-100 at Centerville show this fall.

SYDENHAM.

The New Orleans Jubilee Singers have entertained us during the past week. They left on Monday for Bath.

A stranger has come to stay at Mr. Stoney's. The N. O. J. S. O. R. is now set up at Amy's landing.

Mr. C. J. Bishop leaves us to go on the High school staff at Athens, Wis. with him success.

Mrs. Harris and family are about to leave for Sydney. Mr. Sharpe is to occupy their house.

Rev. L. Freeman who is now visiting his parents conducted the service in St. Paul's.

A luncheon shop is about to be set up here.

Foxton Bros. are enlarging their saw mill. G. Purdy is building a wing to the old post office.

While a young son of Luke Leigh was climbing a tree he fell and broke his arm.

The Union Hotel is crowded with visitors. On Tuesday an excursion came out here from Portsmouth.

Mrs. Griffith and daughter have returned from London.

Visitors: W. Lahey, F. Carey, F. Wood, G. Mills, Mrs. Wilder, and summer visitors to no end.

There are thirty applicants for the situations vacant on the High school staff.

John Lyons accidentally broke his arm while working at a broom mill.

Father MacWilliam's picnic was quite a success both financially and otherwise. The excursion from Kingston was not very large.

EMMONSVILLE.

The recent showers have been of great benefit to the late crops in this section, and is giving the parched and dried up pastures a spring like appearance. The barley harvest is pretty well through, and is reported a good average crop.

Alex. Smith, of Nanapanee, was the guest of Wm. Blatherwick on Sunday.

Mrs. Gowers, of Sidney, has been engaged as a teacher in our school for the remainder of the year.

Sunday morning and gave an excellent address.

L. Ross, of Wallbridge spent a few days with his brother, Wm. Ross, this week.

Mrs. Gowers, of Sidney, is the guest of her cousin Miss Emmott.

Rev. E. Farnsworth, of Plympton, spent part of last week with his father T. Farnsworth.

Mrs. B. Emmott and Mrs. Gibson, of Belleville, made a flying visit to their home on Tuesday, having come down on their wheels.

J. Fraser Torrance, who is supposed to have committed suicide, was found dead at his residence, Rossland, near Rat Portage, Ont. Deceased was the son of James Torrance, a well known farmer, was educated at McGill College, that city, and subsequently in Germany, graduating with high honors as a mining engineer. He spent some time in Toronto, and was employed by the Contracting firm he returned home, and followed his profession in Nova Scotia, British Columbia, Colorado, Quebec, and Ontario.

He did excellent pioneer work in the mining fields, and the success of many mining ventures are due to his skill. It will be remembered that he spent some time in Deseronto in connection with the Terra Cotta Works in the early stages of the history of that establishment. He was at a nervous, impulsive temperament. His fondness for his general and a most entertaining conversationalist, and generous to a fault. He is survived by his wife, who was a daughter of Mr. Jack, of Chateauguay, P. Q.

DEATH OF J. F. TORRANCE.

A GOOD CONCERT.

The concert given by the Citizens' Band on Thursday evening, 18th inst., was without doubt of superior excellence and citizens have expressed themselves in terms of high praise, many regarding it as the best outdoor concert yet given by the band.

The feature of the programme was the "Overture." More than usual care seemed to be taken with the expression of the introduction—"Overture"—which is a very beautiful movement. The band seemed to outdo themselves in the shading and balancing here of the different parts, a feature we hail with delight, and one which bands too often disregard. A brilliant duet for two cornets in Saccato tongueing followed the Andante and produced a very happy effect. Perhaps the weakest of the different movements of this overture was the Finale presto. This movement barely reached the effect desired, and was rather feeble in execution or lack of audient study as it seems somewhat difficult. We anxiously looked forward to the account of rather feeble in execution or lack of audient study as it seems somewhat difficult. We anxiously looked forward to the account of rather feeble in execution or lack of audient study as it seems somewhat difficult.

The "Ladies," gained a suitable reply from Bro. Russell of the received and Bro. Hatch replied with golden eloquence.

At this stage of the proceedings District Deputy Walker proposed the toast of "Quinté lodge," coupling it with the name of Bro. R. Massie, M. W.

Bro. Massie replied in suitable terms. He thanked Bro. Walker for his compliment, and said that if he had succeeded at all in his official position he had only tried to do his best. Not a day came but he thought of the lodge and he was ever anxious to promote its interests. Already seven or eight members had joined this year, though he considered the number might have been greater. He thought the order was second to no fraternal society in existence.

The "Ladies," gained a suitable reply from Bro. Russell of the received and Bro. Hatch replied with golden eloquence.

At this stage of the proceedings District Deputy Walker proposed the toast of "Quinté lodge," coupling it with the name of Bro. R. Massie, M. W.

FRATERNAL VISIT.

The members of Quinté Lodge, No. 215, A. O. U. W., had the pleasure of according a reception to a number of the members of Belleville lodge, No. 231, on Friday evening, 18th inst. The latter came down on the K. L. Ross and after taking in the sights and enjoying tea, assembled at the hall of Quinté lodge. There was a good attendance of members and the visitors were more than pleased with the excellent exemplification of the ritual which followed. Speeches followed and a most interesting fellowship was enjoyed. Workmen being noted for the kindness and warmth of feeling which distinguished the fraternal meetings.

The lodge being closed, an adjournment was made to the Oriental Hotel, where Bro. Hatch had prepared a splendid repast. The visitors and local brethren were soon seated around the long tables which were loaded with everything calculated to please the most fastidious palate. The dining room was adorned with mottoes and floral decorations. The chair was occupied by Bro. Robert Massie, M. W. of Quinté lodge, who had on his right Bro. A. D. Walker, M. O. who is D. D. G. M. W. of the Order, and on the left Bro. D. G. M. W. of the Order were proposed and speeches made in quick succession.

The "Queen," "The Governor-General" were proposed by Bro. Massie and drunk with loyal enthusiasm.

"The Mayor and Corporation," was well received. Ex-Deputy Reeve Vallan responded in a capital speech. He regretted that he was not as regularly at duty as he should be but it was not due to lack of interest in the order of which he was a loyal member. He had the honor of serving in the council last year as deputy reeve but a cyclone struck the town last January and he was now only a private citizen. Deseronto was one of the finest towns in Ontario, the seat of great manufacturing industries. He had no second position. Times were dull as the weather was not looking forward to an improvement in trade. Deseronto was going to surpass Belleville. Nothing would be so located here. No law in Ontario was so free of debt.

"Our Guests" were received with great enthusiasm. Bro. Walker, D. D. G. M. W., in a very happy speech thanked the members of the Grand Lodge for their reception. It was always a pleasure for him to visit Deseronto with which at one time he was connected. Still Belleville was a fine city and in comparison with other cities her condition, financially and otherwise, was excellent. He was proud of being a man and of his position as the representative of the Grand Lodge. Although only founded 27 years ago the order numbered 342,000 in the United States and Canada. He considered it the best friendly society in existence.

"The Grand Lodge" was making a change of a program. The character which would be beneficial. The grand orator who had been put in the field had done splendid work. He congratulated Quinté lodge on its character and the reception tendered himself and other visitors.

Bro. H. Y. Canfield, of Belleville, also responded in a brief speech in which he waxed eloquent as he alluded to the beauties of the City of the Bay with its electric railway, and other advantages. Quinté lodge was made up of the first class of the "Sister Societies" brought to his feet Bro. J. Phillips, of Plainfield, well known as one of the most zealous members of the order in Eastern Ontario. He considered the Plainfield lodge as one of the best and most exemplary in the whole order. Two or three years ago, he said, he was in Belleville and he was in the city of the Bay with its electric railway, and other advantages. Judge Williams, Watertown, N. Y., Cal. says, "I have in my case of John E. Wallace against her husband, Ernes Wallace, Belleville.

A fish run mine has been found on the farm of George James, near Merrickville. An American syndicate have offered him \$2,000 for mining privileges.

Watertown is again beginning to boom, business being better, and men for many years. A bicycle factory which will employ one thousand men is being erected.

Harry, fifteen year old son of William Mann, Napanee, had his wrist broken and sustained other injuries while playing in the soap works, being caught in the elevator.

John Logan, Carleton Place, had his leg in a fire on the 13th inst. The chain that had to be cut by the fire was the knee. Friends subscribed \$90 to purchase him an artificial limb.

ALIVE TO THEIR DANGER

MISERABLE PEOPLE MAKING ENQUIRIES WITH REGARD TO A CANADIAN DISCOVERY.

Minneapolis, July 22.—There has been a most unusual number of deaths from heart disease in this city during the last few months and in many cases the victims were young men of the best of health, and were not in the least inclined to be alarmed. In fourteen have shown in several instances that the trouble was the result of a disease of the heart, and in several cases the victims were young men of the best of health, and were not in the least inclined to be alarmed. In fourteen have shown in several instances that the trouble was the result of a disease of the heart, and in several cases the victims were young men of the best of health, and were not in the least inclined to be alarmed.

ADVICE ON THE USE OF PERFUMES.

Lillie M.—came to see me yesterday, and after she had gone, Mrs. G.—came and was putting a new raid on my second-best gown.

"That Miss Lillie was very nice perfume. It's so faint and fine, not anything you can smell a long way off, but something which makes you think of roses or violets when she passes on the street. How does she manage it?"

Maria G.—likes perfume, but does not know how to use them.

"Not by putting cologne on her handkerchiefs," I answered, decidedly. "Nobody should ever do that. It is poured on their garments." I had to say this.

Perfumes are used sparingly by elegant people, yet a touch, a vague sense of fragrance, does add something of something to a girl's toilette. It is right for you to have perfume about you if you love them.

Fresh rose-leaves thrown into your bureau drawers and scattered in the boxes where you keep your lace and handkerchiefs, and sprigs of lavender or lemon verbena. Let these to dry will impart a pleasantness to whatever lies among them. Orris-root powder in little sachet bags of China silk, or strewn lightly between folds of these papers, will give to your clothing in closet or wardrobe a delightful faint note of violet. If you use delicate soap with a strong perfume, not of musk or anything strong and pronounced, and put a few drops of alcohol or ammonia in the water you bathe, you need not be afraid of any unfavorable comment on your cleanliness. Perfect cleanliness is always desired. Soil and stain, dust and dirt, are never anything but repulsive.—Harper's Round Table.

DID YOU EVER THINK.

You cannot be well unless you have pure, rich blood in your veins. If you are tired, languid and all run down, it is because your blood is impoverished and lacks vitality.

These troubles may be overcome by Hood's Sarsaparilla, because Hood's Sarsaparilla makes pure, rich blood. It is, in truth, the great blood purifier.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

ABOUT EQUAL.

What's the difference between a young man smoking a ten cent cigar, and a young woman smoking her hair with a dime novel? One wasting his money and time to appear gentlemanly, the other, to look like a fool. The difference is in the result. The man's hair is bald, the woman's is not. The man's face is red, the woman's is not. The man's breath is bad, the woman's is not. The man's blood is impure, the woman's is not. The man's life is short, the woman's is not. The man's health is bad, the woman's is not. The man's mind is weak, the woman's is not. The man's soul is lost, the woman's is not. The man's body is diseased, the woman's is not. The man's life is a failure, the woman's is a success. The man's end is death, the woman's is life. The man's fate is hell, the woman's is heaven. The man's destiny is ruin, the woman's is glory. The man's lot is sorrow, the woman's is joy. The man's portion is pain, the woman's is pleasure. The man's cup is bitterness, the woman's is sweetness. The man's drink is poison, the woman's is life. The man's food is death, the woman's is health. The man's sleep is death, the woman's is life. The man's dream is sorrow, the woman's is joy. The man's vision is darkness, the woman's is light. The man's hearing is silence, the woman's is music. The man's touch is cold, the woman's is warmth. The man's smell is stench, the woman's is perfume. The man's taste is bitterness, the woman's is sweetness. The man's feeling is pain, the woman's is pleasure. The man's thought is confusion, the woman's is clarity. The man's action is folly, the woman's is wisdom. The man's result is failure, the woman's is success. The man's end is death, the woman's is life. The man's fate is hell, the woman's is heaven. The man's destiny is ruin, the woman's is glory. The man's lot is sorrow, the woman's is joy. The man's portion is pain, the woman's is pleasure. The man's cup is bitterness, the woman's is sweetness. The man's drink is poison, the woman's is life. The man's food is death, the woman's is health. The man's sleep is death, the woman's is life. The man's dream is sorrow, the woman's is joy. The man's vision is darkness, the woman's is light. The man's hearing is silence, the woman's is music. The man's touch is cold, the woman's is warmth. CHARLES E. BISHOP,

SEEDSMAN,

Bridge Street. BELLEVILLE.

OILCAKE.

At present prices of mill feed, Oilcake is the best value in the market. A practical dairyman of our county, operating a creamery of his own, assures us that one ton of Oilcake is worth more as a milk producer than three tons of Bran. He knows whereof he speaks, as we have sold him several tons this season.

Bran, Shorts, and Cracked Grain always on hand. Special quotations in Car lots.

Visitors to Kingston will note that the Windsor Hotel is the headquarters of all the stage lines. Deseronto, Napanee and Bath visitors will receive special attention.

A shorthand & Typewriting School has been opened in town. For information call at rooms, in Mrs. Davera's residence, Corner Fourth and Thomas Sts. near Methodist Church.

Karl's Clover Root will purify your Blood, clear your complexion, regulate your bowels and make your head clear, as a bottle, 25c., 50c., and \$1.00. Sold by W. G. Egar.

When you require glasses and desire properly fitted ones have our Optician test your eyes free of charge before buying glasses at all. It will pay you.

ANOUS McPhee & Co. 272 First St. Belleville.

LOCAL ITEMS.

The Masonic Grand Lodge will meet in Belleville next year.

Visitors to town greatly admire Central Park with its trees, flowers and foliage. Hon. Edward Blake was selected for South Longford, Ireland, by acclamation.

E. S. Westmoreland shipped twenty-nine fine fat animals to Montreal the other day.

The Ella Rosa carries large quantities of freight from Picton to Deseronto every night.

Prof. Denmark is removing to John McCloskey's house, corner of Thomas and Centre streets.

Chief S. Green has greatly improved the appearance of his premises by painting his house a cream color.

E. S. Westmoreland is buying another lot of prime cattle which he expects to ship to Montreal next week.

Railway people state that the Grand Trunk has not been to busy for twelve years as far as freight is concerned.

The senators at Ottawa use 160,000 pens during the session; at least they are allowed that number to do their writing.

Wm. E. Smith is camped for the summer a short distance down the bay. He employs his time fishing and knitting hammocks.

At East Florenceville, N. B., five generations at down to a Sunday dinner Mrs. Elizabeth Boyar, aged 95, was the oldest.

A telephone at the Deseronto cemetery is very much needed. The cemetery authorities cannot act to speedily in this matter.

"Telegraph" camp broke up on Monday. The whole party had a splendid time. There are many campers along the beach this season.

The A. O. U. W. have so amended their rules, that members may carry but \$1,000 insurance, instead of \$2,000, which was compulsory until recently.

The North King is said to be the fastest boat that traverses the St. Lawrence River. She made sixteen miles in one hour and one minute on a recent trip.

The City of Buenos Aires has a population of 655,688, and is thus the largest city in the Southern hemisphere. During the past four years it has increased fifty per cent.

It is thought that the remains of the late A. L. Morden, Q. C., will reach Napanee on Sunday or Monday. The funeral will probably be held on Tuesday.

Remember St. Mark's S. S. picnic to Young's Point, Adolphustown, on the 31st inst. Tickets 25 cts., children 15 cts. All welcome.

An extension has been made to the dry kilns for the purpose of drying match splints. A large new pipe connects with the fan to carry the hot air for the purpose.

Dr. Simpson and W. J. Huff were out fishing on Tuesday evening and proudly paraded the streets with a string of the funny tribe as a result of their successful efforts.

Several complaints were lodged at this office concerning parties discharging firearms within the limits of the corporation contrary to the provisions of the statute governing such misdemeanors.

A new post office will be established at Cooper's South Maryburg, Prince Edward County, to be known as Port Milford, which is four miles from Milford. There will be a daily service from Picton.

The Senate had not time to pass the bill of the Incorporated Order of Foresters which proposed to increase the amounts of insurance carried by members and it will be held over until next session of parliament.

The Australian production of gold, according to the *Manufacturer*, is figured at 1,731,322 fine ounces, or \$35,786,426. This is close to the United States, which produced last year 1,923,619 fine ounces, or \$39,761,205, substantially \$4,000,000 more than Australia.

Private Heynath of the 13th batt., Hamilton, has captured the Queen's prize at Biley, the highest honor of the meeting. It is the first time a Canadian has won a gold honor which entitles the winner to a gold medal and \$250. The result was the cause of great rejoicing all over the Dominion.

Joseph Hyndman, of Hallville, claims to be one of the oldest Orangemen in Ontario. For 60 years he has been a member of the order, having first joined in Ireland. He is now in his 86th year and attended the Orange demonstration at Ottawa on Friday. He claims to have never missed a celebration during 60 years.

Stanley Sallor, who used to visit at O. Cole's, Deseronto, in 1894, died at 8 Toronto and was buried on Monday last.

The Kingston Presbytery at its meeting on Tuesday accepted the resignation of Rev. J. L. George, pastor of John Street church, Belleville.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by W. G. Egar.

About nineteen hands in the door department of the Sash & Door Factory were laid off last week, the stock of doors on hand being very large.

F. S. Rathbun invited the Company's clerical staff in the different offices to a sail down the bay on the *Siesta* last Friday. About thirty-two responded and a most pleasant time was enjoyed, the party proceeding to the island and parts adjacent.

Probably the oldest clergyman in Canada in active ministry is the Rev. M. A. Cosman, Lutheran minister of Lunenburg, N. S. He was born in 1806; ordained in 1834, 61 years ago; arrived in Lunenburg 1835; has baptized 3,966; married 922 couples; buried 1,041; has preached 11,000 sermons, and travelled 300,000 miles.

The District Council of Royal Templars of Temperance met at Trenton last week. There was a good attendance and important business was transacted. The different secretaries reported steady growth and unfailing interest on the part of the different subordinate councils. Arrangements were perfected for the work of extension.

David Smith, the "huckleberry king," made a prospective tour in the Bald Mountain area last week. He reports the huckleberry crop almost a failure owing to the protracted drought. Raspberries are a great crop and with more rain there will be a great yield of long raspberries. The lakes are teeming with fish, the district being a sportsman's paradise.

The congregation of the Church of the Redeemer at the meeting on Monday evening extended a unanimous call to Rev. W. S. McTavish, of St. George. The call was signed and forwarded next day to the Kingston Presbytery who sustained it and ordered its transmission to Mr. McTavish through the Paris Presbytery. That presbytery will consider it at a meeting to be held on August 6th.

At the annual meeting of the Dominion Oddfellows' Relief Association, the reports showed the benefits in the financial year to be \$63,000; total disbursements since organization, \$439,357; membership, 8,068; insurance carried, \$10,056,000; assessment \$82,760; surplus, \$57,421. W. J. Livingston, W. H. Gowan and W. R. Mundell, the retiring directors, were re-elected.

Bailey and Barnum's Circus.

In connection with the circus at Belleville to-morrow the Ella Rosa will carry an excursion from Picton, Napanee and Deseronto, leaving this place at 7:30 arriving in the city in time for the procession. Fare 35 cts. Boat will return at 6 p. m.

Eastern Trotting Circuit.

The programme for the Eastern Trotting Circuit is as follows: Cobourg, July 22nd and 23rd; Trenton, August 1st and 2nd; Picton, Aug. 6th and 7th; Napanee, Aug. 12th and 13th; Kingston, Aug. 20th and 21st; Gananoque, Aug. 26th and 27th; Deseronto, Sept. 2nd.

1000 Islands Excursion.

Remember Reva. Crossley and Stratton's excursion to the 1000 Islands on Saturdays, Aug. 10th and 17th. The popular star, Merritt will leave Deseronto at 9 a. m. on each Saturday. Cole's 9:30, Picton 10:30, Adolphustown 11:15, Bath 12:45 p. m., reaching the park at 6 p. m., returning Monday. Tickets \$1.00. Below Picton 75 cts. See bills for particulars.

Cutlers' Examination.

Intending candidates for examination for licences as sawlog cutters should bear in mind that under the Ontario Cutlers' Act the only examination this season will be held at Huntsville, on Wednesday, the 7th day of August next. Intending candidates should at once communicate with the Department of Crown Lands, Toronto, and forward the required fee of four dollars each. Only British subjects and bona fide residents of Canada will be examined for Licences.

The Amateur Sportsman.

Any of our readers desiring a good journal giving information about hunting, fishing, rifle shooting, dogs, camping etc., cannot do better than send a dollar for the *Amateur Sportsman*, published by the M. T. Richardson Co., 27 Park Place, New York. The July copy just to hand is a splendid number as it is richly laden with interesting reading for hunters, anglers and dog fanciers. It contains well-illustrated notes on camping, and deeply interesting articles on Hunting, Fishing, Camping, Natural History, etc. A sample copy will be sent free of charge.

G. A. Cole, late principal of the public school, and his family, left on Wednesday for New York City, where they will make their home. As we stated formerly Mr. Cole intends taking a course of study with a view to qualifying himself for higher positions in his profession. A large number of friends were at the station to see them off and to wish them God speed. Mr. Cole did excellent work in the public school, was an exemplary citizen and his presence will be missed. He was a member of the Deseronto Cricket club and always took a warm interest in outdoor sports. He was a faithful and active member of the Methodist church and a very capable teacher in the Sunday school.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. The pocket size contains twenty-five doses only 50c. Children love it. Sold by W. G. Egar.

PERSONALS.

Mr. T. H. Namith and Miss Namith went over to Oswego last week on the Resolute.

Chief S. Green was enjoying his holidays last week.

Mr. Debon, of the Picton high school, was in town on Saturday.

Jessie and Murray Montgomery are visiting friends in Newburgh.

Mrs. A. E. Barnard, and children, of Belleville, are visiting friends in town as the guests of Mrs. R. Rayburn.

Miss Barrington has been spending some holidays in Prince Edward.

Mrs. Wm. Anglin and Miss Edna Anglin, of Kingston, were the guests of Mrs. A. G. Knight during the past week.

Miss Lottie Stokes, of Buffalo, N. Y., is visiting in town as the guest of Mrs. Joseph Hoppes, Stanley Avenue.

Mr. Albert Association and Mrs. A. Griffith, of Trenton, have been the guests of Mrs. James Gammon, Dundas street.

Rev. George Skinner and Mrs. Skinner, of Frome, were the guests of Mr. and Mrs. T. H. Cook for a day or two during the past week. Mr. Skinner is Mr. Cook's brother-in-law.

Mr. Adam S. Sager was visiting friends in Belleville during the week.

Miss Hooper, Napanee, is the guest of her sister, Mrs. F. D. Burdette, Thomas street.

Mrs. T. E. Appleby and her son, and Mrs. Lyons left on Wednesday for Flower Station for a month's visit.

R. P. Curtis and Master Wells Curtis, of Bridgeport, Conn., have been the guests of Mr. & Mrs. E. W. Rathbun during the week.

Mrs. George Gunyon was visiting friends in Belleville during the week.

W. Teney is visiting friends in his old home at Cranston.

Misses Cassie and Nellie Roach, of Gananoque, are spending their vacation with their grandparents, Mr. & Mrs. Thos. Roach, Napanee road.

Thos. Noxon left on Tuesday for Fenelon Falls.

Miss Nettie Allan, of Toronto, is visiting in town on her way to Newburgh where she will spend a month's visit.

Mrs. Joseph Hoppes and Master Jack Hoppes returned home last week from Sidney Crossing where they had been visiting friends.

Mrs. Hettie Crawford left on Monday on a visit to friends in Winnipeg and other places in Manitoba and the North West.

Mrs. S. G. Emerson, of Iwaco, is the guest of Mrs. David Bradshaw, Thomas street.

Mrs. McLaughlin returned home on the Hamilton on Tuesday, having enjoyed a delightful visit to Toronto, Niagara Falls, etc.

Master Fred Lloyd is spending his holidays with friends in Camden and Tamworth.

Chief S. Green lost four pounds, solid flesh, during his vacation.

Mr. & Mrs. James Montgomery are visiting friends in Pittsburg.

Mrs. Jas. D. Burgess and children returned to Pongkeepie by the Resolute last Saturday.

Miss Ethel Egar has been spending the week at Butterworth Cove with Miss Puitras.

Dr. Clinton, of Belleville, was in town last Friday.

Mrs. Robert Geddis has been seriously ill during the past week.

Misses Edith Falkner and Annie Dalton leave on Saturday for Toronto.

Miss Tillie Watson has returned home from a pleasant visit to friends in Blairton.

A. E. Banyard, Napanee Mills, spent Sunday in town as the guest of Mr. Rayburn.

Miss Sarah Allen, of Kingston, is the guest of her sister, Mrs. R. Massie, Mill street.

Rev. W. T. Wilkins was the guest of David Elliott, on Monday evening.

W. Stoddart spent Tuesday in Belleville. Jas. E. Richardson and John Harvey, of the Big Store, are off this week on their holidays.

Mrs. Burley, of Bath, spent Sunday in town as the guest of Mr. & Mrs. James McCaw.

Miss Eva Miller, of Prescott, is the guest of Mrs. J. M. Anderson and Mrs. H. Ayleworth.

Walter S. Bruton has returned home after spending a week on the St. Lawrence.

Clark Taylor, of the B. of Q. office, spent Sunday in Gananoque.

J. R. Rickold, of the B. of Q. office, and T. W. Rowland, spent Sunday in Ottawa as the guests of F. Dougherty.

Miss May Pickett is spending her vacation with friends in the Limestone City.

H. B. Rathbun, of Belleville, was in town on Monday.

Fred Knight, of the West End Pharmacy, has been enjoying his vacation in Trenton, Toronto, etc.

Mrs. Wm. Leslie is visiting friends in Northport and vicinity.

Mrs. Barrington left yesterday to visit her sister in Brookville.

Mrs. J. T. Greatrix and Miss Greatrix are visiting friends in Thurlow.

Mrs. J. Hoppes and Miss Lottie Stokes went to Kingston on the Hero last Wednesday morning.

Gilbert Young and family have moved to Trenton.

Mrs. Cochrane, of Los Angeles, California, and Miss McCullagh, of Newcastle, were the guests of Rural Dean Stanton and M. S. Stanton, last week.

Miss Maggie L. Barry, of Napanee, is the guest of her sister Mrs. Jas. McCaw.

John Freeman, of Napanee, has been the guest of his son, John Freeman, Edmund street, this week.

John German, of Rochester, is the guest of G. J. Carter, Main street.

Alex. Foote spent a few days in town at his home, Thomas street.

The families of L. Pearson, J. D. Monaghan, etc., are comfortably located at Pension Falls and enjoy their northern home. They wish to be remembered to all Deseronto friends.

Miss Allie Vandervoort is the guest of Miss Ethel Wilson, at Violet.

Mrs. Edward Wilson and family are camping out at Violet.

Mrs. Frances Marie Adams is visiting her uncle in Napanee.

Mrs. George Boyd and family, of Kingston, have been spending the week at the Empress hotel.

Mrs. Alex. Anderson is visiting friends at Roblin.

Wm. Burgess left on the Resolute on Wednesday evening for Oswego, N. Y. Commissioner McCullough spent yesterday in Belleville.

Misses Wilson and Mary Marrigan are spending their vacation most pleasantly at Thos. Murphy's, Tamworth.

Miss Peterson, of Syracuse, N. Y., is visiting her sister, Mrs. E. W. Scott.

G. E. Snider spent Wednesday in Picton.

David Henry, of Winchester, is renewing old associations in Deseronto.

Miss Slaven, after a visit to friends in Trenton, left this week to visit her aunt in Waltham, Mass.

Miss Macaulay, who has been visiting at Bay View Ranch as the guest of Mr. & Mrs. F. J. Rogers, has returned home to Kingston.

Mrs. A. H. McInnes, who has been visiting her parents, Mr. & Mrs. E. T. Miller, has returned to Montreal.

Mrs. Wm. Stewart and Miss Edith Stewart, of Rochester, are the guests of Mr. & Mrs. George Stewart, Mill street.

Miss L. Gordon was the guest of Miss Poiras at Bath last week.

Wm. Cronk is visiting in Gananoque, and cruising among the Thousand Islands.

Mrs. J. W. Webster and Miss Ethel, of Rochester, are the guests of Mr. and Mrs. Sidney Cronk, Maple Avenue.

Mr. and Mrs. J. Montgomery are spending a week or two with friends in Pittsburg.

Mrs. J. H. Gardiner, of Belleville, is visiting friends in town.

Misses Jessie and Gertrude Gordon are visiting friends in Corbyville.

R. Miller and R. Wiseman marched in the great procession at Picton on Wednesday with Picton lodge.

Mr. and Mrs. P. Burr and family went down to Pritzer last Saturday. Mrs. Burr and children will remain there for a few weeks.

Mrs. Wm. Haynes has returned home from the "Hennery," Newburgh, and Flower terrace assumes its former bright and cheerful appearance.

Mrs. H. A. Dean has returned home from a pleasant visit to friends in Rochester.

Mr. and Mrs. T. Allum, Jr., spent last Sunday at "Telegraph" camp.

Anthony Roberts paid a business visit to Quebec this week.

Fred Colp, of Apothecaries' Hall, is off for a few weeks' vacation.

Wm. Mitchell has been on the sick list for the past few days.

Mrs. Manning, of Toronto, is the guest of her sister, Mrs. G. E. Clement, Mill street.

Messrs Alex and W. Embury, of Belleville, were in town Saturday.

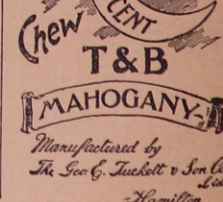

Miss Maud Anderson, went over to Oswego on the Resolute Wednesday.

I. O. O. F.

The following are the appointed officers of Deseronto Lodge, No. 102: K. H. Bogart, R. S. N. G.; Alex. Bradshaw, L. S. N. G.; W. N. Mark, R. S. V. G.; James Gammon, I. G.; Alex. Smyth, O. G.

Excursion to Thousand Islands.

On Wednesday, August 24th, an excursion under the auspices of Court Deseronto, No. 93, I. O. F., will be run to Thousand Island Park and Alexandria Bay. The favorite steamer Merritt has been chartered for the event. The steamer will leave Trenton at 6 a. m., Rederiville 7, Belleville 7:30, Deseronto 9, Picton 10:30, calling at lower ports and will reach the Park at 6 p. m. A pleasant sail to Alexandria Bay Saturday evening. Returning the boat will leave at 7 a. m. on Sunday morning. Tickets all bay ports as far as Picton \$1, below Picton 75c. Kingston 35c. Napanee passengers take str. Deseronto at 6 a. m., fare \$1. Committee: Jas. Stokes, E. M. Wallbridge, John Pickett, Wm. Leslie.

A BIG POWER SCHEME.

WHAT THE WELLAND POWER AND SUPPLY CO. PROPOSE TO DO.

Will Establish a System of Irrigation Over the Niagara Fruit District—The Company in No Hurry to Begin Operations.

At the last session of the Dominion Parliament an act was passed incorporating the Welland Power and Supply Company (Limited), the aim of which was to utilize the waters of the Niagara River for the production of electric power, and to supply water to irrigate the peninsula fruit belt, or for other purposes. The act of incorporation confers remarkable powers upon the company, vesting in it unrestricted liberty to draw unlimited water from the Niagara River. The company is empowered to deepen within the Chippawa Creek from its mouth to the point of intersection of the proposed canal, four and one-half miles west, and there is nothing in the charter to prevent the company from diverting the course of the Niagara River to Thorold, Ont.

The incorporators of the company were Edward W. Sebben of Denver, Col.; Charles A. Hesson, St. Catharines, Ont.; Charles Y. McClure and Nathaniel C. Hadden, N. Y.; John S. Campbell, St. Catharines; Alexander McKay, Hamilton, Ont.; and Samuel R. Hadden of Toronto, Ont. Their proposal is to construct a canal and hydraulic railway from the Welland River, which is navigable for ten miles from the Niagara River, to a point on the Niagara escarpment near the thriving town of Thorold, where a system of turbine wheels and powerful dynamos will be installed for the production of electric power.

To carry off the waste water a canal will be dug following the course of one of four creeks which run directly north and empty into Lake Ontario, one at Port Bala, the others farther east. The promoters of the company, it is evident, seek to minimize the first cost of the undertaking by taking advantage of the natural waterways wherever practicable, and their claim that they will be able to produce their first 10,000 horsepower by an outlay of \$500,000 appears to be demonstrated by facts.

Mr. Charles A. Hesson, one of the prime movers in the company, is collector of inland revenue at St. Catharines. Mr. Hesson is impressed with the feasibility and practicability of the project. "In the first place," said he to a Buffalo Express reporter, "our charter is broad enough so long as the Niagara River flows, we have no fear of any variation in our supply of water. Chippawa Creek, which is better known as the interior of the Welland River, is influenced by the Niagara River for 10 miles inland. We take the water through a widened and deepened channel in the middle of the Welland River and at a distance of four and one-half miles from the Niagara we propose to begin a surface canal 100 feet wide at the top and fifteen feet deep, and carry it by one level open cut through clay to the escarpment near the town of Thorold, a distance of about six and one-half miles, conveying the water to the brow of the mountain we lose only ten feet from the level of Lake Erie, giving us the stupendous available fall and head above the level of Lake Ontario. But we do not propose to drop the water in any quantity whatever, the full height of the escarpment. Such use of the water would involve the construction of heavy and costly machinery, and would be largely experimental. Instead, we propose to locate our first turbine at 150 feet below, and then carry the water by a series of falls, each generating extra power, if need be, to an open canal or raceway emptying into Lake Ontario, six and one-half miles away.

"The Welland River," continued Mr. Hesson, "is 800 feet wide, varies in depth from twelve to eighteen feet, and is navigable as far as Port Robinson, about ten miles. Gates would be built at the head of our canal so that we would have absolute control of the water. On the mountain top at Thorold we will build a lateral canal long enough to feed sixty turbine waterwheels, each of 5,000 horse-power capacity."

"Will you install the same system as that which has been adopted by the Niagara Falls Power Company?" the reporter asked.

"In all probability not, although we will be able to adopt features of that and any other system which experiment and practice have demonstrated to be the best."

"Where do you expect to find a market for such an enormous quantity of power?" "Probably it will be supplied," he replied, "but I have had a verbal application within the past few days for one batch of 50,000 horse-power for use in the other purposes in Canada. We have Thorold, St. Catharines and Welland, and the great possibilities which will reasonably follow the production of cheap power along the line of the Welland Canal. Our charter gives us the right to convey electricity through, under, over or along the streets, highways and public places of any municipality, or across or along any waters within the Province of Ontario, so that we are not restricted in our plans in any respect; but the aim of the incorporators was, and is, to compete for a share of the Buffalo market."

"At the estimated cost of production, 100,000 horse-power for \$300,000, we can lay down power at Port Erie, at the very door of Buffalo, for not over 80 cents per annum, one-quarter of the most liberal terms you can possibly expect from the Niagara Falls Power Company, who must get some return for their investment of ten times as much money before they produced 5,000 horse-power of electricity. As the distance from Buffalo to Port Erie is 100 miles, we will be obliged to carry the product of our dynamos is close to twenty miles. If the Niagara Falls Power Company can convey electricity to

Depew, there is nothing to hinder the Welland Power Company from carrying it to Port Erie, where the International Bridge will be utilized to carry the cables across the river.

"This company controls the County of Lincoln and proposes to supplement its facilities for the production of electricity, by a system of irrigation which shall extend over the fertile fruit belt to the north of the Niagara escarpment. Droughts are the chief enemy of the Niagara horticulturist and a supply of water to the proper time, this season, for instance, would have saved them thousands of dollars' worth of strawberries."

The feasibility of the scheme, for instance, the work of construction, believing that there will be great developments in electrical transmission and realizing that the installing the machinery will be a matter of a few months only when active operations are begun.

WHENCE THE BERRIES COME.

It is Found Wild in Various Parts of the World.

The genus of plants to which the strawberry belongs is one of the smallest of the earth's flora, numbering, according to some authorities, only three or four, and at the outside only five species. In giving a summary of them we may take the European species of the genus *Fragaria* first, since the culture which now covers hundreds of acres in this continent, as well as in Europe, originated there. The common wild strawberry of Europe, whether known as the wood strawberry of Britain or the Alpine strawberry of the mainland of Europe, bears the specific name of *Fragaria vesca*, and is a plant of immense interest, in that it is one of the most widely diffused. It is found wild in the Old World, from Lapland and the Shetland Islands to India, Spain, Sicily and Greece in Europe and in Armenia and Syria in Asia. It is even found in isolated Iceland. It is indigenous in the Northern States and Canada, and extends down the Rocky Mountains along the highlands of Mexico to Quito in South America. It has become naturalized in Japan, in the Islands of Mauritius and Bourbon, and in Tasmania and New Zealand. In addition to this, Europe possesses another questionable species, known as the *Fragaria virginiana*, which supplies the Hattus strawberry, so plentiful in Bohemia.

America is rich in having two magnificent species very palatable in their native state. The northern half of the continent produces the Virginia strawberry, with its variety, the Illinois berry. South America has, around Concepcion, Valdivia and Chiloe the Chile strawberry. The Himalaya Mountains, China and Japan afford species, but it is doubtful whether they are sufficiently distinct from *vesca* to bear different specific names.

A noteworthy feature connected with the European wild strawberry is the fact that its range extends nearly round the North Pole, cutting *Strawberry* and the basin of the Amor River. Its existence, its undeniable identity, in the two worlds separated now by the ocean is a strong evidence of a connected tract of land in the most northerly regions before ice and snow gained possession. Radiating from its probable cradle in the north, the strawberry advanced in front of the line of extreme cold which was gradually invading the earth and found new habitats instead of its former ones, becoming more and more chilly for plant existence. In some of these habitats further adaptation to climatic conditions took place, and thus specific differences arose, according to the species which now constitute the genus. Owing, however, to what may be called its strong personality, it has succeeded in holding its own at the same time that these "new departures" were made, and by remaining on the plain in some places and ascending the mountain in others has extended its range until it has peopled a large proportion of the temperate zone and even invaded the tropics. It is a marvelous instance of vigor and intensity of purpose in the plant world.

HOW THE VALKYRIE III. LOOKS COMPLETELY RIGGED.

THE SONG OF AN ASS.

How It Shortened Nasrulla's Stay in England.

Shahzada Nasrulla Khan has decided not to take advantage of his father's permission to remain in England until September, and a great sigh of relief has gone up from official and fashionable London, says a cable from that city to the New York Sun.

Rumor has it that Nasrulla's decision is due to an encounter with evil omens, including a will ass at the Zoological Gardens, which brayed without ceasing at his approach and refused to be comforted.

Anyhow, he is going, and his hosts are happy to inquire over closely into his motive.

New Method of Borax Mining.

Borax crystals are no longer dug in quantity from the borax marbles, because a more abundant supply is found in the unimpregnated rock, which is obtained by regular mining. The borax region is destitute of water and fuel, and getting great difficulties and hardships to the men. The crude borax is hauled long distances across the desert in broad-tired wagons to the railroad, and the largest of which is on San Francisco Bay, 500 miles distant.

The Wheeling World.

A professional twenty-four hour race will be held at Birmingham, England, in June. The first prize will be \$500. Eddie Bald is picked by good judges as likely to be one of the biggest winners of the year on the international circuit.

Oscar Casan, who was transferred to the professional ranks, is said to be contemplating joining the cash prize contingent in France.

The Three Halls.

LOUIS PASTEUR.

Gifts to Humanity of the Greatest Living Medical-Scientists.

Louis Pasteur is the son of a tanner, and he has saved more lives than any other man who ever lived. He is a paralytic. His hair is white as snow. His days are numbered. But if his frailties endure, his achievements are great which he began still goes irresistibly on; if his hair is white and his eyes are dull, the memory of his achievements will stay bright in the memory of the world forever; if his life must soon end, his memory lives prolonged will add their usefulness to the world's sum total, and thus testify that his was not lived in vain. It is a distinction to have met him; it is a privilege to be permitted to even faintly hint at what he has accomplished.

His work has grown out of one great discovery. It was the study of the life of science that organic decomposition—decay—was the result of purely chemical action. He proved that there is nothing chemical about it; that decay is merely the generation of destructive life of microbes. Pasteur might almost be spoken of as the inventor of the microscope. He proved that there constantly exists in the air certain forms of life, which, if they come in contact with a field sympathetic to their growth, thrive and multiply in credibly consuming the substance and disorganizing it in order to maintain their own life. He found that decay was the work of these germs. Thus originated germiology—bacteriology. Bacteriology is the basis of almost every great medical scientific discovery which has been made since the science of curing and the science of preventing disease have advanced by leaps and bounds since this avenue was found.

After he had discovered germs and their place in the world he discovered how to use them—how to make them fight themselves. The virus of certain diseases was made up of germs. These seemed to be proof against any enemy to them which he was able to create out of drugs. But he found that he could attenuate the virus—that is to say, could artificially vary the virulence of the germs. He could make it weak enough so that it would be apparently without effect, or he could make it so strong that it would instantly kill. By weakening it he made it safe to introduce it into the veins of animals, and he found that when he had done this those animals were rendered stronger in their resistance. The germs created a property which was fatal to themselves. It was the old theory of "similia similibus curantur" (The cures like). He made germs fight germs.

That is the story of his great gifts to humanity. This is the order in which time and place he worked upon the protection of the animal kingdom. He wiped out epidemic carbuncle from the stables of the world and destroyed chicken cholera, a disease whose ravages had been severe and irremediable.

Next came the food supply. His studies of the diseases of wine, beer and vinegar have entirely robbed these three important products of their danger as the originators and communicators of disease.

When he advanced to work upon the human system he amazed the whole world by his utter destruction of such diseases as he attacked. Hydrophobia fled at the word of his name, and his treatment of it has enabled other men to take up the battle along similar lines against other diseases, and to vanquish them also. His methods of isolation and disinfection to-day protect the cities of the earth from contagious and infectious diseases, and will, when fully developed, make epidemic impossible. His aseptic and antiseptic treatments have cleared hospitals of the dreadful sores—puerperal infection, septicaemia, erysipelas—which formerly so often followed the surgeon's knife and nullified its skill. In lying-in hospitals especially have his discoveries worked a revolution, and rendered childbed infection impossible. It is estimated that 50,000 mothers' lives have been saved through this method.

To a Clever Girl.

She paints a little; glorious things, Which nature ne'er produces;
 She's also musical and sings
 When asked, nor makes excuses.

And yet not pictured canvas shows
 The coloring delicious,
 Which leath' her skill so practised grows
 Upon the dinner dishes.

No melody is half so sweet
 As that whose notes come streaming
 Out of the kettle, small and neat,
 Where cheery cooks are gleaming.

Upon your charming, gifted youth,
 The world with joy is looking;
 But, oh, my dear, your duty lies, in sooth,
 The daintiest is cooking.

—Washington Star.

Women's Bookshelves.

The new woman will not black her own shoes. No one has discovered that quicker than the bookshelves. Accordingly a sign now to the streets is springing up in various parts of the city. One in outline is in process of construction in a basement window in Walsh avenue. It reads: "Ladies' Shoe Polishing a Specialty." Down below stairs cushioned chairs stand a row on a white marble rostrum. Dainty brass footstools are placed in front of the chairs and the whole is concealed from the male portion of the establishment by a large Japanese screen. The place is not far from the Woman's Club, No. 100 West, and the new Suburban Club for women, and promises to do good trade (Chicago Tribune).

Who (affectionately)—How's your rheumatism this morning, John? Husband—Tried to, but my joints won't budge. "Why don't you try the mind cure?" "There ain't anything the matter with my mind; it's my joints."

For Thin Children.

Children are always thin and pale when they do not assimilate enough fat. This seems strange, perhaps, but it is literally true. Unless there is a healthy assimilation of fat food the blood becomes depleted, languishes for the need of proper nourishment.

Scott's Emulsion

is useful to children, especially in two ways. It is Cod-liver Oil emulsified, thus being easily assimilated and rendered palatable, with the Hypophosphites of Lime and Soda added to tone up the nervous system and nourish the bones. This combination of these potent nutrients is just what thin children need to give them flesh, color and vitality. Almost all children like it.

Don't be persuaded to accept a substitute!
 Scott & Bowne, Belleville. All Druggists. 50c. and \$1.

REFRIGERATORS.

Finished in Natural Wood,
 —Lined with—
 ZINC and
 Galvanized Iron.

Ice-box full size of top.
 A good, serviceable
 Refrigerator
 At a Very Low Price.

3 sizes. Write for prices.

McKelvey & Birch,
 KINGSTON.

What can be a greater bargain than Good, Sound Health?

NO PAIN! NO SUFFERING! NO WEARY FEELING!
 These priceless bounties are guaranteed to everyone, at a Nominal Cost, who take

MANLEY'S
 CELERY NERVE COMPOUND,

With Beef, Iron, and Wine.

The BEST BLOOD PURIFIER, TONIC AND GENERAL HEALTH RESTORE ever offered to mankind.

We do not fear comparison! You will get more genuine permanent benefit out of ONE BOTTLE of

MANLEY'S
 CELERY NERVE COMPOUND

Than out of a whole dozen of any other "Compound" on the market.

It contains no INJURIOUS DRUGS, and is based on GLYCERINE instead of Alcohol. Try it! You will then know the truth.

BE SURE AND GET
 "MANLEY'S,"

—AT THE
 Pressed Hay For Sale

Deseronto Tin Shop,
 —AT—
 BRUTON'S.

2 Doors East of Post office,

You will find everything required in the Tin, Copper, and Galvanized Iron line.

Roofing, Eave Troughing and other job work done at rock bottom prices.

Repair work neatly and promptly attended to.

E. T. MILLER,
 DESERONTO.

Remember we are still handling those finevalored Baltimore Oysters, and parties wanting quantities can be supplied on short notice.

Wishing everybody the compliments of the season,
 Yours Truly,
